A Work in Progress

Quarter 3 Report

NETWORK 3

Toyia Wilson | School Chief | February, 2018

EXECUTIVE SUMMARY

Network 3 is comprised of 11 schools and 2 programs. World of Inquiry School #58 has an instructional focus on Expeditionary Learning, while the other schools' instructional foci include a balanced literacy and numeracy program. School #53 is a Montessori School, which is focused on offering a Montessori program to students citywide. Joseph C. Wilson Foundation Academy and Joseph C. Wilson Magnet High School offers a K-12 experience with an International Baccalaureate (IB) program across both schools. Edison Career & Technology offers a strong Career & Technical Education (CTE) program, while also functioning as the home site for Pathways to Technology (P-Tech). Both, P-Tech and All City High School are programs described below. Rochester Early College International High School (RECIHS) has a partnership with Monroe Community College (MCC), which provides the opportunity for all students in grades 11 and 12 to attend high school and college classes on the new, world class MCC Downtown Campus. The chart below provides the demographics of each of the schools within Network 3.

Schools	Enrollment	Grade Configuration	% of SWD	% of ELL	Accountability Status
Clara Barton School 2	388	PreK – 6	21.6%	2.8%	Priority
John Walton Spencer School 16	517	PreK – 8	19.0%	5.2%	Priority
Adlai E. Stevenson School 29	374	PreK – 6*	35%	7.8%	Good Standing
Dr. Louis A. Cerulli School 34	478	PreK – 6	20.9%	11.3%	Focus
Theodore Roosevelt School 43	520	PreK – 6	22.3%	7.1%	Focus
Montessori School 53	309	PreK – 6	11.0%	1.9%	Good Standing
World of Inquiry School 58 (WOIS)	898	K – 12	18.8%	7.7%	Focus
Joseph C. Wilson Foundation Academy (WFA)	568	K-8	13.2%	9.2%	Priority
Joseph C. Wilson Magnet High School	756	9 – 12	19.8%	11.8%	Focus
Edison Career & Technology High School	1,770	9 – 12	24.5%	13.4%	Priority
Rochester Early College International High School (RECIHS)	329	9 – 12	19.5%	18.2%	Focus

^{*}Data as of 11/26/17 - 13 students in grades 7 and 8 are enrolled in a specific Students with Disabilities program.

SWD = Students with Disabilities, ELL = English Language Learners, Accountability Status = NYS Department of Education designation based on academic performance

Section 1: Strategic Framework and Definitions of Terminology

RCSD Theory of Action:

Every Student by Face and Name. Every Classroom, Every School. To and Through Graduation.

If every student is known by face and name through a personalized multi-tiered systems of support that

- Promote the well-being of the whole-child, whole-school, whole community,
- Guarantee powerful learning for every student,
- Build capacity to ensure comprehensive school improvement, and
- Cultivate equity by design, then the District will disrupt long-standing patterns of failure ensuring every child is reading on grade level and graduating on time.

RCSD Core Values:

Connections – Theory of Action and Core Values:

With the strategic planning elements at the core, the *unit of change is the school*, which references the day-to-day work of the Rochester community. Throughout this report, three areas will be used in reference to areas of performance: Bright Spots, On the Move, and Intensive Supports (defined below and will be identified using the correlating icons).

Bright Spots

- Areas of excellence
- Practice to be shared
- Opportunities for collaboration
- Implementing research based strategies & essential elements

- Significant Growth
- implementing
 research based
 strategies &
 essential elements
- The establishment of a plan that incorporates research based strategies & essential elements

ive Supports

- Identified supports
- Collaboration opportunities
- Professional development opportunities
- Coordinated
 efforts to
 implement
 research based
 strategies &
 essential elements

