

Another month—and a busy one!

There are several wonderful things happening this month. Please note picture day and the dinner for families on the 22nd. More details will be following about this event. We would love to see you there.

October was such a special month with our 2 field trips. The students really enjoyed the pumpkin farm. It is always a delightful place to visit. The families that joined us also appeared to be having a good time. There are pictures outside our classroom of both activities,

We are continuing to work with the students to write their first name. We are counting and sorting items by size and color. Our student scientists are observing and talking about what they notice and making predictions. We are waiting to see what will happen to an ear of corn when we put the entire cob in water. Many students are bringing in leaves and we are sorting them by type and color while studying the shape of the leaf.

Our routine seems well established now and the students know what to expect and can begin to prepare for the next activity. They are doing a lot of great work in small groups. We spend time each day on fine motor activities such as writing, cutting, painting, using play dough, and drawing. We are also hammering nails in a pumpkin which is great fun. It is important that they learn to use the various tools the correct way and develop those small hand muscles.

Thank you for calling when your child will be out for the day! This allows us to mark the absence legal.

We hope you have a lovely Thanksgiving break!

Ms. Swedrock, Ms. Murphy, Mrs. Ortiz, and Mrs. Burger
