ABOUT OUR SCHOOL

School Without Walls is one of the oldest alternative high schools in the nation!

We are a community of learners who hold each other to high standards of behavior, school culture, and academics.

We believe that learning is a life-long endeavor and create a community that supports academic excellence and social-emotional wellbeing.

We utilize the community for learning and expect our students to do extensive community service each year.

We expect our students to excel in our rigorous academics, as well as complete performance-based assessments in all subjects leading to a Regents diploma.

Our seniors complete yearlong senior projects, hold public exhibitions of their work, and defend their work to a committee that includes community experts, teachers, and other students.

School Without Walls does not participate in the NCAA Clearinghouse. Students anticipating a Division I or Division II athletic scholarship should take this into consideration before applying.

TO LEARN MORE

Go to our website:
