# Eight Tips to Keep Your Resume Concise by Kim Isaacs, MA, CPRW, NCRW

#### 1. Avoid Repeating Information.

Did you perform the same or similar job tasks for more than one employer? Instead of repeating job duties, focus on your accomplishments in each position.

#### 2. Eliminate Old Experience.

Employers are most interested in what you did recently. If you have a long career history, focus on the last 10 to 15 years. If your early career is important to your current goal, briefly mention the experience without going into the details. For example: Early Career: ABC Company - City, State - Served as Assistant Store Manager and Clerk, 1980-1985.

#### 3. Don't Include Irrelevant Information.

Avoid listing hobbies and personal information such as date of birth or marital status. Also, eliminate outdated technical or business skills.

#### 4. Cut Down on Job Duties.

Many job seekers can trim the fat off their resumes simply by removing long descriptions of job duties or responsibilities. Instead, create a paragraph that briefly highlights the scope of your responsibility and then provide a bulleted list of your most impressive accomplishments.

## 5. Remove "References Available Upon Request."

Many job seekers waste the valuable last line of the resume on an obvious statement. Unless you're using this as a design element, remove it.

## 6. Use a Telegraphic Writing Style.

Eliminate personal pronouns and minimize the use of articles when preparing your resume.

### 7. Edit Unnecessary Words.

Review your resume for unnecessary phrases such as "responsible for" or "duties include." The reader understands you were responsible for the tasks listed on your resume.

#### 8. Customize Your Resume for Your Job Target.

Only include information relevant to your goal. This is particularly important for career changers who need to focus on transferable skills and de-emphasize unrelated career accomplishments.