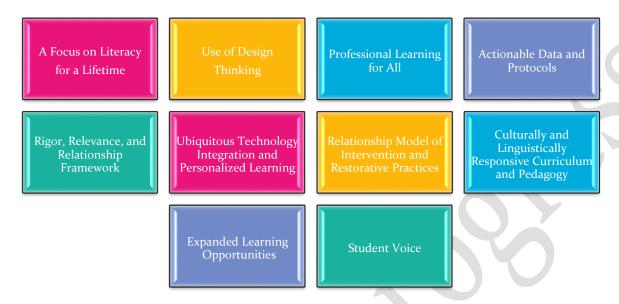

Strategies: Strong Community Schools & Literacy for a Lifetime High Quality Professional Development & Coaching Support for **Principals and Teachers Equity Policies, Goals & Measures** Positive School Culture & Relationships High Quality Culturally, Linguistically Responsive & Rigorous 21st Century Curriculum and Instruction in all Classrooms Community Partnerships Outcomes for Every Program & School Safe, Supportive Trauma Responsive Schools & Classrooms Responsive, Data Informed, Gap Closing Systems of Teaching and Learning and Social **Emotional Interventions** Well-Designed Coherent Programs to Serve Our Students with Specialized Needs Student Voice and Agency in Authentic School Work Invitational & Family-Friendly Schools Strong, Research Based Pre-School and Expanded Learning Opportunities Which Include Afterschool and Summer Learning Programs Community as a Classroom for Service Learning and 21st Century Skills

Leadership Opportunities for Students to Develop Agency

Bright Spots, On the Move and Intensive Supports are identified through the use of progress monitoring data in the identified areas, by section, and the level to which schools implement the district-identified strategies.

As part of strategic planning there were several essential elements identified that are evident in high performing schools. The essential elements further support school improvement planning and connect directly to the District Strategies.

Identified Essential Elements:

As Bright Spots, On the Move, and Intensive Supports are identified, the data points, strategies and essential elements will be identified.

SECTION 2: READING AND MATH ANALYSIS

NWEA Administration:

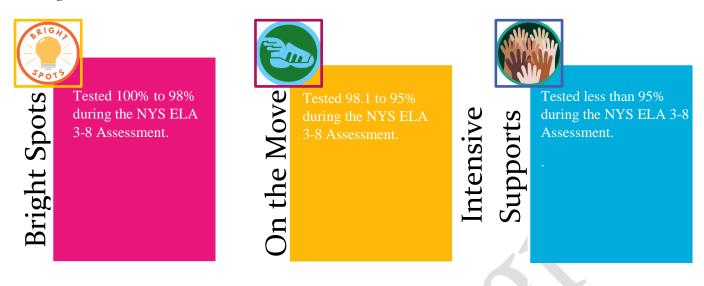

The NWEA is administered three times a year. The final administration is beginning the month of May. The analysis for schools will be completed once the testing window has closed. The comparison from Fall 2017 through Spring 2018 will be included in the 4th Quarter Report.

NYS ELA 3-8 Updates:

The table below provides a three year trend of the opt-out rates for NYS ELA Grades 3-8 for each school. As noted from the office of accountability, there has been a positive downward trend in the number of students who opt-out since Spring 2016. The district opt out rate for Spring 2018 is 5.8%. One of the sub-group categories for schools meeting progress is a 95% participation rate in the NYS ELA Grades 3-8 testing. There are two schools within Network 3 that did not meet the target due to the number of opt-outs – Adlai E. Stevenson School 29 and World of Inquiry School 58. School 58 had a decline in the number of opt-outs, but still did not meet the participation rate.

			Opt Out Rate								
									Total 3-8	Total 3-8	Total 3-8
									2017-	2016-	2015-

Reading & Math Conclusions:

	Growth Network 3 Schools	
Bright Spots	On the Move	Intensive Support
School 2	School 16	29
School 34	School 43	58
School 53	WFA	

SECTION 3: DESCRIPTION OF COHORT ANALYSIS

Network 3 has four high schools (grades 9-12) as identified below: Comprehensive Improvement Plan (DCIP) graduation goals for 2017-2018 (based on projected graduation performance from Aug 2017 follow):

