

"We Build on the Strengths of Every Child, Every Day To Ensure College and Career Readiness!"

**The School Based Planning Team of Henry Hudson School #28
commits to the following guiding principles:**

- Enhancing student academic achievement as evidenced through adherence to a standards-based curriculum, on-going assessments, and data-driven strategies for continuous improvement;
- Encouraging professional development to empower teachers and staff with innovative instructional practice;
- Increasing parental involvement toward the goal of building a school that is working as a community;
- Fostering a climate of communication among faculty and staff characterized by professional courtesy and mutual respect.

<p>District Portal</p>		<p>It is called Roc 3D</p> <p>It will be going live to the public eventually First it will be teachers and admin</p> <p>Goals have to be a ten percent increase in all subjects and must include every demographic (a sped student, EL, 4 races) (across the grade level)</p> <p>SPA Data was looked at: We have 668 students</p> <p>Only 269 students have perfect attendance Some students are severe for our attendance percentage (students who have been enrolled since day one and are no shows, students who missed because of transportation, didn't have shots, etc) and then regular absences for sickness, medical treatment, etc Excused absences still count against us.</p> <p>Suspensions are down, especially last year (however the state has changed the way that they are monitoring) District doesn't want suspensions that include disruption and disrespect (10 last year). Teachers should to have more 'strategies' under their belt. Discriminating and Bullying include 25 suspensions.</p> <p>(This Saturday there is a rally for victims to stand up)</p> <p>ROC 3D is only operated on Google. Teachers will have access to their class. Parents will have access to demographics.</p> <p>What are we going to do to make sure our students 'move'?</p> <p>We want teachers to look at the school scorecards to look at the data and see where students are placing, 6th.7th.8th: What are the trends?</p>	
<p>District Rollout</p>		<p>District is rolling out what children should be able to do K-12. Ms. Ladd bought a book that has this compiled. The difference between the standards and this is that they are parent friendly.</p>
