Go Math First Grade

Common Core Spiral Review

This packet consists of 18 worksheets that are designed to review the standards taught in chapters 1 and 2 of Harcourt's Go Math for first grade. (1.OA.1, 1.OA.3, 1.OA.6, 1.OA.8)

For example, "Chapter 2: L4 A and B" review standards from chapter 1 and from lessons 1 – 4 of chapter 2. They should be completed after teaching lesson 4 in chapter 2.

These math sheets are great to use as a review before introducing the next lesson, as morning work, and as homework.

There are 2 worksheets with the same type of problems for each lesson. Copy front and back. Do side "A" in class and send side "B" home for homework. Or do side "A" as guided practice and "B" for independent work, assessment, etc!

Can be used as a daily math review with any CCSS math series.

Thank you for your purchase! Other chapters are also available at my TPT store.
