

## GROCERY STORE

**Equipment:** 2-3 chairs or tunnel, hopscotch pattern, blocks, masking tape

**Set-up:** Place "money" on one spot, and picture of grocery store; between these props is the movement path.

**Movement Path:** chair tunnel, hopscotch, jumping over "hurdles", tiptoe walking on a tape line, etc.

**Activity:** Child takes a "quarter" and moves along the "movement path" to get to the grocery store.

**Suggestions:** Hopscotch - child alternates between jumping with 2-feet and hopping on 1-foot; or (to make it easier), child alternates between jumping with feet apart and feet together.
