

ROCHESTER CITY SCHOOL DISTRICT
CODE OF CONDUCT
Policy 1400

ACKNOWLEDGMENT

This Code of Conduct is the product of a collaborative effort by parents, students, teachers, District staff, and community members seeking to make classrooms and schools in the Rochester City School District safe, supportive, and joyful environments for teaching and learning.

This Code is intended to be a living document. We have begun with an initial goal of minimizing the push-out of students through suspensions and arrests, which are shown to contribute to what has been termed the “school-to-prison pipeline.” Multiple layers contribute to students’ success and well-being, including engaging families as partners and assuring that District personnel and school-level staff have the supports and resources they need to implement the new Code. The focus of all of our collaborative efforts, including this Code and beyond, is a vibrant and supportive school climate across the District.

We will learn as we put this Code into action. We will push toward the aspirations within it, even as we strive to assure the supports needed are in place. We will make changes and develop sections that need further work based upon our learning, and we will assess our progress ongoing in order to achieve the goals of keeping students safe, in school, and flourishing.

SCHOOL CULTURE & CLIMATE

School culture and climate affect everyone in a school community. By creating supportive and welcoming communities, we ground the lives of every community member in the values we all care about, a quality education for all students and a supportive and positive school environment for students, parents, teachers, support staff or administrators. Such grounding for all creates a profound impact upon students, both in their academic progress and their relationships with peers and adults. It deeply enhances the quality of life and the work environment for all staff in the school building. It makes a school welcoming to families and our wider community. For schooling to be successful, each school must establish and maintain a positive school culture that supports all its members—students, families, and staff—as they work together to grow, both socially and academically.

Building positive school culture entails a great deal of active work by all members of a school community. Members must come together to determine the values by which they wish to live, ensuring in doing so that the voices of all are heard. They must explore with each other types of behaviors that they believe will support their shared values, as well as behaviors that they believe will undermine them. They must have--and take advantage of--frequent opportunities to reflect on behaviors they actually participate in or observe, and to consider how to use more supportive behaviors. They must engage in frequent dialogue with other community members regarding issues of community behavior, climate, and culture. Such matters need to be a major part of study and curriculum at the school, making social, moral and ethical growth a key component of education.

TO WHOM, WHEN AND WHERE THIS CODE APPLIES

Unless otherwise indicated, this Code applies to all students, District personnel, parents, visitors and other persons on school property or attending any school function, and applies to behavior:

1. In school during school hours;
2. Before and after school, while on school property;
3. While traveling in vehicles funded by RCSD;
4. At all school-sponsored events; and
5. Off school grounds or outside regular school hours that has the potential to result in a disruption to the educational process or endanger the health, safety or welfare of those in the school community.

PROMOTING POSITIVE STUDENT BEHAVIOR

The primary goal of student discipline is to engage and re-engage students in their educational work. Student discipline should encourage students to reflect on behavior that enables them to structure behavior productively and to support moral and ethical growth. Discipline should be governed by a desire for, and commitment to, a strong educational community based on deep and caring relationships and engagement in high-quality work.

STUDENT ENGAGEMENT

Student engagement is integral to creating a positive school culture and climate that fosters students' social/emotional growth and academic achievement. Providing students with multiple opportunities to participate in a wide range of pro-social activities, to take agency and leadership in setting the tone for their school, and, at the same time, to bond with caring, supportive adults can help prevent negative behaviors and create vibrant learning opportunities for all.

Examples can include:

- providing students with meaningful opportunities to share ideas and concerns and to take an active role in school-wide initiatives and decision-making;
- student leadership development that engages a wide variety of students with different interests, personalities and cultural backgrounds (i.e., not just academically excelling, civically engaged or so-called “popular” students) who put their creativity, talents, and peer influence into action to help set the tone of a vibrant school climate;
- regular recognition of students' achievements in a range of academic and co-curricular areas;
- practice sharing constructive feedback;
- school-wide systems that promote hope, aspirations, and positive, pro-social behavior.

Such opportunities, coupled with a comprehensive guidance program of prevention and intervention, provide students with the experiences, strategies, skills, and supports they need to thrive.

GUIDING PRINCIPLES

Right to High-Quality Education

All students have a right to a high-quality education. As such, school disciplinary measures should be used to help them engage in and realize that right, not to exclude students from school or otherwise deprive them of such an education. The District will strive to reserve suspensions solely for those cases in which graduated disciplinary efforts have been employed without success, or circumstances in which the safety of students or staff or the continuance of the educational process is at risk.

General Principles

School discipline policies shall be aimed at creating a positive school climate, supporting the social and emotional development of students, and teaching non-violence and respect for all members of the school community. By viewing social development as a critical aspect of discipline, RCSD schools shall anticipate and respond to school disciplinary matters in a manner that is consistent with students' sense of dignity and self-worth.

The purpose of discipline must be to understand and address the causes of behavior, resolve conflicts, repair the harm done, restore relationships and reintegrate students into the school community. In addition, particular attention and intervention support shall be provided to vulnerable families and youth at risk of being pushed out. School staff must be supported both to develop these skills and to practice them in conjunction with students, families and their own colleagues. In order for this effort to be successful, students and their families must be valued and empowered to work together with District staff to achieve these goals.

RCSD schools shall abide by the following general principles for the implementation of school discipline:

- **Principle #1 – Positive Relationships**

School safety and academic success are formed and strengthened when all school staff and personnel build positive relationships with students and are actively engaged in their lives and learning.

- **Principle #2 – Fairness and Consistency**

School staff should promote high standards of behavior by teaching, modeling, and monitoring behavior, and by fairly and consistently promoting positive behavior.

- **Principle #3 – Engaging Instruction and Effective Classroom Management**

Effective and engaging instruction and classroom management are the foundation of effective discipline.

- **Principle #4 – Prevention and Intervention**

School discipline is best accomplished by preventing misbehavior before it occurs, and using effective interventions after it occurs.

- **Principle #5 – Discipline with Guidance**

School discipline that is paired with meaningful instruction and guidance offers students an opportunity to learn from their mistakes and contribute to the school community, and is more likely to result in getting the student re-engaged in learning.

- **Principle #6 – Maximize Learning and Minimize Removal**

Effective school discipline maximizes the amount of time students spend learning and minimizes the amount of time students are removed from their classrooms while protecting the safety of the school community and the educational process.

- **Principle #7 – Exclusionary Discipline as a Last Resort**

Use of In-School Suspensions, Out-of-School Suspensions, Expulsion, and Referrals to Alternative Schools should be minimized and used on a graduated basis wherever possible. The priority shall be to keep students in class whenever school safety and continuance of the educational process allow.

- **Principle #8 – Student Supports**

Schools must utilize guidance interventions and other appropriate support services to provide effective discipline and guidance to students, including and especially those returning from exclusionary discipline, to maximize their ability to meet social and academic standards within the school community.

- **Principle #9 – Student Responsibilities**

All students have the responsibility to work to the best of their abilities, attend school daily unless they are legally excused, contribute to maintaining a safe and supportive school environment, treat peers and school staff in a respectful manner, accept responsibility for their actions, hold themselves to the highest standards of conduct and demeanor, and promote a climate of mutual respect and dignity toward all in the school community.

- **Principle #10 – Limited Role of Law Enforcement**

School Resource Officers (SROs), School Safety Officers (SSOs) and other school safety personnel are important resources in supporting school communities to prevent and resolve conflict in positive ways. The District will support or provide training to SROs and SSOs in restorative practices, youth development, and how to respond to the special needs of young persons. All law enforcement personnel shall use, to the maximum extent possible, techniques to de-escalate conflict and repair harm and that minimize the use of arrests; and shall defer to school personnel on all issues considered to be school disciplinary matters. Every effort shall be made to identify alternatives to arrest when applicable.

- **Principle #11 – Address Racial Disparities in School Discipline**

The District must address and respond to racial inequities, institutional racism and other forms of discrimination or bias that present barriers to student success. To do so, a process must be provided whereby members throughout the school community can engage with issues honestly with the goal of healing and strengthening relationships and of uniting resolve to change how we do things and rectify the damage done by institutional racism and implicit bias.

- **Principle #12 – Non-Discrimination**

School discipline must be implemented without discrimination based on ethnicity, race, color, religion, religious practice, creed, national origin, citizenship status, ancestry, sex, gender, gender identity or expression, sexual orientation, age, weight/appearance, predisposing genetic characteristics, or disability. See the *District Policy Prohibiting Harassment or Discrimination of Students and Employees* (0100) for further information.

- **Principle #13 – Due Process**

Effective discipline can only be implemented with profound respect for the due process rights of students and parents, consistent with New York State Education Law § 3214 and the U.S. Constitution, and including, but not limited to, the right to notice of the penalty to be imposed and an opportunity to present a student’s version of the facts and circumstances that led up to the event.

- **Principle #14 – Training**

Teachers, administrators and school staff shall receive training on classroom/school management, conflict resolution, and non-punitive approaches to discipline.

- **Principle #15 – School-Level Policy**

School-level rules and codes of conduct must be consistent with this Policy, approved by the Superintendent or designee and distributed to students and parents in a manner consistent with this Policy. Schools are also expected to develop plans for improving school climate.

- **Principle #16 – Distribution of Policy**

Students, parents, teachers and other school personnel must be well-informed of school discipline policies. The District shall distribute a summary of this Policy to all students and their parents and post the Policy on the District website and in an accessible place within each school.

- **Principle #17 – Family Engagement**

Schools exist to support families in the education of their children and all staff should embrace reciprocity and meaningful engagement. School staff will keep parents informed of their children’s behavior—both positive and negative, enlist them as partners in addressing areas of concern, and always inform them directly when exclusionary discipline is called for.

- **Principle #18 – Shared Accountability**

Schools should collaborate with union, community and agency partners in order that school staff are made aware of resources and supports that will aid in their personal development and maximize their abilities to meet the academic and social needs of students in the Rochester community.

FAMILIES AS PARTNERS

Students, parents and school personnel all have a role in making schools safe and must cooperate with one another to achieve this goal. Routine outreach to parents can include, but is not limited to, a phone call and/or a written communication. As role models, parents and school staff should exhibit the behaviors that they would like to see students emulate.

To ensure that parents become active and involved partners in promoting safe and supportive school environments, they must be familiar with the Code of Conduct. School officials are responsible for sharing the information in this document with students, parents, and staff. Schools are encouraged to provide workshops for parents on understanding the Code and how best to work with the school to support their children's social-emotional growth. Educators are responsible for informing parents about their children's behavior and for nurturing the skills students need to succeed in school and society. Parents are encouraged to discuss with their children's teacher and other school staff issues that may affect student behavior and strategies that might be effective in working with the student.

It is important that there be robust consultation and communication between the school and the home. Guidance conferences attended by the principal or his/her designee, a school counselor, the student's parent(s), and one or more of the student's teachers are an effective means of encouraging parental input and should be held with students when appropriate. Parents who want to discuss interventions in response to student behavior should contact their children's school, including the Parent Liaison/Homeschool Assistant, or, if necessary, the Office of Parent Engagement.

In the event a student engages in significant inappropriate behavior, the principal or principal's designee must report the behavior to the student's parent. If a student is believed to have committed a crime, the parent must be contacted **before** the police are called to intervene, unless there is an imminent threat to safety.

ATTENDANCE

Attendance at school is vital to a student's academic progress and success. School personnel must ensure that appropriate outreach, intervention, and support are provided for students who exhibit attendance problems that may manifest themselves as truancy or patterns of unexcused absence or educational neglect. In cases of truancy, school personnel must meet with the student and parent in order to determine needed supports and an appropriate course of action, which may include, but is not limited to: guidance intervention, referral for counseling, and/or referral to after-school programs.

