Dear Parent or Guardian,

Today a Lower School scholar reported a potential threat that she saw on social media in a group chat that involved some of our 6th graders. We immediately investigated the situation with the Rochester Police Department and quickly determined that this was not an imminent threat. Additionally, we would like to remind families that student's misuse of social media can lead to suspension, expulsion, or even criminal charges. Please monitor your child's social media accounts and encourage them to use social media responsibly. Should you have any questions please contact the Lower School Principal at 288-3130.
