Dear Wilson Foundation Families,

I know that many of you are just finding time to adjust to school being out for the summer and finding constructive activities for your child! ☺ This letter is to welcome you to our summer planning season as we prepare for amazing learning experiences for all scholars and staff. Included in this letter are information documents regarding our school uniform policy (some changes are included), new student orientation invitation, and other forms that must be reviewed, signed, and returned to school.

During the summer and over the course of the next year, the staff and I will be at work getting to know your child, and continuing the following district and school-wide focus areas: **Attendance, positive-Behavior and Course Completion**. We will address these three themes by working together to make sure the children are at school on time, cooperating with their teachers, and committing to doing their best on their assignments. With main focus on instruction and student learning, we will continue to ensure that we offer the best opportunities and learning experiences for all students to be successful and to be well prepared to meet any challenge.

The faculty and staff of Wilson Foundation Academy remain dedicated to advancing your child's academic, social and personal development in a supportive, safe and challenging learning environment. We welcome your active participation in your child's education, and encourage you to be proactive in communicating with teachers, school counselor, and our administration, and, as time allows, to volunteer in our various programs and events. By working together, we will ensure success for your child.

In Partnership,

*D.A. Matthew*

Dr. Deasure A. Matthew

Principal

*Excellence for all students in all aspects of their development.*
