## Parent Advisory Council

### MISSION:

- To interact effectively with all constituencies, the District staff, the Board of Education, the Superintendent's Office, and the Office of Parent Engagement for the benefit of all of the city's children.
- To actively recruit parents and encourage their participation in the city's educational system at all levels.
- To support, at all levels, the involvement of parents in decision making related to the education of all of the city's children.
- To encourage parents to become actively engaged in the education of their children, as a primary responsibility, rather than as a delegated responsibility from the schools. As their first educator, parents are partners in their child's education.
- To represent all parents in the pursuit of obtaining a quality education in a safe and nurturing environment.

### How does the Parent Advisory Council (PAC) work?

PAC is the official parent advisory group of the Rochester City School District. We work in collaboration with the Office of Parent Engagement and provide recommendations to the Board of Education, the Superintendent's Office, and various district departments.

### PAC activities include:

- Monthly business meetings for PAC members
- Monthly informational meetings for district parents
- Monthly reports to the Board of Education
- Hosting parent forums
- Participating in conferences and other events

### The Role of the Parent Advisory Council

The PAC is charged with considering all issues against the single question: ***What is best for the children?***

The PAC is responsible for sharing, promoting and communicating information to District parents. PAC will present concerns from school/building level parents and parent groups to include the SBPT, PTA, PTO and PTSA.

All PAC members serve on either district, school board, or PAC committees to best represent parents.

Meeting dates, monthly agendas and minutes will be made public on the district website to ensure effective communication to all parents.

# PAC is your connection to the District!