Each school should review cases of chronic absenteeism, classroom removals, and/or truancy and should involve attendance teachers, administrators, school counselors, teachers, social workers, and other school staff in facilitating a resolution.

DEVELOPMENTAL SUPPORTS FOR SCHOOL PERSONNEL, COMMUNITY MEMBERS, PARENTS, AND STUDENTS

A transformed, intentional school climate and culture must emphasize support for all members of the school community to maintain its vitality. Specifically, school leadership and personnel who hold positions throughout the building must be supported with a variety of resources and approaches that enable them to learn and to foster the changes and growth needed. In addition, students, families, and community members need these supports as well. Among these, everyone involved in our schools needs to be able to count on the following:

- **More opportunity to work in groups**, which reinforces interdependent, collaborative thinking.
- **Professional growth opportunities** (including trainings, professional development, shadowing colleagues or in model schools, etc.) that are aimed at the purposes and goals of transformed school climate. Vital trainings include: how to implement restorative practices; examining multiple layers of internalized, interpersonal and institutional racism that contribute to racial disparities in discipline and achievement; trauma-informed responses; and others identified by educators.
- **Community growth opportunities** that will enable families, students, and other community members to understand--and participate in--the transformation of school climate that is the central aim of this effort.
- Even as we learn from people who are deeply, theoretically grounded in this work, growth and shifting culture must be done *WITH*, not *TO* people. Engagement comes from invitation to do *with* as **co-creators of the new path forward**.
- **Avoid “one and done.”** Opportunities and time to design and practice within the context of their group of co-creators, as well as across stakeholders, along with ongoing mentoring and peer support.
- **Specific tools that everyone understands with common language** (i.e., restorative practices, anti-racism, trauma-informed practices, internal motivation).
- Simultaneously, the **recognition that there are multiple approaches** to achieving our goals and encouragement to see one another as resources rather than threats, opportunities to learn from one another for expanded knowledge, skills and tools.
- **Space with equipped support staff**, like a Student Help Zone or other area, where trained staff and/or counselors can help students work through their difficulties with the goal of getting back to the classroom as soon as possible and better able to engage with their peers and school staff.

- **A shared conviction that moral, ethical, and social development are fundamental purposes** of education, along with recognition that current educational constructs and testing regimens are pushing out the ability to focus on building blocks of personal development.
- **Time and incentives to support students' interests**, such as advising, coaching, and developing clubs and activities that boost connectedness and pride in their school.
- **Regular signals that the District is investing in supports** to transform school climate with benefits for everyone. The vision for school climate must be emphasized at all levels of the District's communications, brand, resources, and supports with the frequent message that this humane and powerful approach is worth the ongoing investment of time and effort.
- **Minimize turnover at all levels** as we find ways to institutionalize this commitment.
- **Tools for measuring the impact** of restorative and other practices teachers, schools and families are putting into place.

RCSD commits to working in a collaborative spirit across the district to phase in these supports as we work together to fundamentally transform our schools to become more restorative, problem-solving and welcoming.

SHARED ACCOUNTABILITY

Rationale

The climate of a school—the degree to which people feel safe and valued, experience communication as open, honest and caring, and feel a sense of ownership and also responsibility for one another's well-being—has a profound effect on people's ability to take creative risks, learn, grow and nurture others.

Adults are also capable of making mistakes or poor choices, saying or doing things that can have a hurtful impact, even when that is not the intent. This becomes pronounced within systems where people are placed in oppositional positions, with unreasonable pressures or scarce resources, and within the context of a society that continues to struggle with inequality, racism, sexism, ableism, ageism, heterosexism and other divisive structures.

There are learning opportunities for everyone. We all can learn much when we stop to listen, take stock of what is important to us, give attention to relationships and healing, understand the impact of our actions, and practice effective communication while owning and taking responsibility for our actions. Adults are role models for young people and teach also by the way they respond to being taken to account. Within a supportive, non-punitive, problem-solving environment with a shared vision, everyone benefits from shared accountability.

What is meant by "shared accountability?"

In all school communities, accountability must be equitably shared and reciprocal, rather than hierarchical. All community members should hold themselves, and each other, accountable both to their community and to their shared vision for their community. Members are encouraged to reflect frequently on how their behaviors either support the shared values of the community or fail to do so, and to consider behaviors that would be more supportive of the community's values.

People in the group can look at one another's actions and behaviors against shared values and communicate with others when actions undermine those shared values.

- Optimally, we establish our shared values together for how we want to operate and support one another as a community.
- Our values should be assertive toward changing the conditions that have been damaging or have been holding us back from all of us reaching our full potential as individuals, as a community, and as an institution.
- Members of the school community have an agreement with each other that we need to acknowledge and show appreciation when people are going above the shared standard, and to acknowledge and call upon people to listen, own and address their actions that have had a harmful impact.
- Everyone should know they are safe to RAISE issues, that they will be HEARD, and that something will HAPPEN in response, particularly with a focus on restoring relationships, healing, and problem-solving.
- While recognizing that formal and informal hierarchies are actively in play, shared accountability requires equity in voice *even where* there is disparate positional power. People must consciously resist leaning into our positional power to deflect or to not acknowledge when we have done harm. Shared accountability is first and foremost horizontal, not vertical or hierarchical.
- Shared accountability requires a supportive, non-punitive, problem-solving environment that is actively co-created and nurtured ongoing. As part of this environment, safe spaces allow for transparency and equitable voice among members of the community. The maintenance of the safe space is paramount for this to be effective.
- Accountability is typically not comfortable. Thus, shared accountability requires trust that we are going somewhere real together. School communities are encouraged to establish structures and processes through which such accountability can support community values and the ongoing moral and ethical development of all its members.

Rochester and RCSD have a lot of building blocks that will help pave the road toward shared accountability:

- Educators go into the profession to have an impact and are fed by feeling that impact.

Thus, we have win-win reciprocity: when everyone in the school community feels nourished by good communication and the liveliness of being with students who are excited to be there:

- ➔ quality of life and work environment is enhanced,
 - ➔ learning is improved, and
 - ➔ everyone gains more respect for one another, and thus, the ability to work together as a team for students' well-being and success.
- There is a solid community of people who *want* things to be better in Rochester and RCSD, and are working toward this.
 - More efforts are happening to be sure that opportunities are at the other end of school when students graduate (i.e., jobs, college access, etc.) so that they feel purpose, hope and investment in their education.
 - The WHOLE school experience provides opportunity for learning and growth for all members of the school community.

We aspire to sharing accountability within our District and school communities. We know that significant shifts must be made culturally and structurally to achieve this. Thus, we commit to practicing and stretching ourselves beyond what feels familiar and comfortable to help usher in the school climate that supports continual growth and joy in teaching and learning.

RIGHTS, RESPONSIBILITIES AND EXPECTATIONS

The District commits to creating learning communities in which all members are understood to be growing, caring, respectful people. To that end, all members should have the right to expect:

1. An environment that deeply supports teaching and learning.
2. Fair and respectful treatment throughout the community, with full opportunity to be heard.
3. Non-discrimination and equal treatment with respect to all school activities.
4. Open and transparent communication and explanation of school procedures, rules, and policies.
5. Commitment throughout the school to policies aimed at growth as a learning community and at growth of each individual member of the community.

The **Dignity for All Students Act (Dignity Act)** requires that no student is subject to discrimination or harassment, based on a person's actual or perceived race, color, weight/appearance, national origin, ethnic group, religion, religious practice, disability, gender, or sexual orientation by school employees or students on school property, on a school bus, at a school function or that is initiated off school grounds and has the potential to adversely affect another student's ability to participate in or benefit from a school's education or extracurricular program¹.

¹ In addition to DASA the Rochester City School District protects students' creed, citizenship status, ancestry, disability,

Harassment may include, among other things, the use, both on and off school property, of information technology, including, but not limited to email, instant messaging, blogs, chat rooms, pages, cell phone, gaming systems and social media websites, to deliberately harass or threaten others. This type of harassment is generally referred to as “cyber-bullying.”

School employees who witness harassment, bullying or discrimination or receive an oral or written report of such acts shall promptly notify the principal or Dignity Act Coordinator in accordance with Board Policy 0100 and 0100R. SRO’s should be notified in order that they may offer support in an advisory capacity and conflict resolution.

Principals & Staff Expectations

Principals and school staff have unique obligations to students and parents in the educational setting.

1. Maintain safe and orderly schools by using prevention and intervention strategies, and by following the Rochester City School District *Code of Conduct*.
2. Be respectful, fair and courteous to students, parents and guardians; serve as role models for students.
3. Attend work daily, be punctual and use well-planned, creative and engaging instructional plans every day.
4. Demonstrate passion for teaching, understanding of student centered learning and concern for equitable student achievement.
5. Participate in professional development opportunities.
6. Be knowledgeable about the policies of the Board of Education and administrative regulations and rules, and enforce them fairly and consistently.
7. Maintain confidentiality in conformance with federal and state law.
8. Be knowledgeable about federal and state laws and regulations about the disciplinary process for students with disabilities.
9. Communicate policies, expectations and concerns, and respond to complaints or concerns from students and parents or guardians in a timely manner and in a language they understand.
10. Make sure that students are referred to the appropriate committees, departments, offices, divisions, agencies or organizations when outside support is necessary. Inform students and families of resources available in the community to meet their needs.
11. Assist students in coping with peer pressure and emerging personal, social, or emotional problems.
12. Keep parents and guardians informed of student academic progress and behavior, create meaningful opportunities for their participation, and provide regular communication in a language they understand.
13. Provide information to assist students with career planning.
14. Provide makeup work for students with lawful absences, including those students who are absent for disciplinary reasons.
15. Maintain and encourage a climate of mutual respect and dignity for all students regardless of actual or perceived race, color, creed, weight/appearance, religion, religious practices, creed, sexual orientation, gender, gender identity or expression, national origin, ethnic group, ancestry, citizenship status, political affiliation, age, marital status, predisposing genetic characteristics, or disability, with an understanding of appropriate appearance, language, and behavior in a school setting, which will strengthen students' self-image and promote confidence to learn.

16. Confront issues of discrimination and harassment in any situation that threatens the emotional or physical health or safety of any students, school employee or any person who is lawfully on school property or at a school function.
17. Address personal biases that may prevent equal treatment of all students in the school or classroom setting
18. Report incidents of discrimination and harassment that are witnessed or otherwise brought to the attention of the teacher, school counselor, student support services personnel or other staff to the building administrator and/or Dignity Act Coordinator (DAC) and/or the Chief of Human Capital Initiatives in a timely manner.
19. Work together with students and parents to maintain a positive school climate.
20. Principal: Meaningfully address in a timely manner any incidents of discrimination and harassment that are witnessed or otherwise brought to the Principal's attention in collaboration with the Dignity Act Coordinator (DAC) or the Chief of Human Capital Initiatives, as applicable.
21. Principal: Ensure that students and staff have the opportunity to communicate regularly with school administrators and have access to the principal to address grievances.

Dignity Act Coordinator Expectations

Oversee and coordinate the work of building-level bullying prevention activities.