- World of Inquiry School #58 DCIP goal, 100%;
- Edison Career & Technology High School & Pathways to Technology (P-Tech) DCIP goal, 57.6%;
- Rochester Early College International High School DCIP goal 90.31%;
- Joseph C. Wilson Magnet High School and one secondary program DCIP goal 76.35%;

Each school has a table that outlines the number of students and the earned grade designation arranged by cohort. Grade designation is determined by the following:

- The grade level earned credit expected by the end of 9^{th} grade -6 credits, by the end of 10^{th} grade -12 credits, by the end of 11^{th} grade -18 credits and by the end of 12^{th} grade -22 credits
- The expected Regents Exams passed (using the max Regents score) by the end of 9^{th} grade -1 Regents Exam, by the end of 10^{th} grade -2 Regents Exams, by the end of 11^{th} grade -3 Regents Exams and by the end of 12^{th} grade -5 Regents Exams

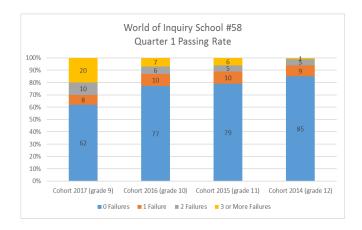

These data points are cross-referenced to determine the grade level for students in each cohort. A secondary level cohort consists of the students who first enter grade 9 anywhere, or, in the case of ungraded students with disabilities, reach their seventeenth birthday in a particular school year (July 1 - June 30). The "year" used to identify the cohort is the year in which the July 1 - December 31 dates fall. The percentage highlighted in yellow is where all students who belong to each cohort should be, to be considered "on-track. The percentage highlighted in green are those students who appear to be one grade level ahead of their cohort.

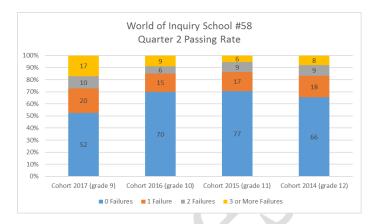

With the completion of the quarter, a failure report further details student performance by cohort for each school.

- Support from All City for students in need of intensive academic intervention
- Year-to-date 9 credits recovered; 17 credits are in the progress of being recovered; 4.5 credits recovered from All City
- Intensified academic intervention comprehensive program for semester three, which includes an increase in OCR, an increase in learning recovery, and an expansion of supports offered throughout the day and after school
- 58 students have individual AIS support plans that are tracked every 5 weeks.

- Graduation Coach position was added in January to provide an intensive focus on Cohort 2014 and the protocols to support Cohorts 2015-2017
- Support from All City for students in need of intense academic intervention
- Year-to-Date Online Marking Period Recovery (MPR), Marking period 1: Completed 8, In Progress 163 Marking period 2: Completed 6, In Progress 204 Marking period 3: Completed 0, In Progress 35

 Other MPR Marking period 1: 21, Marking period 2: 34, Marking period 3: 14 = total of 314 MPR (in progress plus completed)
- 229 credits recovered (completed and in progress); 50 credits recovered from All City (completed)
- Intensified Academic Intervention Comprehensive program for semester two, which includes an increase in OCR, an increase in learning recovery, and an expansion of supports offered throughout the day and after school – designated as the Twilight Program
- The Back on Track Program is scheduled to start up by the week of February 26th. This program is designed to provide targeted support throughout the school day and into the evening. There are social-emotional supports embedded, as well as, strong academic supports. Back on Track provides an array of options to support students in all Cohorts
- Intensive focus on Algebra I, passing rate, with supports from the Executive Director of Mathematics

- Freshman Academy developed to support students starting on track and staying on track; the Freshman team works collaboratively to support students' social emotional needs as well as academic needs
- Support from All City for students in need of intense academic intervention
- Year to date 103 credits recovered; 46.5 credits recovered from All City
- Intensified academic intervention comprehensive program for semester two, which includes an increase in OCR, an increase in learning recovery, and an expansion of supports offered throughout the day and after school

Going further to determine progress towards meeting DCIP goals and ultimately meeting the overall district goal of a 10% increase in the August Graduation Rate, an alternative approach was used to calculate the number each school needs. While these goals are not used in the DCIP goals, they were developed to provide more guidance in the progress monitoring process for each school.

