Career Pathways to Public Safety

Challenging. Stable. Great benefits.

Program Mission: The Pathways to Public Safety Program is a partnership between the RCSD and the City of Rochester to increase minority representation in its uniformed divisions, while increasing the awareness of career opportunities within the Public Safety departments (Police, Fire, 911, EMS) of the City of Rochester.

Program Vision: To offer all 11th and 12th grade RCSD students throughout the district, who meet identified criteria, an awareness and opportunity in choosing a career path in the field of Public Safety. The program will provide training and education in the fields of law enforcement, fire safety, emergency communications and emergency medical services, assisting students in becoming viable candidates and providing city entities with qualified and prepared candidates of diversity and local residency.

Program Overview: The preliminary goal of the Program is to recruit 50 students that meet the criteria of the program and offer preparatory training that impacts school retention and graduation rates, influences a student to attend a post-secondary institution to further their education and/ or initiates desire to serve the community. In whatever direction a student chooses, it will benefit the Community of Rochester and its residents.

Careers within the career.

Public safety careers open doors to a wide range of specialized fields, or opportunities for a "career within a career." Firefighters can become experts in emergency first aid or swift-water rescue for instance. Police Officers can aspire to join the Mounted Patrol or work in the K-9 unit. And the workers in the 911 emergency call center are driving many of the changes in the telecommunications industry. EMT's can become paramedics or pursue careers in medicine such as R.N. or physician. A career in public safety can hold your interest, no matter what it is.