1. Be thoroughly trained to handle human relations in the areas of race, color, creed, weight/appearance, religion, religious practices, creed, sexual orientation, gender, gender identity or expression, national origin, ethnic group, ancestry, citizenship status, political affiliation, age, marital status, predisposing genetic characteristics, or disability.
2. Identify curricular resources that support infusing civility in classroom instruction and classroom management; and provide guidance to staff as to how to access and implement those resources.
3. Be responsible for monitoring and reporting the effectiveness of the school's bullying prevention practices.
4. Meaningfully address issues of harassment or situations that threaten the emotional or physical health and safety of any student lawfully on school property or at a school function.
5. Be accessible to students, parents and staff members.

Superintendent Expectations

Superintendents play a lead role in supporting school leaders as they strive to establish positive school climates.

Expectations

1. Promote a safe, positive, orderly, respectful and stimulating environment, free from intimidation, discrimination and harassment, supporting active teaching and learning.
2. Provide building level staff with appropriate administrative support.
3. Review with District administrators the policies of the Board of Education and state and federal laws relating to school operations and management.
4. Inform the School Board about educational trends, including student discipline.
5. Work to create instructional programs that reduce instances of misconduct and are sensitive to student and teacher needs.
6. Work with District administrators in enforcing the Code of Conduct and ensuring that all cases are resolved promptly and fairly.
7. Address all areas of school-related safety concerns.
8. Address personal biases that may affect equal treatment of students and staff.
9. Maintain confidentiality in accordance with federal and state law.

School Board Expectations

The School Board is obligated to ensure that the District has a Code of Conduct that effectively supports positive school climates.

1. Collaborate with students, teachers, administrator and parent organizations, school safety personnel, other school personnel and the community to develop a Code of Conduct that clearly defines expectations for the conduct of students, District personnel and other persons on school property and at school functions.
2. Adopt and review at least annually the Code of Conduct to evaluate its effectiveness and the fairness and consistency of its implementation.
3. Adopt an annual budget that supports effective implementation of the Code of Conduct.
4. Appoint one staff member in each school building who is thoroughly trained to handle human relations in the areas of race, color, creed, weight/appearance, religion, religious practices, creed, sexual orientation, gender, gender identity or expression, national origin, ethnic group, ancestry, citizenship status, political affiliation, age, marital status, predisposing genetic characteristics, or disability (Education Law §13[3]) as the Dignity Act Coordinator (DAC).

5. Lead by example by conducting Board meetings in a professional, respectful, courteous manner.
6. Take appropriate measures where violations of the Code of Conduct occur.
7. Maintain confidentiality in accordance with federal and state law.
8. Address personal biases that may affect equal treatment of students and staff.

PREVENTION, INTERVENTION & PROGRESSIVE DISCIPLINE

Universal Prevention

A district-wide, whole school approach to promoting positive behavior is the foundation to building and maintaining a positive culture within each school. A universal youth development prevention framework that is consistent, pro-active and builds on the strengths of all students, adopted district-wide and implemented within each school and classroom provides prevention supports to all students. Prevention strategies incorporated into classroom daily activities and integrated into curriculum reinforces and supports relationship-building, strengthening social and emotional skills, developing positive mindsets and self-regulation strategies and forms the foundation for a discipline framework.

Guidance Interventions Contrasted with Disciplinary Responses

Responding to problem behaviors through early, systematic interventions when problems are first identified can prevent escalation and repeat occurrence of problem behaviors. Smaller interventions are attempted and, if unsuccessful, more intensive interventions are brought to bear. All interventions should connect to the norms, principles, expectations and strategies that the district and school-wide prevention framework focuses on so children can reflect on their actions and link back to the universal prevention strategies being developed and taught.

Supportive and guidance interventions are preferred over punitive and exclusionary approaches, yet there will continue to be situations in which students will receive disciplinary and exclusionary consequences. The Code of Conduct uses the term “disciplinary response” to describe warnings, loss of privileges, detentions, suspensions and other disciplines, in contrast to “guidance intervention” which denotes more individualized and supportive responses to problem behaviors.

Progressive Discipline

Understanding discipline as a “teachable moment” is fundamental to RCSD’s approach to discipline. Progressive discipline uses incremental interventions to address inappropriate behavior with the ultimate goal of teaching pro-social behavior. Progressive discipline seeks concurrent accountability, learning, and behavioral change.

Progressive discipline aims at creating recurring learning opportunities around behavioral, moral, and ethical issues. By so doing, it can prevent recurring negative behaviors by helping students learn from their mistakes. Implementing progressive discipline requires that school staff help students who have engaged in misconduct:

- a. Understand the harm the behavior caused.
- b. Understand why the behavior occurred and what they could have done differently in the same situation
- c. Take responsibility for their actions
- d. Use the opportunity to repair the harm, to rebuild relationships, and to learn strategies and skills to use in the future
- e. Understand the progression of more stringent consequences if the behavior reoccurs.

This Code of Conduct outlines interventions and consequences that are appropriate to respond to student behaviors.

Restorative Approaches

Restorative practices foster healthy relationships within the school community and promote positive discipline in schools by resolving conflicts, holding individuals and groups accountable, repairing harm, reducing and preventing student misbehavior, and addressing the needs of all parties involved. Restorative practices can precede student misbehavior and be used proactively to prevent conflict and student misbehavior, as well as after conflict or misbehavior has occurred. School staff and partners in the building should take a restorative approach to addressing student misconduct.

Restorative approaches can take many forms, but at their core, restorative approaches seek to find out what happened, who was harmed by the behavior, what needs to be done to make things right or repair the harm, and how people can behave differently in the future. Examples of restorative practices include but are not limited to talking to students about their actions, facilitated circles, and peer mediation.

For more detail, see Appendix B (Restorative Practices).

LEVELS OF INTERVENTION AND DISCIPLINARY RESPONSES

Factors to Consider in Determining Disciplinary Responses

School staff must consider what factors contributed to the problem behavior and whether such behavior could be alleviated by helping the student understand and deal with the factors causing the behavior.

1. Age, health, and disability or special education status of the student.
2. Appropriateness of student's academic placement.
3. Student's prior conduct and record of behavior.
4. Student's understanding of the impact of their behavior.
5. Student's willingness to repair the harm caused by their behavior.
6. Seriousness of the behavioral offense and the degree of harm caused.
7. Whether the behavior constitutes a DASA violation, and if so, what response is required to satisfy the District's obligations under DASA.
8. The circumstances/context in which the conduct occurred.
9. Whether the student was acting in self-defense.
10. Whether the student's offense threatened the safety of any student or staff member.
11. Impact of the incident on overall school community.
12. The likelihood that a lesser intervention would adequately address the violation.
13. Whether the school made any effort to address the student's behavior using positive, preventive methods prior to the incident at issue.
14. Any other mitigating or aggravating circumstances that may be relevant.
15. In the event that a court issues an order of protection for the benefit of a District student or employee, the student against whom the order is issued may be transferred to another school if necessary to comply with the order.

Guidance for Disciplinary Responses

School staff have discretion in choosing which interventions and consequences within the level are appropriate, but their discretion is guided by the following:

- Whenever possible and appropriate, the response to misconduct should begin with the lowest level of disciplinary response and should include appropriate guidance intervention(s).
- Whenever possible and appropriate, prior to imposing exclusionary discipline, school officials should exhaust less severe disciplinary responses and use guidance interventions.
- More severe accountability measures and intensive guidance interventions will be used with students who engage in a pattern of persistent misconduct.

Range of Disciplinary Responses and Delineation of Authority

1. Oral warning – any member of the District staff.
2. Written warning – bus drivers, hall and lunch monitors, coaches, guidance counselors, teachers and other certificated staff, Principal, Assistant Principal, Superintendent.
3. Written notification to parent – bus driver, hall and lunch monitors, coaches, guidance counselors, teachers and other certificated staff, Principal, Assistant Principal, Superintendent or designee.
4. Detention – teachers and other certificated staff, Principal, Superintendent or designee.
5. Suspension from transportation – Director of Transportation, Principal, Superintendent or designee.
6. Suspension from athletic participation – coaches, Principal, Superintendent or designee.
7. Suspension from social or extra-curricular activities – activity director, Principal, Superintendent or designee. Teachers may suspend students from social or extra-curricular events or activities which the particular teacher organizes and supervises.
8. Suspension of other privileges – Principal, Superintendent or designee.
9. Suspension or revocation of student's access to District computers and Internet connections—Principal, Superintendent or designee.
10. In-school suspension – Principal, Superintendent or designee.
11. Removal from classroom by teacher – teachers.
12. Short-term (five days or less) suspension from school – Principal, Superintendent or designee, Board.
13. Long-term (more than five days) suspension from school – Principal (may recommend), Superintendent or designee or Board (may impose long-term suspension).
14. Removal from a regular school program—Superintendent or designee, Board.
15. Permanent suspension from school – Superintendent or designee, Board.
16. Other remedies authorized by law—official designated by applicable statute or regulation.

Matrix for Guidance Interventions and Disciplinary Responses

The Code of Conduct holds students accountable for their behavior. Misconduct is grouped into four levels based on the seriousness of the behavior. Each level contains a variety of interventions and consequences for school staff to use in response to the student behavior. The Code of Conduct provides graduated accountability measures for students who engage in repeated behaviors despite prior interventions or consequences.

Under this Matrix, school staff respond to student behaviors with guidance interventions and, depending on the circumstances, disciplinary responses. School staff can choose one of many guidance interventions to help students improve their behavior. At all levels, students may receive a non-disciplinary referral to support staff in the school building.

The Matrix intentionally limits the behaviors for which a student can receive a disciplinary exclusion, such as classroom removal, short- or long-term suspension, or expulsion. Except for prolonged or repeated behaviors, students are not suspended for Level 1 or 2 behaviors or removed from a classroom for Level 1 behaviors. Students may be given a classroom removal for Level 2, 3, or 4 behaviors. Students may be given suspension for Level 3 or 4 behaviors. Students who engage in misconduct that is not included in the Matrix are subject to appropriate disciplinary measures as determined by school administration, consistent with the disciplinary levels for similar behaviors set forth in the matrix.

Level 1	Uncooperative / Noncompliant Behavior	Classroom Interventions; Student Support Team Interventions
Level 2	Disorderly / Disruptive Behavior	Intensive Support Staff; Administrator Interventions and Responses
Level 3	Aggressive or Injurious / Harmful Behavior	Referral Interventions; Suspension Responses
Level 4	Seriously Dangerous or Violent Behavior	Referral Interventions; Extended Suspension Responses

How to Use the Behaviors and Responses Matrix

In responding to misconduct, school staff should use the matrix below, in conjunction with the table above, as follows:

1. School staff should locate the behavior on the Matrix.
2. On the first instance of any inappropriate or disruptive behavior, school staff shall utilize one or more guidance interventions, and disciplinary responses, if appropriate, from the lowest level indicated (bulleted) on the Matrix for that behavior (or one or more interventions or disciplinary responses from any lower level). (See table above for interventions and responses.)
3. If the same behavior is repeated during the same school year, school staff may utilize one or more interventions or disciplinary responses from the next higher level on the Matrix for that behavior, or any lower level. If there is only one level indicated for that offense, then any

interventions or disciplinary responses utilized must be from that same level or a lower level. Except in cases of **repeated and persistent violations of the same or similar nature**, the Matrix's response levels shown for a particular behavior may not be exceeded.

4. Except in cases of repeated and persistent violations of the same or similar nature, school staff may not utilize interventions and disciplinary responses from those boxes that are shaded. In those cases in which the disciplinary response from the shaded boxes are used, restorative practices should still be considered as a component of the response. Staff is encouraged to use guidance interventions whenever possible.

EXAMPLE

> If a student displays disrespectful behavior and it is determined that an intervention or disciplinary response is needed, the teacher should utilize one or more interventions from Level One.