Methodology

In this model, the size of enrollment was used as weights in calculating each school's share of the DCIP growth targets. However, this variation resides within each Chief's network. Each Chief's network should have the same overall goals as the district's DCIP goals. Specifically, the following formulas were used to calculate the goals for this school year. The enrollment numbers for the 2014 cohort were pulled from NYSED's Level 2 Reporting site, but these numbers did not reflect updates from SY 2017-18. If the projection for graduation rate is beyond 100%, the 2018 goal will be manually set to be 100%.

Formula Used:

4 - Year Cohort June or Aug Graduation Rate 2014 Cohort Goal = 2013 Cohort Graduation Rate + (10% x Number of Secondary Schools Within a Chief's Network X

All City Supports:

All City High is a non-traditional program school that offers students in grades 10-12 between the ages of 17-21 years old an opportunity to get caught up on high school credits and in some cases accelerate graduation. Students are able to learn in a supportive educational environment with teachers and staff that are empathetic to their individual needs. At All City an individualized graduation plan is prepared for each student. All students participate in the "Youth in Transition Intake Survey" which is used to inform individual needs. All City has been highly successful with mature students many of which have home, personal and work concerns.

All City is a program which supports all secondary schools by creatively offering learning and credit recovery to our students who have struggled the most in their home schools. In many cases students are in need of more social emotional supports than academic. Many students who attend All City had significant attendance issues in their home schools prior to attending but with the support at All City many students' attendance improve and they start to see some academic success.

Below is a districtwide overview of All City's January graduation and credit recovery data to date.

Cohort Analysis Conclusions:

right Spots

The "Active Students in Each Cohort at Each Grade Level" cross-referenced with the "Quarter 3 Passing Rate" reveals that 1 school is on track to accomplishing both DCIP goals.

There will be more opportunities provided to share best practice among schools to support schools in other categories.

The "Active Stude Each Cohort at Each Cohort at Each Cohort at Each Grade Level" cross referenced with the "Quarter 3 Passin reveals that 3 school in need of learnin recovery for Quarter 3 grades to continuon track to meetir

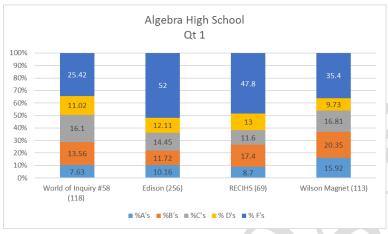

tensive Supports

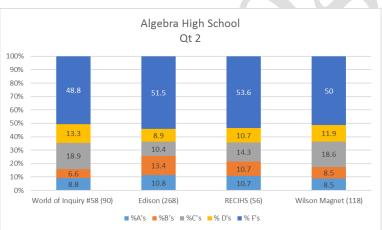

Each School has worked in collaboration with their School Chief to develop strategies to support students. The identified strategies are highlighted on each school's one page data (page 8-15).

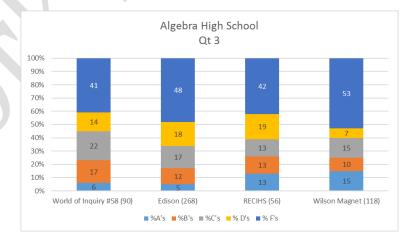

Network 3 Schools								
Bright Spots	Intensive Supports							
WOIS (Cohort Designation)	Wilson Magnet	Edison (Qt. 3 Passing Rate)						
	RECIHS	WOIS (Qt. 3 Passing Rate)						
	Edison (Cohort Designation)							

SECTION 4: DESCRIPTION OF QUARTERLY ANALYSIS ALGEBRA I (HS)

Algebra is one of the strongest predictors to determine if a student will be successful in 9th grade for the first time and also successful in the completion of high school graduation requirements. The following data points are the results from marking periods 1-3 for all students enrolled in Algebra. Students who are accelerated in 8th grade are not enrolled in these sections, as they complete Algebra a year earlier.

