October 15, 2021

Dear Parents and Families of East Scholars,

We had a situation at East during dismissal when several non-East students arrived prepared for confrontation.

The individuals appeared to be part of an organized group and were targeting a specific East student. This incident occurred during dismissal, which made our students and staff extremely vulnerable. Some students were outside and others were inside. We immediately went into Lockdown and called 911.

Please help keep our school safe by alerting us to community issues that may negatively impact the health and safety of East students and staff.

Shaun Nelms, EdD
Superintendent of Educational Partnership Organization, Rochester City School District
