

EVALUATION OF SCHOOL BOARD OPERATIONAL PROCEDURES

To improve Board operations, the Board of Education shall review the effectiveness of its internal operations at least once annually. The Superintendent of Schools and others who work regularly with the Board shall be asked to participate in this review and to suggest ways by which the Board can improve its functioning as a deliberative, fiscally responsible and efficient legislative body.

The Board shall set forth the standards by which it will evaluate itself, taking into account the following:

1. the district's needs and the Board's ability to meet such needs;
2. the district's goals for its instructional programs;
3. the Board's relationship with the Superintendent and district staff; and
4. the community's perception of Board members as educational leaders.

To ensure maximum improvement, the evaluation is to be carried out systematically in accordance with good planning, conscientious follow-through, and careful assessment of results. All decisions of the Board are to be supported by as much objective evidence as possible.
