Our District is taking part in a national study to understand how summer learning programs can help children do better in school. The study can help improve our program and help children across the nation. This study focuses on children entering fourth grade. By signing up for a chance to be part of this program, your child will be included in the study, which includes student achievement testing in Fall 2013 and Fall 2014. The results of the achievement testing will be shared with RAND, the evaluator of the program. A parent can request in writing to the District's Rochester's Summer Scholar Program Administrator the results of the achievement tests. RAND researchers will also have access to student academic records listed below. These tests and academic records will be analyzed by RAND researchers to evaluate the summer learning program. Your child's privacy will be protected. If you have questions regarding the study, please contact Catherine Augustine at cataug@rand.org or 412- 683-2300 x4998. If you have other questions please contact the District's Summer School Hotline at 262-8323.