Algebra I HS Analysis Conclusions:

the Move

Four schools have more than 50% of first time 9th graders earning a passing grade.

All four schools have systems in place to support learning recovery for those students who earned a D or F.

Two of the four high schools show signs of needing intensive support as more than 50% earned a failing grade.

Strategy – Well-designed coherent programs to serve our students with specialized needs. In conjunction with the School Chief, the school will go deeper in identifying agency support to meet specific student needs.

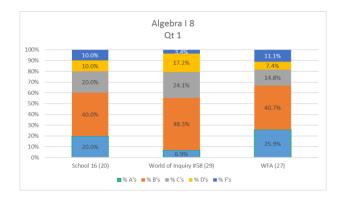

Strategy - Positive School
Culture & Relationships Further
support in developing and
support the relationship model
to better connect with students.

	WOIS	Edison				

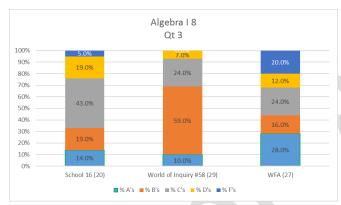

SECTION 5: ACCELERATED COURSES WORK QUARTERLY ANALYSIS (ALGEBRA I & LIVING ENVIRONMENT – 8TH GRADE)

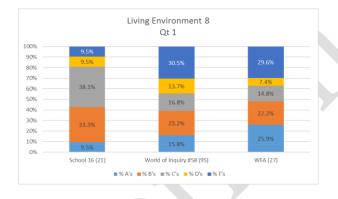

Accelerated coursework helps students earn high school credits prior to starting their cohort year, 9th grade. Students who have opportunities to take accelerated work not only get ahead in high school credits, they are more likely to stay ahead. Three schools in Network 3 have 8th grade and therefore, can offer students the opportunity to engage in accelerated course work.

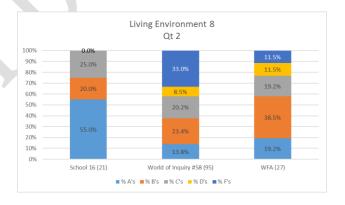

While there are multiple enrichment opportunities to offer, acceleration in 8th grade, Algebra I and Living Environment are the two courses that all three schools have in common.

SECTION 6: DESCRIPTION OF NETWORK ATTENDANCE

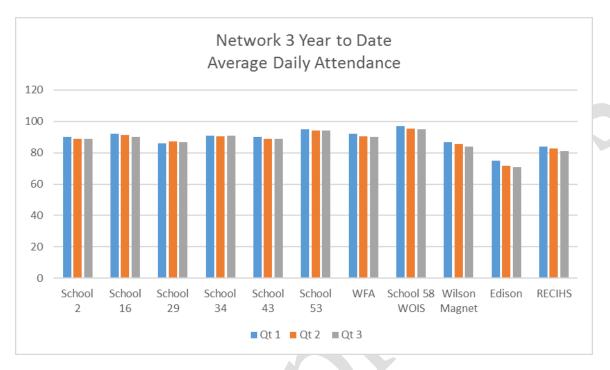

Attendance Analysis Conclusions:

The graph following depicts the comparison of the average daily attendance for the schools in Network 3 from November 2017 and April 2018. Many of the schools show a slight decrease in overall average daily attendance. Much of this decrease is attributed to the cold winter months and illnesses due to the flu and other viruses. Schools continue to work with families to support improving student attendance. This includes phone calls, home visits, request for special transportation and meetings with agencies.

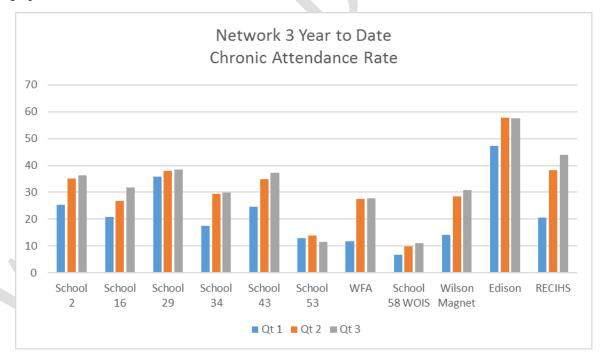

An additional attendance measure is chronic absences. The chart indicates the total percentage of students with chronic absence of 10% -19.99% and severe chronic absence as 20% or greater.

