

RESPONSE TO INTERVENTION (RTI) PROCESS

In accordance with Commissioner's Regulations, the School District shall establish administrative practices and procedures for implementing District-wide initiatives that address a Response to Intervention (RTI) process applicable to all students. For students suspected of having a potential learning disability, the District will provide appropriate RTI services pursuant to Commissioner's Regulations prior to a referral to the Committee on Special Education (CSE) for evaluation.

Minimum Requirements of District's RTI Program

The District's RTI process shall include the following minimum requirements:

- a) Scientific, research-based instruction in reading and mathematics provided to all students in the general education class by qualified personnel. Instruction in reading, per Commissioner's Regulations, shall mean scientific, research-based reading programs that include explicit and systematic instruction in phonemic awareness, phonics, vocabulary development, reading fluency (including oral reading skills) and reading comprehension strategies;
- b) Screenings shall be provided to all students in the class to identify those students who are not making academic progress at expected rates;
- c) Scientific, research-based instruction matched to student need with increasingly intensive levels of targeted interventions for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards;
- d) Repeated assessments of student achievement which should include curriculum based measures to determine if interventions are resulting in student progress toward age or grade level standards;
- e) The application of information about the student's response to intervention to make educational decisions about changes in goals [i.e., goals for all students, not just Individualized Education Program (IEP) goals], instruction and/or services and the decision to make a referral for special education programs and/or services; and
- f) Written notification to the parents when the student requires an intervention beyond that provided to all students in the general education classroom that provides information about:
 1. The amount and nature of student performance data that will be collected and the general education services that will be provided as enumerated in Commissioner's Regulations;
 2. Strategies for increasing the student's rate of learning; and
 3. The parents' right to request an evaluation for special education programs and/or services.

Staff Development

All staff members involved in the development, provision and/or assessment of the District's RTI program, including both general education and special education instructional personnel, shall receive appropriate training necessary to implement the District's RTI program. Staff development will include the criteria for determining the levels of intervention provided to students, the types of interventions, collection of student performance data, and the manner and frequency for monitoring progress.

Parent Notification

Written notification shall be provided to parents when their child requires an intervention beyond that provided to all students in the general education classroom. Such written notice shall include the following information:

- a) The amount and nature of student performance data that will be collected and the general education services that will be provided as part of the RTI process;
- b) Strategies for increasing the child's rate of learning; and
- c) The parents' right to request an evaluation for special education programs and/or services.
