### School Features

- Our students are enrolled and will graduate from one of the following Academies: Engineering, Information Technology or Health Sciences. In addition to a rigorous curriculum, our students graduate with up to 30 credits and are expected to complete a compensated internship between 11th and 12th grades.
- Students have numerous work-based opportunities and real life experiences through our many partnerships at local colleges, universities and companies. STEM High School is an official affiliate high school of Rochester Institute of Technology. Qualified STEM students have the opportunity to go to RIT tuition-free through the Rochester Scholar's Program.
- Guaranteed Employment for qualified graduates. The Health Care, Engineering, and Technology fields are projected to grow over 30% in the next few years. Students that graduate with these skill sets will gain employment in high-need areas.
