

Ancient Civilizations

The list is broken into two sections – general resources for all ancient civilizations, and websites for specific civilizations. The sites are marked **E – Elementary** and **S-Secondary** for reading and appropriateness of material, but use your own judgement.

General sites:

<http://www.worldbookonline.com> : Surf the Ages section is particularly good

Webpath express – <http://destiny.rcsdk12.org>

I left off any pages that were instantly found through WebPath Express. Most if not all were listed on the previous try at this. If you do not have WebPath Express at your school, it is a search option for the guest account at #43

Son of United Streaming – whatever WXXI replaces United Streaming with, which we'll find out later (I hope). They had some good stuff.
