

November Event:

What is: Substance Abuse Treatment?

No one needs to face drug addiction alone
Learn About Treatment Options

Sat. November 15, 2014

1-3PM

Northridge Church
2052 St. Paul Street
Rochester, NY 14621

About UR Medicine's Strong Recovery:

Strong Recovery provides outpatient chemical dependency and opiate treatment services for individuals 18 and older with a primary substance use disorder.

Learn and Connect with Us

This session will give you an overview of the common methods used today to help people overcome drug addiction. You will also gain insights for what to expect when your family member is in treatment, and learn about the important role of family involvement

At this event, a representative from UR Medicine's Strong Recovery will share:

- What is detox?
- What is treatment?
- How can we help to get our loved one into appropriate treatment?
- What are the medications that are sometimes used in treatment (Suboxone, Methadone, Vivitrol...etc.)?
- How does treatment help with the lifelong management of substance use disorder?
- How can family involvement be most effective?

This event is free to all.

About Family Recovery Network:

We are the family and friends of good people who suffer from addiction in the Rochester community. Through the power of networking, our mission is to connect families with each other to share knowledge, notes, and personal experiences. We are families helping each other to connect with a wide range of recovery resources and professionals within our community.
