

# Time is a Finite Resource

- ▶ Time is a commodity
- ▶ If you are not present when the bell rings you are tardy.
- ▶ Time cannot rewind so for each passing second time moves forward.
- ▶ **Whether or not you have a pass does not change the fact that the time you were supposed to arrive has passed.**
- ▶ You now owe me time (the same amount of time that you missed)!
- ▶ Late is still Late: no matter what the reason, excuse, narrative or point of view, In the working world you are considered late if you do not arrive at the designated time.
- ▶ Live in the real world, this is your reality check.

# Tardy Policy

- ▶ Third Tardy
