OUR PARTNERS AT THE Y ARE OFFERING EMERGENCY SCHOOL AGE CARE FOR YOU.

The YMCA of Greater Rochester is working with the Monroe County School Superintendents to serve families in need.

The YMCA of Greater Rochester has a process in place to screen children at check-in and staff at the start of their shifts and will continue to enforce our guidelines regarding children displaying symptoms of an illness. In addition:

- Children should not be in attendance if they have an elevated temperature (of 100.5 or higher) or are displaying other symptoms of being sick.
- Children should not return until they are symptom free for at least 24 hours. If a child becomes ill during our care, we will separate them from the group, and require parents/guardians to pick your child up within two hours of our call.
- Any staff showing symptoms will be advised to not come in.

At the direction of the New York State Office of Child and Family Services:

- If you have been tested and are positive for the virus, please utilize an emergency contact that is authorized to come pick up your child(ren).
- If you are being quarantined as a precautionary measure, without symptoms or a positive test, we will walk your child(ren) to you at your vehicle. Please do not enter the building. Also, your child must not return to the childcare program for the duration of the quarantine. We will then consult with our Health Department to be advised on our next steps for our childcare center.

HOW TO REGISTER:

You can register online at rochesterymca.org for our east side, west side and Maplewood Family Y locations, which is preferred. You can register in person at all locations. Register per day at $48.
