

## Creating A Story With Emphasis!

In our last two classes, we began drawing a three page story! We used the object we drew in the previous class (for example, in my page below, it is the desk).

We also thought or brainstormed what would happen in the story in the next page.

For example, in my story, I find my pen and draw a picture!

Today, as you draw the third page of your story, think about what is happening in the story. Last class we put **emphasis** or focus on something in the second page in order to help show what was happening in the story.

Think about where the story goes from there!
