<p><b>8th Period: 1 pm</b></p>	<p>2. The Theory of Plate Tectonics explains how the "solid" lithosphere consists of a series of plates that "float" on the partially molten section of the mantle. Convection cells within the mantle may be the driving force for the movement of the plates.</p> <p>3. Plates may collide, move apart or slide past one another. Most volcanic activity and mountain building occur at the boundaries of these places, often resulting in earthquakes.</p>	<p>to be a member of the <a href="#">Google Classroom</a>.</p>

<p>Math On Ramp  Cox  Zoom Meet:</p>	<p>All On Ramp math students have been switched to I-Ready (Clever.com) assignments. All students are working on different pre-test levels. Assignments, quiz, test, and games are all available for students to complete</p>	<p>I monitor student minutes logged and lessons passed several times a day. All students need to have a minimum of 33 minutes of work time per week. They are also required to pass an assessment at the end of each lesson to be able to move onto the next lesson. If they are unsuccessful two times, it will notify me and I will address this and give assistance to the student. Students will earn 5 extra points for each lesson passed.</p>
