

RCSD Capital Investment (1987-2012) \$ / S.F.

Notes:
 The following modifications have been made to the chart to deduct from the total CIP spending expenditures that were not related to facility renovations.
 This was done to insure that the comparison of renovation spending is equivalent among the District's school facilities.

1. Schools 8, 45, Freddie Thomas, SOTA and Wilson Foundation are not included in the chart as these facilities have been built since 1994 and do not at this point require typical renovation investments.
2. The expenditures on the major additions at School 50 and Wilson Commencement were deducted as these are new build costs and not renovations costs.
3. The expenditures on whole building "gut" renovations at Schools 20 and 33 were deducted as these are more similar to new build costs and not renovations costs.
4. The purchase price for School 57, School Without Walls Foundation and SWW Commencement were deducted in calculating the total renovation costs at these facilities.