> If that student is again disruptive during the same school year, the teacher may utilize one or more interventions from Levels One or Two.

> If the interventions are unsuccessful and the student commits the same infraction a third time, then the teacher may utilize one or more interventions from Levels One and Two.

> In circumstances in which the student has **repeatedly and persistently** engaged in **violations of the same or similar nature**, interventions from Levels Three or Four (shaded in gray) may be utilized.

*The list of guidance interventions is not all-inclusive. Other options that support students in the classroom and in the school without removing them from the school environment may be considered and used.

LEVELS OF INTERVENTIONS AND DISCIPLINARY RESPONSES

Universal Prevention for All Students

The District takes a whole school approach to promoting positive behavior. Social-emotional learning is infused into a culturally responsive curriculum that engages students. Staff meets regularly to ensure that there is a comprehensive student support program in place that includes guidance services, opportunities for social-emotional learning, student engagement opportunities and prevention and intervention behavioral supports to encourage and motivate pro-social student behavior and positive connection to the school community. Restorative circles and other restorative practices are used regularly to build relationships, establish understanding and trust and create community. The school has a system in place for early identification of students in need of intervention and/or support services.

KEY: USE LOWEST LEVEL INDICATED FIRST

	Student Support Team Interventions. These interventions often involve support staff, both school based and within the broader community, and aim to engage the student's support system to ensure successful learning and consistency of interventions, and change the conditions that contribute to the student's inappropriate or disruptive behavior. Staff should use these responses in a graduated fashion.	<ul style="list-style-type: none"> Any of the above interventions Parent accompanies student to school if parent agrees and as part of contractual requirements Referral to building-wide support location Referral to after-school program Referral to Student Support Team Referral to mentoring program Referral to school-based health or mental health clinic Referral to community-based organization Referral to substance abuse treatment services Change in schedule or class if applicable Functional Behavioral Assessment and creation of a Behavior Intervention Plan Referral to CSE or 504 team. Peer mediation Restorative approaches, including community service or restitution Conflict resolution Community mediation Community conferencing 	
Level 2	Intensive Support Staff and Administrative Interventions and Responses. Staff should use these responses in a graduated fashion.		<ul style="list-style-type: none"> Any of the above consequences Reprimand by appropriate administrator Loss of school privilege Detention Classroom removal (up to ½ day)
Level 3	Suspension and Referral Interventions and Responses. These interventions may involve the short-term removal of a student from the school environment because of the severity of the behavior. The duration of the short-term suspension, if issued, is to be limited as much as practicable while adequately addressing the behavior. Staff should use these responses in a graduated fashion.		<ul style="list-style-type: none"> Any of the above consequences Short-term suspension (one to five days)
Level 4	Extended Suspension and Referral Responses. These interventions involve the removal of a student from the school environment because of the severity of the behavior. They may involve the placement of the student in a safe environment that provides additional structure to address behavior. These interventions focus on monitoring the safety of the school community and ending self-destructive and dangerous behavior. Staff should use these responses in a graduated fashion.		<ul style="list-style-type: none"> Any of the above consequences Long term suspension

SCHOOL BASED SAFETY CODES

Every District building has a safety code designed to handle issues of building safety and emergency preparedness, and buildings may have conduct codes supplemental to the District *Code of Conduct*. All students, District personnel and visitors are expected to comply with building rules, and with any additional rules established to meet alerts issued by the U.S. Department of Homeland Security, law enforcement or other authorized public agencies, and to do their part to create safe environments.

Arrests and Referrals to Law Enforcement

Appendix E to this Policy contains the comprehensive guidance regarding law enforcement in schools.

In general, arrests for school-based behavior should only be used as a last resort when there is a serious, actual threat to safety. Incidents should be resolved without arrests as much as practicable.

Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with criminal investigations. Consistent with Board Policy 5600 and Superintendent Regulation 5600-R, police officials may enter school property or a school function to question or search a student or to conduct a criminal investigation involving students only if they have:

1. A search or an arrest warrant; or
2. Probable cause to believe a crime has been committed on school property or at a school function.

The school principal, or designee, will immediately contact the parent/guardian when the police seek to question or search a student as part of a criminal investigation. If the parent/guardian cannot be reached, or the parent refuses to consent to the search or questioning, the questioning or search of the student cannot be conducted, unless the student is at least 18 years of age or there is an imminent threat to safety. Whenever possible, the parent/guardian (or the Principal or designee, if the parent is unavailable) will be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights that they have outside of school.

The matrix notes the circumstances under which reports to law enforcement may be considered or are required.

School officials should use their discretion before notifying law enforcement, and should consider the following factors:

1. Age, health, and disability or special education status of the student;
2. Appropriateness of student's academic placement;
3. Student's prior conduct and record of behavior;
4. Student's understanding of the impact of their behavior;
5. Student's willingness to repair the harm caused by their behavior;
6. Seriousness of the behavioral offense and the degree of harm caused;
7. Whether the behavior constitutes a violation of the Dignity for All Students Act (DASA), and if so, what response is required to satisfy the District's obligations under DASA.
8. The circumstances / context in which the conduct occurred;
9. Whether the student was acting in self-defense;
10. Whether the student's offense threatened the safety of any student or staff member;
11. Impact of the incident on overall school community;
12. The likelihood that a lesser intervention would adequately address the violation.
13. Whether the school made any effort to address the student's behavior using positive, preventive methods prior to the incident at issue.
14. Any other mitigating or aggravating circumstances that are relevant.

The school principal, or designee, will immediately contact the parent/guardian of any student arrested or involved in a criminal investigation on school grounds in all non-emergency situations, or as soon as practicable in emergency situations. Consistent with Board Policy 5600 and Superintendent's Regulation 5600-R, any time the police seek to arrest a student, the Principal or designee must contact the Law Department, and a member of the Law Department must be present for the arrest.

Students and their families are not prohibited from contacting the police if they believe that a student has been the victim of a crime. See Appendix E (Law Enforcement) for more details.

Student Removals & Due Process

On occasion, a student may engage in behavior that threatens the safety of others in the school community or seriously disrupts the school environment and needs to be removed through a temporary classroom removal, suspension or expulsion. However, written referrals shall not be used to document supports offered to students within the classroom (e.g. timeouts and other informal measures).

There are four ways that schools can remove students for disciplinary reasons:

1. Temporary Classroom Removal by Teacher (up to 1/2 day)
2. Short Term Suspension by Principal (1-5 days), either in or out of school
3. Long Term Suspension by Superintendent (6 days – 365 days)

4. Expulsion by Superintendent

In these cases, students are entitled to due process, which means that the school staff must take steps to investigate the incident and talk to the student before making the decision to remove the student from school. Due process generally includes the right to receive notice of why a person is being removed from school and an opportunity for that person to tell his/her side of the story before a final decision is made. Parents must receive notice of the behavior and the discipline response. The longer the removal, the more steps the school must take before removing a student. Students with disabilities are entitled to additional due process.

For a full list of the steps that are required, see Appendices C (Due Process) and D (Students with Disabilities).

Alternative Instruction

The mission of the District is to educate all students to their highest level of performance. The District is committed to meeting or exceeding the performance goals it has established, as well as the performance guidelines established by the State of New York; and to taking all feasible steps to provide that a suspension will not be the reason for any student to fall behind in achieving those goals.

The Board expects students, administrators, teachers, and parents to make every effort to maintain student academic progress in the event of removal or suspension, and support student re-entry into the school and classroom at the conclusion of the disciplinary action.

When a student is removed from class by a teacher, or a student of compulsory school age is suspended from school pursuant to Education Law § 3214, the District will take the necessary steps to provide alternative instruction as required by this Code and by applicable law. The method of alternative instruction shall be appropriate to the circumstance (e.g., long-term, short-term, in-school suspension, or removal from class). In all cases, it shall be incumbent upon the building staff to ensure that each student has course assignments available for him or her for the period of removal or suspension; and that upon return to regular classes, those assignments are turned in within the same time frames as provided for make-up opportunities in the case of excused absence. It is the responsibility of each student to complete all such assignments and, where assigned to an alternative site or to a tutor, to attend and perform to the best of the student's ability.

Prohibited and Permitted Physical Force

Corporal punishment is any act of physical force upon a student for the purpose of punishing that student. Corporal punishment of any student by any District employee is strictly forbidden.

However, in situations where alternative procedures and methods that do not involve the use of physical force cannot reasonably be used, state regulation provides that reasonable physical force may be used to:

1. Protect oneself, another student, teacher or any person from physical injury.
2. Protect the property of the school or others.
3. Restrain or remove a student whose behavior interferes with the orderly exercise and performance of School District functions, powers and duties, if that student has refused to refrain from further disruptive acts.

The District will file all complaints about the use of corporal punishment with the Commissioner of Education in accordance with Commissioner's regulations.

Ref.: 8 NYCRR §§19.5(a)-(c); 100.2(l)(3)(i).

Student Searches

The Board of Education is committed to ensuring an atmosphere on school property and at school functions that is safe and orderly. To achieve this kind of environment, any school personnel authorized to impose a disciplinary penalty on a student may question a student about an alleged violation of law or the Code of Conduct.

In addition, the Board authorizes the Superintendent, building principals and District security officials to conduct searches of students and their belongings if the authorized school official has reasonable suspicion to believe that the search will result in evidence that the student violated the law or the *Code of Conduct*. An administrator or security personnel acting under the direction and supervision of an administrator may conduct a search of a student's belongings that is minimally intrusive, such as touching the outside of a book bag, without reasonable suspicion, so long as the official has a legitimate reason for the limited search. Other school personnel may conduct a search only in a situation where the circumstances do not allow the calling of the Superintendent, building principal or security official.

If practicable, the school official conducting a search shall consult with the School Chief or Law Department concerning the presence of reasonable suspicion and shall have another adult witness the search. Whenever practicable, before searching a student or the student's belongings, the authorized school official should first ask the student if he or she possesses physical evidence that the student violated the law or the *Code of Conduct* and/or ask the student to voluntarily surrender the evidence and/or consent to the search.

Searches will be limited to the actions necessary to locate the evidence sought. Whenever

practicable, searches will be conducted in a private area and students will be present when their possessions are being searched.

The rules in these standards regarding searches of students and their belongings do not apply to student lockers, desks and other school storage places. Students have no reasonable expectation of privacy with respect to these places and school officials retain complete control over them. This means that student lockers, desks and other school storage places may be subject to search at any time by school officials, without prior notice to students and without their consent.

Searches may be conducted on school property or at school functions, including searches of lockers, hotel rooms, vehicles or other facilities used by students during school sponsored trips, or athletic or academic events, in which case the staff member, chaperones, or coaches involved in such activity shall be deemed to have the same authority to act that applies to a building principal or security official on school property.

Strip searches of students are expressly prohibited in all circumstances under this policy. "Strip search" is defined as a search requiring a student to remove all clothing.

If the Principal or designee determines that there is an imminent threat to the safety of the student or others, law enforcement must be contacted to intervene.

In all cases, reports shall be completed regarding the circumstances and results of the search. Any dangerous or illegal items, such as weapons or controlled substances, taken during the course of the search shall be turned over to the Director of Safety and Security or law enforcement authorities.

