

Creating a Story With Shapes!

Last week, we drew the second page of a three page story!

We chose one of the following shapes to include in the first pages

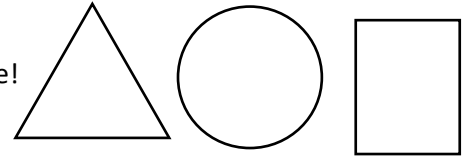

In the image below, you can see the table is a rectangle, and the napkin is a triangle!

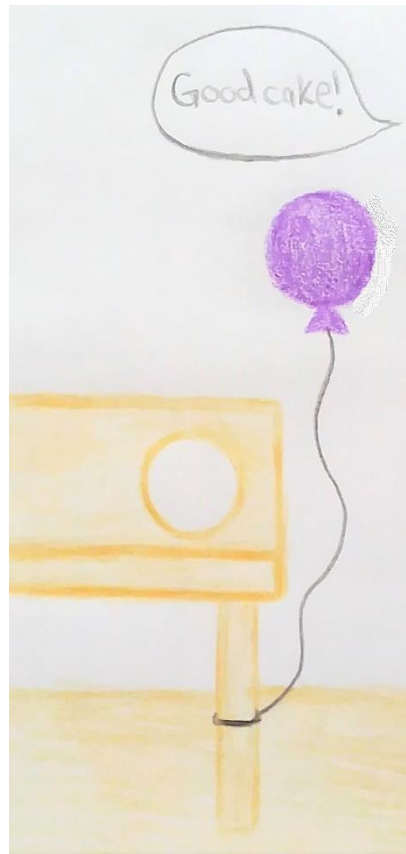

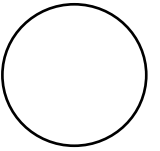

Today, we will draw the third page of the story, using another shape!

In the last two classes, we used two of the following shapes somewhere in the pages of our story!

Today, we will use the shape we haven't used yet out of these three!

As I think about how to use the third shape, I can think about what is happening on this third page. For example, the people ate some cake and were celebrating, so I can use circles for a plate and a balloon!

Please send me pictures of your artwork if you can, I would love to see them!
