

0 Basic Geom (N1)

Description:

Points that are not on the same plane

Description:

Points that are on the same plane

Description:

Undefined term referring to a location in space with and has no sides. In drawings, points are represented by dots

Description:

Points that are not on the same line

Description:

Undefined term represented by a flat surface that extends without end in two dimensions, but has no thickness. A plane contains infinitely many lines

Description:

Points that are on the same line

Description:

Undefined Term that is a straight path extending in two opposite directions without end. It has infinite length, but only one dimension. A line contains infinitely many points