The authorized school officials conducting the search shall be responsible for promptly recording the following information about each search:

1. Name, age and grade of student searched;
2. Detailed reasons for the search;
3. Name of any informant(s);
4. Purpose of search (that is, what item(s) were being sought);
5. Type and scope of search;
6. Person conducting search and his or her title and position;
7. Witnesses, if any, to the search;
8. Time and location of the search;
9. Results of the search (that is, what items(s) were found);
10. Disposition of items found; and
11. Time, manner and results of parental notification

The Principal or the Principal's designee shall be responsible for the custody, control and

disposition of any dangerous item taken from a student, and immediately turn over any illegal item, or item which may constitute evidence of a crime to the Rochester Police Department or other authorized law enforcement agency. The Principal or his or her designee shall clearly label each item taken from the student and retain control of the item(s) until the item is turned over to the police. The Principal or his or her designee shall be responsible for personally delivering dangerous or illegal items to the Director of Safety and Security or to law enforcement.

Computer Identification Systems & Random Metal Detection

At all secondary schools, computer identification systems shall be used to supplement other safety initiatives, and to ensure to the extent feasible that unauthorized access to the schools is minimized. All students are required to carry their student identification, and to present it upon request to any District official or employee. Metal detection systems, including hand-held wands, walk-through and x-ray capacity equipment may be used by trained personnel at any school in a random manner, and may be done on a non-random basis premised upon reasonable suspicion. All students are subject to scanning procedures, and to confiscation of any material prohibited by law, school policy, or regulation. If a student refuses to cooperate with the scanning or authorized pat down process, support staff shall be called for intervention and mediation. If the student continues to refuse to comply, the student may be referred for disciplinary action.

Students' Electronic Devices

A student's electronic device may be confiscated by District personnel pursuant to a school building's procedures if the principal determines that the possession of such a device is disruptive or distracting to the school environment or educational process. For purposes of this policy, electronic devices include, but are not limited to: cell phones, smartphones, mp3 players, ipods, ipads, Kindles, Nooks, PDAs, laptops, pagers, recording devices, games and other mobile electronic devices. The confiscated electronic device must be properly identified, placed and stored in a locked container or room. Each school shall create storage and return procedures consistent with this policy. Claims related to the loss of a student's electronic device that result from a school's failure to abide by this policy shall be paid through the school's discretionary fund.

In accordance with state guidelines and to ensure the integrity of testing, students are not allowed to bring cell phones or other electronic devices into classrooms or other exam locations during administration of NYS or in any other assessments.

Test proctors, monitors and school officials have the right to collect cell phones and other prohibited electronic devices prior to the start of the test and to hold them for the duration of

the test-taking time. Admission to the test will be denied to any student who has a cell phone or other electronic device in their possession and does not relinquish it.

Students with Individualized Education Plans (IEP), 504 Plans, or documentation from a medical practitioner that specifically requires the use of an electronic device may do so as specified.

District Computer Equipment/Websites/E-mail Used by Any Person

No person using District faxes, computer equipment, software owned, leased or controlled by the District, or websites, e-mail or Internet access provided by the District has a reasonable expectation of privacy with respect to such equipment, software, websites, e-mail or Internet access provided by the District. No person shall knowingly add any program or any hardware attachment (including wireless apparatus) to any such equipment without the express written consent of the District's Information Management & Technology Department; nor shall any person knowingly or intentionally use any proprietary software on District equipment unless a valid license has been issued for such use on such equipment; nor shall any person intentionally expose District equipment to any computer virus, worm or other technological invader. No user shall use District equipment to engage in extensive or abusive non-business or nonacademic projects or Internet searches, since such use tends to slow and/or compromise the system and make it less accessible for District educational and business operations. The District reserves the right to monitor the use of its equipment and software, and to monitor e-mail, websites and Internet access using District equipment or on school property without prior notice or consent. Any use of District computer equipment or software, or Internet access from District equipment or from school property which violates federal or state law may be reported to appropriate law enforcement officials, and may also result in both disciplinary action and denial of prospective use of such equipment and of Internet access, and in a civil action to recover any judgment, settlement, fine or penalty imposed upon the District because of such statutory violation. Any use of such equipment or facilities which violates provisions of this *Code of Conduct* may result in both disciplinary action and denial of prospective use of such equipment and of Internet access.

PUBLIC CONDUCT ON SCHOOL PROPERTY

The District is committed to providing an orderly, respectful environment that is conducive to learning. To create and maintain this kind of an environment, it is necessary to regulate public conduct on school property and at school functions, including meetings or hearings conducted by the Board of Education. For purposes of this section of the *Code*, "public" shall mean all persons

on school property or attending any school function wherever located, including visitors, students, parents, teachers and other District personnel.

The restrictions on public conduct on school property and at school functions contained in this *Code* are not intended to limit freedom of speech or peaceful assembly. The District recognizes that free inquiry and free expression are indispensable to its objectives. The purpose of this *Code* is to maintain public order and prevent abuse of the rights of others.

All persons on school property or attending any school function, meeting, conference or hearing shall conduct themselves in a respectful and orderly manner. Just as parents, guardians and other visitors expect the administrators, teachers and staff to treat them with dignity and civility, those visitors are expected to extend the same courtesy and cooperation to the District's employees. Good sportsmanship and civility are expected of all persons participating in, coaching or attending sports events, or attending public assemblies and programs. In addition, all persons on school property or attending a school function are expected to be properly attired for the purpose for which they are on school property.

This provision is supplemental to other policies of the Board of Education relative to the use of District property by members of the community, and is directed specifically to assuring to the fullest possible extent that all users of District property, including visitors, comport themselves in a civil, peaceful and lawful manner.

PROHIBITED CONDUCT ON SCHOOL PROPERTY

No person, either alone or with others, shall:

1. Intentionally or recklessly injure any person or threaten or attempt to do so.
2. Intentionally or recklessly damage or destroy, or attempt to damage or destroy District property or the personal property of a teacher, administrator, other District employee or any person lawfully on school property, including graffiti or arson.
3. Disrupt the orderly conduct of classes, school programs, sporting events, assemblies, theatrical or musical presentations, meetings, conferences, hearings, Board of Education meetings or other school activities.
4. Distribute or wear materials on school property or at school functions that are obscene, or advocate illegal action, appear libelous, obstruct the rights of others, or are disruptive to the school program.
5. Intimidate, harass or discriminate against any person on the basis of actual or perceived race, color, creed, weight/appearance, national origin, citizenship status, ethnic group,

religion, religious practice, age, gender (including gender expression and gender identity), sexual orientation, disability, predisposing genetic characteristics, marital status, partnership status, domestic violence victim status, military work or status, veteran status, or political affiliation; or use language or gestures which a reasonable person would find intentionally discriminatory toward any person or group entitled to protection in his or her right to obtain an education under the New York State Executive Law. Such intimidation may be person-to-person, or communicated indirectly by writing, or by any telephonic or electronic means, including use of computers or the Internet.

6. Intimidation or “bullying” on school property or at a school function, which includes harassment that interferes with a student’s education or threatens a student’s well-being. Harassment includes engaging in actions or making statements that are intended to place an individual in fear or cause emotional harm; threatening, stalking or seeking to coerce or compel a person to do something; or abusive conduct or use of epithets, threats, or slurs based on actual or perceived race, color, weight/appearance, ethnicity, national origin, citizenship status, creed, religion, religious practices, age, gender, gender identity or expression, sexual orientation, disability, predisposing genetic characteristics, marital status, partnership status, domestic violence victim status, military work or status, veteran status, or political affiliation. Such harassment may be person-to-person, or communicated indirectly by writing, or by any telephonic or electronic means, including use of computers or the Internet.
7. Enter any portion of the school premises without authorization or remain in any building or facility after it is normally closed.
8. Obstruct the free movement of any person in any place to which this code applies.
9. Violate the traffic laws, parking regulations or other restrictions on vehicles.
10. Possess, consume, sell, distribute or exchange alcoholic beverages or controlled substances, or be under the influence of either on school property or at a school function.
11. Possess or use weapons in or on school property or at a school function, except in the case of law enforcement officers while on duty as such, or except as specifically authorized by the Board of Education or by statute.
12. Loiter on or about school property.
13. Gamble on school property or at school functions.

14. Refuse to comply with any reasonable order of identifiable District officials performing their duties.
15. Willfully incite others to commit any of the acts prohibited by this Code.
16. Violate any federal or state statute, local ordinance or Board policy while on school property or while at a school function.
17. Comport themselves in a manner which violates District rules, particularly with regard to the limited public forum made available by the Board; or which violates the terms of any use permit.
18. Threaten to use any weapon; or brandish or display what appears to be a weapon.
19. Attempt to obtain property or favor from another by threat or by force.
20. Threaten bodily harm to staff or students. A threat exists whenever a reasonable person would interpret the statement as a serious expression of intent to harm or assault.
21. Use language or gestures that are profane, lewd, vulgar or abusive, or uncivil, particularly during meetings, conversation or discussion with any teacher, administrator, staff member or student.
22. Place a bomb, explosive, biological or chemical weapon or incendiary device on District property, whether or not active; or make a telephoned, written or electronic message that a bomb, explosive, biological or chemical weapon or incendiary device has been or will be placed on or near District property.
23. Commit any other act on District property or at a school function which would be prohibited under this Code if committed by a student of this District.

Visitors to Schools

The Board encourages parents and other citizens to visit the District's schools and classrooms to observe the work of students, teachers and other staff. Since schools are a place of work and learning, however, certain limits must be set for such visits. The building principal or his or her designee is responsible for all persons in the building and on the grounds. For these reasons, the following rules apply to visitors to the schools:

1. Anyone who is not a regular staff member or student of the particular school will be considered a visitor (including central office staff).

2. All visitors to the school must report to the office of the principal upon arrival at the school. There they will be required to sign the visitor's register. If identification badges are used in the building, they will be issued a visitor's identification badge, which must be worn at all times while in the school or on school grounds. The visitor must return the identification badge to the principal's office before leaving the building.
3. Visitors attending school functions that are open to the public, such as parent-teacher organization meetings, athletic competitions or public gatherings, are not required to wear an identification tag.
4. Parents or citizens who wish to observe a classroom while school is in session are required to arrange such visits in advance with the classroom teacher(s), so that class disruption is kept to a minimum.
5. Teachers are not expected to take time to discuss individual matters with visitors during class time.
6. Any unauthorized person on school property will be reported to the principal or his or her designee. Unauthorized persons will be asked to leave. The police may be called if the situation warrants.
7. All visitors must abide by the rules contained in the *Code of Conduct*.

REPORTING VIOLATIONS

All students have a duty to promptly report violations of the Code of Conduct to a teacher, guidance counselor, the Building Principal or his or her designee. A student observing anyone possessing a weapon, alcohol or illegal substance on school property or at a school function shall report this information immediately to a teacher, the Principal, the Principal's designee, building/program administrator or the Superintendent of Schools. The identity of the person providing information will be protected to the fullest extent practicable.

All District staff who are authorized to impose disciplinary sanctions are expected to do so in a prompt, fair and lawful manner. District staff who are not authorized to impose disciplinary sanctions have a duty to promptly report violations of the Code of Conduct to their supervisor, who shall in turn impose an appropriate disciplinary sanction, if so authorized, or refer the matter to a staff member who is authorized to impose an appropriate sanction.

WEAPONS, ALCOHOL & ILLEGAL SUBSTANCES

The only individuals authorized to possess firearms on District property are law enforcement

officers on site in the performance of their official duties, and such other individuals who are permitted to possess firearms on a school campus by express statutory authority or the express consent of the Board of Education.

Any weapon, alcohol or illegal substance found on District property or in the possession of any person on District property shall be confiscated immediately, if possible. If the material is possessed by a student, confiscation shall be followed by notification to the parent of the student involved and the appropriate disciplinary sanction, which may include permanent suspension and referral for prosecution. Possession by an employee subjects that person to discipline in accordance with applicable law and any collective bargaining agreement covering such employee, and referral for prosecution.

