Providing supportive services
while creating pathways to success
for young parents in the
Rochester City School District
and Greater Rochester Community

Our Mission

Pathways to Success aims to create and sustain supportive systems that help expectant and parenting teens and young adults travel pathways to success through health, education, self-sufficiency, and strong families.

Pathways to Success

“The Pathways to Success program
has truly helped our family come
together and become stronger
as a family unit.”

-Brittany G., first-time mother and P2S program participant

The Pathways to Success program is federally funded by the Office of Adolescent Health (OAH). The Rochester City School District is partnered with Monroe Community College to work together in the Rochester community, along with health and human service providers to ensure students have the support they need to be successful academically and as parents and providers for their families.

The Pathways to Success initiative has four essential components:

1. Find and engage expectant and parenting students
2. Assess their risks and assets regarding their health, education and family functioning
3. Ensure linkages and follow-up for students and their young families to community resources
4. Increase awareness of available supports and resources

Services include-

- Linkages to local agencies and organizations supporting teen parents
- Parenting classes, which include transportation assistance, day care, dinner and weekly rewards, such as baby items, supplies and other parenting materials
- Day care linkages
- Assistance with job seeking
- Academic support
- Reading programs for parents and children
- Educational workshops
- Financial literacy services
- Health and wellness services
- Networking
- Referral services
- Teen parenting support groups
- And much more!
