

HOMWORK/CLASSWORK CORRECTIONS POLICY

You have one opportunity to correct any homework or classwork that has been assigned to you. If you are going to make corrections this is what needs to be done.

-All corrections must be made on a separate sheet of paper.

-ONLY correct the ones that are marked wrong. DO NOT write correct work/questions on your correction sheet. I am only interested in correcting the work that you did not get correct.

-Correctly label your corrected work. (Lesson #, Practice 1 or 2, Question #)

-Staple your original corrected packet to your corrected work. Staple the corrections to the front. Your corrections should be the top page.

-You will get a RESCORE for your corrected work. Your new score is your new grade. And it will be labeled so on your grade report.

-You are not allowed to make corrections on late work. Getting rid of the zero on your grade report is your “correction”. This reinforces the importance of good attendance, working cooperatively in class, and getting extra help.

CATEGORY WEIGHTS

Classwork/Homework – 30%

Review – 10%

Test/Quiz – 50%

Warm-Ups – 10%