ENFORCEMENT

The Principal or designee shall be responsible for enforcing the conduct required by this *Code*. When the Principal or designee sees or is advised by others of an individual engaged in prohibited conduct which in his or her judgment and discretion does not pose any immediate threat of injury to persons or property, the Principal or designee shall tell the individual that the conduct is prohibited and attempt to persuade the individual to stop. The Principal or designee may also warn the individual of the consequences for failing to stop.

If the person refuses to stop engaging in the prohibited conduct, or if the person's conduct, in the judgment and discretion of the Principal or designee poses an immediate threat of injury to persons or property or to public order, the Principal or designee shall have the individual removed immediately from school property or the school function and may, if he or she believes it necessary, call the police to assist in removing the person.

The District may initiate disciplinary action against any student or staff member, as appropriate, in accordance with law, and with respect to employees, any applicable collective bargaining agreement. In addition, the District reserves its right to pursue legal action, civil and/or criminal, against any person violating the *Code of Conduct*.

DATA COLLECTION

Annual Data Collection & Review

Schools will biannually review their discipline data and submit a written report to the District and the Board of Education. Schools and the District will make the following data and reports publicly available. Based on the review, schools will make changes to their implementation of the *Code of Conduct* consistent with the intent of this and other policies.

The District, Superintendent, and School Board will review the following:

- The total enrollment for the school;
- Average daily attendance rate at the school;
- Dropout rates for grades seven through twelve;
- The school's bullying prevention and education program;
- Intervention and prevention strategies;
- Number of conduct and discipline code violations, broken down according to the nature of the offenses, disaggregated by school, race, ethnicity, age, grade, disability, ELL status, and gender of the students, where available:
 - o Possession of a dangerous weapon;
 - o Use or possession of alcohol, drugs or controlled substances;
 - o Willful disobedience or open and persistent defiance;
 - o Conduct equal to first degree, second degree, third degree, or vehicular assault
 - o Behavior that is detrimental to the welfare or safety of other students or of other school personnel;
 - o Willful destruction or defacement of school property;

- Conduct equal to robbery; and
 - Other violations of the code of conduct and discipline that resulted in documentation of the conduct in a student's record.
- The extent to which the policy, including but not limited to disciplinary action, is consistently applied to all students.

School Climate and Discipline Oversight

The District will monitor school climate district-wide by:

- Conducting annual surveys of students and teachers on school climate and safety;
- Reviewing complaints received by school-based committees regarding discipline practices or the conduct of school staff and school resource officers;
- Developing, monitoring, and evaluating school discipline policies and practices district-wide; and
- Reviewing complaints and long-term suspension appeals received by the Board of Education.

ANNUAL REVIEW, DISSEMINATION, & REGULATION

Through its Policy Development and Review Committee ("Policy Committee") the Board of Education will review the *Code of Conduct* annually at or following the close of each academic year.

The President of the Board shall appoint an Advisory Committee to assist the Policy Committee in its review of the *Code of Conduct*. The Advisory Committee will be comprised of student representatives, teachers, administrators, parents and community-based organizations, school safety personnel and other school staff. The Advisory Committee shall submit its findings and any recommendations to the Board of Education and Superintendent by April 1st (date by which Committee can reasonably be expected to conduct review of *Code* implementation and generate recommendations) of each school year and at such additional times as it deems appropriate.

The Policy Committee and Advisory Committee shall consider school-level data, including data aggregated to illustrate trends and district-level data. In conducting the review, the Policy Committee and full Board will consider the effectiveness of the *Code's* provisions and whether the standards have been applied fairly and consistently. Revisions to the *Code of Conduct* will be made after at least one public hearing, which shall provide for the participation of school personnel, parents, students and any other interested party. A minimum of 10 school days' notice shall be provided prior to conducting a public hearing to consider changes to the *Code of Conduct*.

Dissemination

The District shall post the complete *Code of Conduct* (with all amendments and annual updates) and a summary of the *Code of Conduct* on the District website and other applications

available to parents when possible; provide a summary of the *Code of Conduct* to all parents before the beginning of each school year and make copies available thereafter; provide each new teacher with a complete digital or hard copy of the *Code*; and make complete copies available for review by students, parents, district personnel and community members. The District shall file a copy of the *Code of Conduct* and any amendments with the Commissioner, in a manner prescribed by the Commissioner, no later than thirty (30) days after adoption.

Promulgation of Administrative Regulations

Consistent with the policy guidelines set forth above, the Superintendent of Schools is authorized to promulgate, revise, maintain and enforce throughout the District administrative guidelines and regulations consistent with constitutional requirements that address particular issues of administration, interpretation and enforcement of any section of this policy.

Resolving Incompatibility with Other Policies or Regulations

If any policy or administrative regulation of this District, at any time, is in whole or in part inconsistent or incompatible with this policy or with the administrative regulations authorized herein, the inconsistent or incompatible portion of such policy or regulation shall be deemed to be superseded by the *Code of Conduct*; provided, however, that to the extent that the provisions or purposes of such policy or regulation are not incompatible, or can be enforced without reference to the incompatible portion, then such provisions and purposes shall be deemed to continue in full force and effect.

Severability

If any provision of this *Code* or the application of any provision to any person(s) or circumstance(s) is held to be unconstitutional or otherwise unenforceable by any Court, by legislative enactment or amendment or by any Opinion of the Commissioner of Education, it is the intent of the Board of Education that such a ruling shall in no way affect or impair any other provision of this *Code* or the application of any such provision upon any other person or circumstance.

APPENDIX A

Dress Code

DRESS CODE

Rationale

A dress code and its implementation impact both the constitutional rights of students and the responsibilities of school officials to maintain an environment conducive to learning. As such, the purpose of this dress code is to strike a positive balance between a student's right to free expression and the educational mission of the district.

Students and their parents have the primary responsibility for acceptable student dress and appearance. Teachers and all other District personnel should, at a minimum, adhere to the dress code, as well as exemplify acceptable dress and help students develop an understanding of appropriate appearance in the school setting.

Clothing, accessories or appearance that run contrary to the district's educational mission, cause a material or substantial disruption of the educational process, or infringe upon the rights or safety of others, can be regulated.

It is important to note that mere dislike or offense is not sufficient grounds to restrict speech or expression, including dress or appearance. All such restrictions must stem from something greater than personal preference, beliefs or taste. This means that to be lawfully regulated, the attire or garb must truly be a substantial or material interruption, infringe upon the legitimate rights or safety of others, or be contrary to the school's educational mission.

This dress code applies to both students and adults any time they are on District property, including the school buildings and Central Office, and whenever they are attending any school function, wherever located.

Standards

All persons are expected to give proper attention to personal hygiene and to dress appropriately for school and school functions. When on school property or at a school function, a person's dress, grooming and appearance, including jewelry, make-up and nails, must:

- Cover buttocks, stomach/midriff and chest.
- Not include clothing, headgear or jewelry that is associated with or identifiable as a symbol of gang membership.
- Be void of abusive, suggestive or profane language; symbols of illegal substances; or any other words, symbols or slogans that disrupt the learning environment or deny dignity or respect to others.
- Include shoes, which are to be worn at all times for health and safety reasons.

Guidelines for Further Standards

In addition to the standards above, schools may prescribe reasonable school-level dress standards provided that such standards are rationally related to legitimate objectives, are sufficiently narrowly tailored, are content-neutral, do not unlawfully infringe upon student's constitutional rights related to speech, liberty, religion or other fundamental right, apply to all members of the school community and have been developed in conjunction with students, parents, teachers and other staff and members of the school community. This collaborative development of school-level dress standards is an opportunity for the school community to discuss issues related to dress and appearance, such as culture, religious identity, gender, gender identity and expression, dignity and respect.

School-level dress standards should be justified by a legitimate concern for health or safety or other material or substantial disruption, promote dignity, respect and cultural and religious sensitivity and keep teachers and students focused on teaching and learning, not policing dress.

Any dress standards that a school develops need to be approved by the Superintendent, be published and communicated to the school community and be consistent with the provisions of this *Code of Conduct*.

Dress Code Violations

Violations of the dress code should be considered opportunities or “teachable moments” to discuss issues regarding dress and appearance, such as culture, religious identity, gender, gender identity and expression, dignity and respect.

Students who violate the dress code, including school-level standards, will be required to modify their appearance by covering or removing the offending item, and if necessary and/or practicable, replacing it with an acceptable item. Any student who refuses to do so shall be subject to a Level 1 or Level 2 response. Students should not be suspended or otherwise removed from their educational program because of a dress code violation.

Data Collection and Reporting

As noted elsewhere in this *Code of Conduct*, schools shall collect and submit the following data elements as part of their semi-annual reports to the District and Board:

- Dress code violations resulting in a Level 1 or Level 2 response.
- Suspensions resulting from escalations of conflict relating to dress code violations.

APPENDIX B

Restorative Approaches

Restorative Approaches

Restorative approaches are an integral component of progressive discipline and the direction in which the District is committed to proceed. Restorative approaches originate from indigenous practices that reflect our shared humanity and commonality. Used proactively, they build positive vibrant culture. In the context of justice, restorative approaches use the foundations of relationships and interconnectedness to repair harm and reestablish harmony.

A restorative approach can be used as both a prevention and intervention measure. Restorative processes can help schools build relationships and empower community members to take responsibility for the well-being of others; prevent or deal with conflict before it escalates; address underlying factors that lead youth to engage in inappropriate behavior and build resiliency; increase the skills of those who have harmed others; and provide wrong doers with the opportunity to be accountable to those they have harmed and enable them to repair the harm to the extent possible.

When used as an intervention measure, taking a restorative approach to discipline changes the fundamental questions that are asked when a behavioral incident occurs. Instead of asking who is to blame and how those engaged in the misbehavior will be punished, a restorative approach asks four key questions:

- What happened?
- Who was harmed or affected by the behavior?
- What needs to be done to make things right?
- How can people behave differently in the future?

All parties are encouraged to take responsibility for their part in the occurrence that led to intervention.

Types of Restorative Practices

Circle Process: Circles are effective as both a prevention and intervention strategy. Circles may be used as a regular practice in which a group of students (or faculty, or students and faculty) participates. A circle can also be used in response to a particular issue that affects the school. The circle process enables a group to build relationships and establish understanding and trust, create a sense of community, learn how to make decisions together, develop agreements for the mutual good, resolve difficult issues, etc.

Collaborative Negotiation: Using the collaborative negotiation process enables an individual to talk through an issue or conflict directly with the person with whom he/she disagrees to arrive at a mutually satisfactory resolution. Training in collaborative negotiation includes learning active

listening and other conflict resolution communication skills.

Peer Mediation: An impartial, third party mediator (in a school, a student who has been trained to serve as a peer mediator) facilitates the negotiation process between conflicting parties so they can come to a mutually satisfactory resolution. Mediation recognizes that there is validity to conflicting points of view that disputants bring to the table and helps disputants work out a solution that meets both sets of needs. Disputants must choose to use mediation and must come to the process willingly. Mediation is not used where one individual has been victimized (for example, in cases of harassment or bullying) by another.

Formal Restorative Conference: A conference is facilitated by an individual who has received specific training in bringing together individuals who have acknowledged causing harm with those who have been harmed. Regardless of the circumstances, the mental, physical health, safety, and welfare of the individual who was harmed is of paramount importance when considering this option in a school setting. Both sides may bring supporters to the circle that have also been affected by the incident. The purpose of the conference is for the harm doer and the harmed to understand each other's perspectives and come to a mutual agreement which will repair the harm as much as it is able to be repaired.

