

Virtual Academy of Rochester

We believe that the Virtual Academy of Rochester

*Provides innovative opportunities for all students in a supportive, collaborative, nurturing environment.
Focuses on virtual learning and educational experiences to entice students to achieve their goals and build
lifelong scholars.*

Promotes independence through challenging, individualized educational opportunities.

Welcome to OCR!

Online Credit Recovery is a program that offers students who have previously failed a course an opportunity to recover those credits in the eLearning platform.

The eLearning platform is accessible before, during, and after the school day.

Students can recover multiple course credits during the school year.

How does OCR Work?

Students are enrolled in one OCR course at a time. They will need to work through the course from the beginning to the end. When this course is complete and students have received a passing grade, they will be given credit on their transcript.

Students will work through the course on the computer independently. They will have contact with the subject teacher on a weekly basis, and the teachers are available by email and phone at other times.

When can I work on my OCR Course?

Students should be working during their assigned OCR class time. Additionally, they are encouraged to work on their course anywhere that they have internet access. All quizzes and exams must be completed during their scheduled OCR class.

Rules and Expectations

- Respect others, respect yourself, and respect your environment.
