

CONSTRUCTION TECHNOLOGY TRAINING PROGRAM

JUNE 28TH-AUGUST 6TH

The Golisano Construction Technology Training Program held at Isaac Training and Education Center (ITEC), will be hosting a free six-week curriculum introducing all participants to scalable aspects of the building trades.

Participants will gain OSHA 10 certification and learn the following trades with hands-on experience offered in the classroom, labs and in the field.

Upon completion of the program, participants will be matched with a job and an employer that aligns with their skill sets and career goals. They will also be gifted a full tool set, preparing them for success on the job site.

Gain training in:

- Basic hand tools, materials, and safety protocols
- Roofing
- Window & Door Installation
- Siding
- Plumbing
- Pipe fitting
- Electrical Wiring
- Drywall & Finishing
- Painting
