### School Features

- **You may only rank our school #1 if you and a parent have signed the student-parent school compact agreement AND attended a recruitment night or tour of our school.**
- Scholars are expected to complete at least 20 college credits while still in high school. In addition to the advanced college work, international curriculum and projects are infused in all content areas to promote globally competent scholars.
- Each scholar is expected to take a full course load all four years either at the high school or college. Behavior disruptions will not be tolerated in our school environment. Only serious scholars who are willing to complete extensive homework and are committed to exemplary model behavior should apply.
- Summer credit attainment opportunities for both high school and college are expected. All scholars are expected to take a foreign language for all four years, and to complete community service.
- Diversity in all facets is celebrated and respected. Our scholars are serious about tackling rigorous academic challenges and embrace *all* individuals' differences on a daily basis. College graduation is an expectation for all.