APPENDIX C

Due Process

DUE PROCESS PROTECTIONS

Referral for Disciplinary Action

If school staff believe that a student's conduct warrants a disciplinary intervention, staff should complete a referral for disciplinary action to trigger an investigation of the incident. The purpose for a referral is to track and document the facts and interventions used by staff in order to ascertain the best course of action when a serious infraction occurs that necessitates the removal of a student from the class. However, written referrals shall not be used to document supports offered to students within the classroom (e.g. timeouts and other informal measures).

When the student is removed from a classroom for consideration of short-term in-school or out-of-school suspension or long-term suspension, the teacher must provide a referral form to accompany the student. This referral must be filled out prior to the Principal making a decision and at the earliest convenience of the teacher when he/she has been able to ensure that his/her classroom is in order.

The form filled out by the teacher shall be a district-wide standardized form that will include the teacher's methods of positive intervention approaches already implemented.

The referrals will be input into a digital system. A computerized program should be able to provide a cumulative report that will be able to track the number of referrals per teacher in regular intervals. Administrators will have a meeting with teachers with high numbers of referrals or with high rates of disparities among student subgroups (e.g. race, ethnicity, disability status, etc.) in order to provide additional supports and uncover challenges.

The information gathered from the tracking process will be used to inform teachers and administrators with respect to students and staff who are in need of support, as well as to inform teachers and administrators as to the effectiveness of strategies and supports that have been implemented.

INVESTIGATIVE PROCEDURES FOR SCHOOL DISCIPLINE

It is the responsibility of the principal or his/her designee to take the following investigative steps:

1. Question the victim and any other witnesses to the incident and, when possible, obtain their signed written statements.
2. Investigative procedures must seek to understand the entire event including precipitating factors.
3. Review and retain or a reasonable time any documentary, photographic, or video evidence.
4. Whenever practicable, inform the accused student of the misconduct of which he/she is being accused and provide the accused student with an explanation of the evidence.
5. Whenever practicable, provide the accused student an opportunity to present his/her side of the event and identify witnesses.
6. In circumstances where the student has been arrested, the student should be advised that any statement made by the student may be used against the student in a court of law, and the student's parent should be notified immediately.

Classroom Removal

Notice Requirement:

Schools must provide the following notice to parents when a student is removed from the classroom:

- All reasonable efforts must be made to notify the parent of the classroom removal and must be done by telephone, email, or other electronic means on the same day as the classroom removal;
- Written notice will be provided within one school day from the classroom removal;
- Written notice will be in writing in the parent's native language if practicable; and will include a description of the incident, length of the classroom removal, and a statement that parents can request a conference to discuss the removal; and
- The school will maintain a record of all classroom removals provided that such record shall not constitute part of the student's cumulative file.

Conference Request:

At the parent's or student's request, the teacher and/or a school administrator will have a conference with the parent and/or student.

- The school shall schedule the conference to occur within five school days of the parent's or student's request, unless the parent or student agrees to a later date; and
 - Actual notice of the conference date shall be provided to the parent and the student.
- Ref: Education Law §3214(3-a)

Short-Term In School or Out of School Suspension

Short-term suspensions are an extreme disciplinary measure to be used for behavior that cannot be dealt with using standard positive interventions. Short-term suspensions shall not take effect until a preliminary interview, notice and conference occur, except when a student's presence in school poses an ongoing danger to persons or property or an ongoing threat to the academic process, the student may be suspended prior to the informal conference provided the conference occurs within 2 school days of the start of the suspension.

1. **Preliminary Interviews:** Where it is suspected that a student has engaged in conduct for which a suspension may be warranted, it is the responsibility of the principal or his/her designee to take the required investigative steps and make a determination of possible discipline, including short term suspension, if warranted under the circumstances. The principal or acting principal shall take into account all of the factors listed in the section entitled, "Levels of Intervention & Disciplinary Responses" when making a preliminary recommendation about a disciplinary action.
2. **Notice to Parent:**
 - a. Principal (or designee) shall make every effort to reach the parent by telephone, email, or other electronic means to inform the parent of the student's referral for a suspension on the same day as the determination to seek a suspension;
 - b. Written notice will be delivered to the parent within one school day from the determination to seek a suspension;
 - c. Written notice will be in the parent's dominant language whenever practicable. If not practicable, all reasonable steps shall be taken to provide oral translation to the parent or legal guardian;
 - d. That notice shall be on an approved RCSD form and contain the following:
 - i. a description of the incident, including the section of the *Code of Conduct* the student allegedly violated;
 - ii. length of the possible suspension;
 - iii. a statement explaining the standard positive interventions and practices used, or if none was used, why this is the case, and explaining why the use of alternative exclusionary discipline may be justified under the circumstances;
 - iv. a statement informing the parent of his/her right to request an informal conference with the principal;
 - v. a statement of the student's and parent's rights written in plain language, including the right to question a complaining witness, to obtain school records,

- to bring an attorney or advocate, the right to interpretation of the conference by a qualified interpreter or someone of the parent's choosing and the right to appeal;
- vi. a statement of the means by which the student will be provided alternative instruction during the period of suspension;
- vii. a statement that if the child has been arrested or if a criminal investigation is pending, any statement, written or oral, can be used against the student in a court of law;
- viii. a list of free and low-cost attorneys and advocates in the area; and
- ix. the procedures for appealing the disciplinary decision.

3. Informal Conference:

- a. The informal conference is an opportunity to assess the facts surrounding the incident for which a suspension is possible, to determine whether a suspension is justified, to collaboratively devise satisfactory solutions for the student's return to his or her program and prevent further disruption of the student's education.
- b. The informal conference shall be scheduled as soon as possible, but no later than five school days from the date of the written notice unless the delay is at the parent's request.
- c. Informal Conference Provisions:
 - i. The student and parent have the right to call witnesses and present documentary evidence, including audio and video recordings and to question a witness with firsthand knowledge of the incident.
 - ii. The student and parent may be represented by an attorney or an advocate.
 - iii. Upon request of the parent or student, the school shall provide interpretation services in the dominant language of the parent and student.
 - iv. The student and parent have the right to receive a written decision within one school day of the conference.
 - v. If the principal determines short-term suspension is warranted, the written decision shall include the length of suspension, and procedures for appealing the decision, including the date by which the appeal must be submitted.

4. Appeal of Short-Term Suspension Decision:

- a. Students and parents can appeal a short-term suspension to the New York State

Commissioner of Education.

- b. Any appeal must be filed within 30 days of the decision following the suspension conference.

5. **Exception for emergencies:** If a student's presence in school poses an ongoing danger to persons or property or an ongoing threat of disruption to the academic process, a student may be removed immediately and the informal conference shall follow as soon after the student's removal as practicable, but in no case more than 48 hours after the removal. If immediate emergency removal from school is necessary, the school shall immediately notify the parent to determine the best way to transfer custody of the student to the parent.

Ref.: Education Law §3214(3)(b)

Long-Term Suspension (LTS) and Expulsion

Long-term suspension and expulsion are extreme disciplinary alternatives to be used for behavior that cannot be resolved appropriately using standard positive interventions, a classroom removal, or a short-term suspension. Long-term suspensions and expulsions shall not take effect until an investigation, notice and a hearing occur in accordance with the following:

1. **Investigation:** When a student engages in conduct for which a long-term suspension or expulsion may be warranted, the principal or his/her designee must investigate consistent with the requirements in #1 of short-term in-school or out-of-school suspension, above. The Principal shall take into account all of the factors identified under Levels of Intervention and Disciplinary Responses when making a preliminary recommendation about a disciplinary action. If the Principal determines that an LTS referral is appropriate, s/he shall inform the student of the referral for LTS and the reason for the referral.

2. **Notice to Parent:**

Schools must provide the following notice when a long-term suspension or expulsion is proposed:

- a. Principal (or designee) shall make every effort to reach the parent by telephone, email, or other electronic means to inform the parent of the student's referral for a suspension on the same day as the determination to seek a suspension;
- b. Written notice will be delivered to the parent within one school day from the determination to seek a suspension or expulsion;

- c. Written notice will be in the parent's dominant language if practicable;
- d. That notice shall contain the following:
 - i. a description of the incident including the section of the *Code of Conduct* the student allegedly violated;
 - ii. length of the proposed suspension;
 - iii. a statement explaining the standard positive interventions and practices used, or if none was used, why this is the case, and explaining why the use of alternative exclusionary discipline may be justified under the circumstances;
 - iv. a statement of the student's and parent's rights written in plain language, including the right to fair hearing, the right to question the district's witnesses and to present testimony and other evidence on behalf of the student, to obtain school records, to bring an attorney or advocate to the hearing, the right to interpretation of the hearing by a qualified interpreter or someone of the parent's choosing, and the right to appeal;
 - v. A description of the alternative education that will be provided to the student until such time as a determination has been made with respect to whether or not the student is guilty of the charge, and any applicable penalty has been imposed.
- e. The Long-Term Suspension Hearing Office shall send notice to the parent that includes:
 - i. a date, time and location for a fact-finding hearing;
 - ii. a statement that if the child has been arrested or if a criminal investigation is pending, that any statement, written or oral, can be used against the student in a court of law;
 - iii. a list of free and low-cost attorneys and advocates in the area; and the procedures for appealing the disciplinary decision.

3. Hearing:

- a. The hearing is an opportunity for an impartial and neutral hearing officer to determine if the school can meet its burden of proof to sustain the charge(s), and if the proposed suspension or expulsion is appropriate.
- b. The hearing shall occur within five school days of the date of suspension, unless the parent requests a later date. If the hearing occurs after the fifth day following the

suspension without the parent consenting to the delay, the student shall be returned to his/her regular program until such time as the hearing is held and the Superintendent or his/her designee has made a decision regarding the charge(s).

c. **Hearing Provisions:**

- i. Hearings shall be conducted by a neutral and impartial hearing officer.
Upon appointment, all hearing officers are authorized to administer oaths and issue subpoenas in conjunction with the proceedings before him or her.
- ii. The school must prove the alleged student behavior by competent and substantial evidence.
- iii. School cannot rely exclusively on hearsay evidence to meet its burden of proof.
- iv. Students and parents have the right to call witnesses and present documentary evidence including, but not limited to, witness statements, incident reports, and audio and video recordings; and to question persons with information related to the incident.
- v. Student and parent have the right to request and, upon request, the District must require, the presence and testimony of witnesses who are school employees.
- vi. Students and parents have the right to request the presence and testimony of witnesses who are safety or law enforcement personnel on campus, and the school shall take all reasonable steps to ensure their presence.
- vii. Students and parents have the right to request the presence and testimony of other students or witnesses to the event, and the school shall take all reasonable steps to ensure their presence.
- viii. Students and parents have the right to representation by an attorney or an advocate.
- ix. The hearing officer shall consider only the evidence presented at the hearing and shall make findings of fact and recommendations to the Superintendent or his/her designee as to the appropriate measure of discipline. The proposed suspension or expulsion may be dismissed, reduced, or upheld.
- x. The hearing officer must dismiss the proposed suspension if he or she determines:

1. The suspension was imposed for a behavior for which suspension is

prohibited under the *Code of Conduct*.

