

Come and graph with me under the sea!

Grade 3: Math DOK Task

CCS: 3.MD.3

Name: _____

Date: _____

_____ The student accurately uses the information in the pictograph to answer questions.

_____ The student accurately uses the key.

Fishing Trip Pictograph

Michael, Emily, Joseph, Jennifer, and Kevin went on a fishing trip. Look at the pictograph below to see how many fish each person caught. Answer the questions below.

Number of Fish Caught

| | |
|----------|--|
| Michael |    |
| Emily |       |
| Joseph |   |
| Jennifer |        |
| Kevin |    |

 = 6 fish

- | | |
|--|-----------|
| 1. How many fish did Michael catch? | 1. _____ |
| 2. How many fish did Emily catch? | 2. _____ |
| 3. How many fish did Kevin catch? | 3. _____ |
| 4. How many more fish did Emily catch than Joseph? | 4. _____ |
| 5. How many fish did the girls catch? | 5. _____ |
| 6. How many fish did the boys catch? | 6. _____ |
| 7. How many more fish did the girls catch than the boys? | 7. _____ |
| 8. How many fish did Joseph and Kevin catch? | 8. _____ |
| 9. Find the sum of the fish caught by all 5 people. | 9. _____ |
| 10. Who caught fewer fish, Jennifer or Emily? | 10. _____ |
| 11. Did Jennifer catch an odd or even number of fish? | 11. _____ |

- ___ Student accurately included all components of a bar graph.
- ___ Bars are neatly drawn and are not touching.
- ___ Student answered all questions on page 2 accurately and included a number sentence when needed.

| Type of Shark | # of Sharks at the New York Aquarium |
|-------------------|--------------------------------------|
| Great White Shark | 9 |
| Hammerhead Shark | 24 |
| Bull Shark | 18 |
| Mako Shark | 21 |
| Nurse Shark | 27 |

Sharks Seen on A Trip to the Aquarium

A blank grid of 15 columns and 15 rows, used for drawing a picture.

Name _____

Completing and Interpreting a Bar Graph

Directions: Use the information from the bar graph to answer the following questions. Show the number sentence you used to solve each problem.

1. How many Hammerhead sharks and Bull sharks are at the New York Aquarium altogether?

2. How many more Nurse sharks are there than Great White Sharks?

3. According to the bar graph, which shark appears the most at the New York Aquarium?

4. How many Bull sharks, Nurse sharks, and Hammerhead sharks are at the New York Aquarium altogether?

Name _____

Pictographs

Directions: Use the information you found on page 1 to create a pictograph.

Remember:

- Remember your scale: **1 fish picture = 3 sharks**
- Include all parts of a graph: **title, labels, key**
- Make your pictograph neat and colorful
- **After finishing the pictograph, answer the following question:**

Aquariums are popular places for families to visit. Do you think sea animals should be kept in aquariums? Why or Why not?

____ Student accurately used the scale to record the total number of each animal.
____ Student included a title and labels to complete the pictograph.
____ Student created a logical and coherent opinion to support their claim about animals in zoos.

Name _____

Create your own Sea Animal Bar Graph

Your Task:

- ❖ Choose 1 topic from the Animal Topics list below.
- ❖ Choose 4 animals that you would like to learn more about.
- ❖ Use the Internet to research that animal and the specific topic you chose from the list.
- ❖ Record your findings on the data table.
- ❖ Create a bar graph to display the results of your research.
- ❖ Write an essay explaining your findings.

____ Student used the internet appropriately and independently to research a topic.
____ Student accurately filled in a data table.
____ Student included all components of a bar graph.
____ Student created evenly spaced out, neat, and accurately placed bars on their bar graph.
____ Student explained their findings in a cohesive and coherent essay.

Animal Topics

(Choose 1)

Life Expectancy

(How long an animal can live)

Maximum Weight

(How heavy the animal gets)

Population in the Wild

(How many are in the wild)

Daily Food Intake

(Amount of food eaten each day)

Sea Animals

(Choose 4)

Dolphin

Sea Urchin

Humpback Whale

Sharks

Octopus

Starfish

Killer Whale

Sting Ray

King Crab

Lobster

Manatee

Manta Ray

Seal

Recording Findings on a Data Table

Directions: Now that you chose your animals to research, and your research topic, use the Internet to conduct your research. Fill in your information on the data table. Remember to fill in the topic you chose at the top of your table.

| Animal Chosen | Topic: |
|---------------|--------|
| | |
| | |
| | |
| | |
| | |

Remember to use Safe-Find
when conducting your animal
research online!
<http://www.safe-find.com/>

Creating Your Bar Graph

Use the information you found and recorded in your data table to create a bar graph. Remember all components of a bar graph; **Title, Labels, Scale, Bars**. Work neatly to create a colorful bar graph. Remember bars must be the same size, they don't touch and they must be evenly spaced apart.

Explain Your Findings

Directions: Write 3 descriptive paragraphs about your research and the new information you learned. Be sure to use descriptive language, check for correct capitalization and punctuation, and use a bold beginning to start your writing.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.
