

# How can I help my child with **MATH**?

Count your steps as you take a walk. Count by 1s, 2s, 5s, and 10s.

Give your child story problems to try and solve. Have your child **explain** how to solve the problem.

Have your child point out patterns you find.

Help your child learn math vocabulary.

Show your child that math is in our everyday lives.

Give your child coins to practice counting money.

Let your child help you cook. Cooking involves a lot of counting and measuring.