2. The school did not present sufficient evidence to meet its burden of proof.
 3. The suspension was not appropriate, considering the factors listed in this *Code*.
- xi. The hearing officer or superintendent's designee may dismiss or reduce the proposed suspension if he or she determines:
1. The school did not impose graduated and proportionate discipline, unless the conduct that resulted in the suspension was sufficiently serious that graduated discipline would not have been appropriate.
 2. The suspension was not appropriate given the facts as presented at the hearing.
 3. The school did not follow the due process procedures in this subsection.
- xii. Upon request of the parent or student, the school shall provide interpretation services in the parent's native language.
- xiii. Students and parents have the right to receive written notification of the determination of guilt or lack thereof and penalty, if guilt is determined. If the Superintendent or his/her designee determines a long-term suspension or expulsion is warranted, the written decision shall include the length of suspension, the conduct for which the student has been found guilty, and procedures for appealing the decision, including the date by which the appeal must be submitted.
- xiv. The written decision shall be sent to the student/parent within three school days after the Superintendent's designee receives the penalty determination.
- xv. An accurate and complete record of the hearing shall be maintained by the school, but no stenographic record shall be required and an audio or video recording shall be deemed a satisfactory record. Students and parents shall have a right to request and receive this record at no cost.

4. Appeal Provisions:

- a. Parent or student can appeal the decision to suspend within 30 calendar days from the date the parent receives the Superintendent's suspension determination letter;

- b. A written decision on appeal, including the rationale for the decision, will be issued within thirty school days of the filing of the appeal;
- c. The appeal will consider whether the record demonstrates that the student's rights were violated during the investigation, hearing, or appeal process;
- d. The decision on appeal must be based solely on the hearing record;
- e. The suspension or expulsion can be upheld, overturned or reduced; and
- f. The Board of Education must overturn the suspension if it determines:
 - i. The record does not contain sufficient evidence to support the finding.
 - ii. The suspension was imposed for a behavior for which suspension is prohibited in the school's *Code of Conduct*.
 - iii. The record demonstrates that the school did not follow the due process procedures in this subsection.
 - iv. The suspension was not appropriate considering the factors listed under the Levels of Intervention and Disciplinary Responses.
- g. The Board of Education may overturn or reduce the suspension if it determines:
 - i. The school did not impose graduated and proportionate discipline, unless the conduct which resulted in the suspension was sufficiently serious that graduated discipline would not have been appropriate.
 - ii. The suspension was not appropriate given the facts as presented at the hearing.

Access to Schools

Except in cases of emergency, if a Principal desires to restrict a family member's access to the school, the Principal's supervisor must first authorize such action. The Principal must specify the duration and conditions of any restriction (e.g., must make advance appointment or be escorted within the building).

APPENDIX D

Students with Disabilities

The Board of Education is committed to a policy of inclusion of students with disabilities within the full range of programs offered to students of the District generally, to the fullest extent consistent with the specific needs of individuals. Consistent with the principle of inclusion, to the fullest extent provided by federal or state law, the policy of the District regarding student discipline for students shall be uniform for all students, both with reference to disciplinary proceedings and reporting crimes to appropriate authorities.

The Board recognizes that it may be necessary to suspend, remove or otherwise discipline students with disabilities to address disruptive or problem behavior. The Board also recognizes that students with disabilities enjoy certain procedural protections by virtue of statute, regulation and/or court order when school authorities intend to impose discipline upon them. The Board is committed to ensuring that the procedures followed for suspending, removing or otherwise disciplining students with disabilities are consistent with the procedural safeguards required by applicable laws and regulations.

This *Code of Conduct* affords students with disabilities subject to disciplinary action no greater or lesser rights than those expressly afforded by applicable federal and state requirements. In the event of any change or amendment to such federal and state law and regulations, or to any order of a court of competent jurisdiction impacting District students with disabilities, the Superintendent is authorized to issue regulations designed to maintain coordination of our program with such legal requirements; and, where such requirements may affect or override provisions of any consent decree, to apply to the appropriate court for such relief as the Superintendent deems appropriate.

It is the policy of the Board of Education to implement the provisions of the federal “Individuals with Disabilities Education Improvement Act of 2004” P.L. 108-446 (effective July 1, 2005), which defines the current law for addressing discipline for students with disabilities. Students with disabilities who are suspended for not more than ten school days shall be afforded the same rights as their non-disabled peers. When a removal will result in the student accumulating more than ten school days of removals for the school year, a parent and necessary District employees shall review the student's file to determine whether the conduct was caused by or had a direct and substantial relationship to the disability, or was a direct result of a failure to implement the IEP. If the behavior was a manifestation of the student's disability, the CSE shall conduct a functional behavioral assessment and create or modify and implement a behavior plan, and the student shall return to his/her prior (or otherwise agreed-upon) placement, except when the student's behavior involves serious bodily injury, weapons, illegal drugs or controlled substances, the student may be disciplined in accordance with Part 201.7(e) of the Commissioner's Regulations. If the behavior was not a manifestation of the student's disability, then a student with a disability will be treated in the same manner as the student's non-disabled peers, and the

District shall continue to implement the student's IEP. In all instances, the District shall consider any unique circumstances when determining whether to change the placement of students with disabilities who violate this Code.

APPENDIX E

Law Enforcement

Roles of Law Enforcement and Criminal Investigations

The Board of Education acknowledges the role of law enforcement in contributing to safe and secure schools. Police presence for arrest or detention of a student is subject to Board Policy 5600 and Regulation 5600-R.

School District and School Administrators

1. The school principal, or designee, will immediately contact the parent/guardian when the police seek to question or search a student as part of a criminal investigation. If the parent/guardian cannot be reached, or the parent refuses to consent to the search or questioning, the questioning or search of the student cannot be conducted, unless the student is at least 18 years of age or there is an imminent threat to safety. Whenever possible, the parent/guardian (or the Principal or designee, if the parent is unavailable) will be present during any police questioning or search of a student on school property or at a school function.
2. The school principal, or designee, will immediately notify the law enforcement agents involved in an arrest or criminal investigation if a student who possesses a disability may require special treatment or accommodations.

Police Involvement in Searches and Interviews of Students

District officials will cooperate with police officials and other law enforcement authorities in order to maintain a safe school environment. Police officials, however, have limited authority to interview or search students in schools or at school functions, or to use school facilities in connection with criminal investigations. Police officials may enter school property or a school function to question or search a student or to conduct a criminal investigation involving students only if they have:

1. A search or an arrest warrant;
2. Probable cause to believe a crime has been committed on school property or at a school function

If a police officer seeks to question or search a student on school property in the context of an official criminal investigation, the Principal or designee shall first notify the student's parent to give the parent the opportunity to be present during the questioning or search. If the parent cannot be contacted, or the parent refuses to give consent for a search or questioning, the search or questioning will not be conducted, unless the student is at least 18 years of age. Whenever

possible, the parent/guardian (or the Principal or designee, if the parent is unavailable) will be present during any police questioning or search of a student on school property or at a school function.

Students who are questioned by police officials on school property or at a school function will be afforded the same rights that they have outside of school

Abuse/Neglect Investigations by Child Protective Services (CPS) and Law Enforcement

Consistent with the District's commitment to keep students safe from harm and the obligation of school officials to report to Child Protective Services (CPS) when they have reasonable cause to suspect that a student has been neglected, abused or maltreated, the District will provide data and assistance to local CPS workers or members of a multi-disciplinary team accompanying these workers who are responding to allegations of suspected child abuse, and/or neglect, or custody investigations. Such data and assistance include access to records relevant to the investigation, as well as interviews with any child named as a victim in a report, a sibling of that child, or a child residing in the same home as the victim. School District administrators should not contact parents/guardians unless specifically advised to do so by CPS workers involved in the investigation.

All requests by CPS to interview a student on school property shall be made directly to the Principal or his/her designee. Child Protective Service workers and any associated multi-disciplinary team members must comply with the District's procedures for visitors, provide identification, and identify the child(ren) to be interviewed. All reasonable efforts should be made to assure that such interviews are conducted in a place that offers as much privacy and as few interruptions as is feasible, given the physical limitations of individual buildings.

The Principal or his/her designee shall decide if it is necessary and appropriate for a school staff member, including but not limited to an administrator or nurse, to observe the interview either from inside or outside the interview room. Anyone attending a CPS interview of a student is present solely to support the student emotionally and should not attempt to participate in or influence the interview.

A CPS worker may not remove a student from school property without a court order, unless the worker reasonably believes that the student would be subject to danger of abuse if he or she were not removed from school before a court order can reasonably be obtained. If the CPS worker believes the student would be subject to danger of abuse, the worker may remove the student without a court order and without the parent's consent.

District staff are encouraged to contact the Law Department for clarification of any questions

related to the foregoing process.

APPENDIX F

Glossary

Academic Dishonesty: Providing, receiving or viewing answers to quiz or test items or independent assignments; having out or using books, notes or notebooks during a test without permission from a staff member.

Administrator: the building/program administrators (such as principals, vice-principals, assistant principals, house administrators, program administrators, and athletic directors), District-wide administrators, the Director of Transportation and security supervisors. When reference is made to a Principal, the term shall be deemed to include a Program Administrator.

individual which harms another person physically or emotionally. Bullying includes intentional conduct (including verbal, physical or written conduct) or electronic communication that is threatening or seriously intimidating and substantially disrupts the orderly operation of a school. Bullying is characterized by an imbalance of power between two students. If two students are equally engaged in an altercation, this is not a bullying situation, but instead considered a "conflict" between the two students. When an imbalance of power is present; it can be seen in small ways over a long period of time or in a large way all at one time.

Community Service: An unpaid service for the benefit of the public that is performed as part (or all) of the consequence for committing an infraction. Allows the student to participate in some sort of activity to serve and benefit the community. Examples include working at a soup kitchen, cleaning up litter, helping at a facility for the aged, etc.

Conference: A communication that takes place face to face or by telephone. Conferences can involve students, teachers, administrators, and parents/ guardians in discussion about student misbehavior and potential solutions that address social, academic, and personal issues related to the behavior.

Consequence: A result that follows from an action or condition.

Class Cutting: Unlawful absence from a class or school activity.

Cyber-bullying: The use of information and communication technologies -- e-mail, cell phones, pagers, text messages, instant message, personal website or blogs, personal pulling sites or a combination of these – to support deliberate, repeated and hostile behavior by an individual or group with the intention of physically or psychologically intimidating others.

District Personnel: all individuals, wherever assigned, who are employed by the District, or are under contract or assignment to the District, or who volunteer to assist the District in the operation of its programs and/or the delivery of its services. The term "District personnel" includes transportation personnel whether employed by the District or by a contractor. For purposes of this Code, "District personnel" and "school personnel" are synonymous.

Disruptive Student: An elementary or secondary student under the age of 21 who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom.

Ref.: Education Law §3214(2-a)(b)

ELL: English language learner.

Emergency Situation: A circumstance in, or in close proximity to, a school or school event in which there is a serious, active and/or immediate threat of injury to a person or persons. An

emergency usually requires an immediate competently executed response to dissipate or remove the threat.

Functional Behavior Assessment: Involves gathering information about a student's inappropriate or disruptive behavior and determining approaches school staff should take to correct or manage the student's behavior.

Gender expression: The manner in which a person represents or expresses gender, often through behavior, clothing, hairstyle, activities, voice, or mannerisms.

Gender identity: An individual's self-conception along a continuum of being male and female, as distinguished from biological gender or gender assigned at birth.

Harassment:

- **Disability Harassment:** : A negative act or verbal expression toward an individual or group based on an individual's disabling mental or physical condition and includes any unwelcome conduct directed at the characteristics of an individual's disabling condition, such as imitating manner of speech or movement, or interference with necessary equipment.