Of note, there is an increase in chronic absences in all of the schools. Again, as overall attendance decreases, chronic absences will automatically show an increase. The schools have instituted weekly meetings with the attendance team at

the school level. Several of the schools work closely with the Attendance Department on a biweekly basis. Schools participate in the Attendance Blitz and document supports provided to families. All relevant communication with families is noted in "Attend Actions" which is our the district database, for each individual student.

Below is a graph of the chronic attendance rate for each school in Network 3.

Going further to determine progress towards meeting DCIP goals and ultimately meeting the overall district goal of a 5% decrease in chronic attendance rate, an alternative approach was used to calculate the number each school needs. While these targets are not used in the DCIP goals, they were developed to provide more guidance in the progress monitoring process for each school.

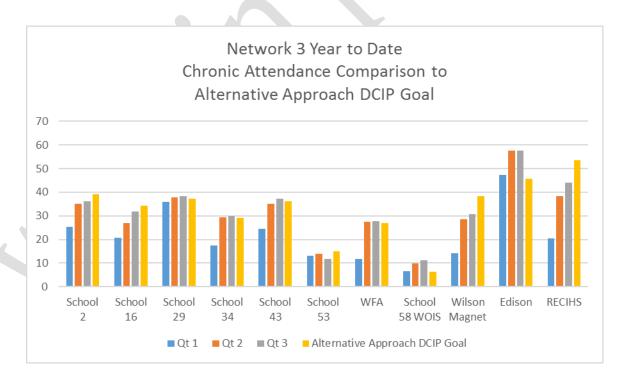

Methodology

In this current approach, enrollment was used in calculating each school's share of the DCIP growth targets. However, this variation resides within each Chief's Network. Each Chief's Network should have the same overall goals as the district's DCIP goals. Specifically, the following formulas were used to calculate the goals for this school year.

The formula applied is as follows:

Chronic Absence Rate 2018 Goal = Chronic Absence Rate in 22017 – $(5\% \times \text{Number of Schools Within a Chief's Network} \times \frac{\text{Current Enrollment of a School}}{\text{SUM of Enrollment of Schools Within a Chief's Network}}$

								5%	
School	2013	2014	2015	2016	2017	Current Enrollment	Weighting	Reduction by School	2018 Goals
02 - Clara Barton	31.86%	35.50%	32.77%	33.59%	42.13%	388	0.056	3.10%	39.03%
16 - John Walton Spencer	29.21%	31.70%	28.52%	33.69%	38.45%	512	0.074	4.09%	34.36%
29 - Adlai E. Stevenson	32.19%	36.84%	33.97%	32.30%	40.24%	372	0.054	2.97%	37.27%
34 - Dr. Louis A. Cerulli	31.29%	36.12%	34.72%	31.40%	32.88%	476	0.069	3.80%	29.08%
43 - Theodore Roosevelt	33.06%	35.63%	32.45%	31.82%	40.41%	517	0.075	4.13%	36.28%

District	31.00%	38.00%	35.00%	33.00%	41.00%				36.00%

Attendance Analysis Conclusions:

right Spots

Five schools are at or above 90% and can serve as exemplary schools for the network as their grade configurations span Pre-K to grade 12.

Several schools are "on track" to meet the DCIP goal using the alternative approach to calculate.

Four schools show signs of improvemen

Strategy - Positive school culture & relationships.

Strategy - Safe, supportive trauma responsive schools & classrooms.

Strategy - Invitational & family-friendly schools.

Support staff is deployed depending on the school needs which is determined in conjunction with the School Chief, for extra support during visits from the Office of Accountability Attendance, Counseling support, Attendance Blitz intensive support and help zones.
