

# Suggested K-2 Curriculum Pacing

Below is a SUGGESTED GUIDELINE for delivery of all Units and Domains in the Skills and Listening and Learning Strands.

- Please recognize that you should be finishing and beginning new Units or Domains within the suggested time frames as much as possible.
- Keep careful track of your pacing as spending too much time on any one Unit or Domain may prevent you from teaching all of the skills and strategies necessary for your students to learn before the end of the school year.
- For students that are struggling with the material, you should be using the data from their curriculum assessments to determine their areas of need.
- You can address student needs during Skill Strand small group time, Pausing Points and GRAIR time using the Skills Strand Assessment & Remediation Guide as well as the Listening and Learning Strand Supplemental Guide (all found on eLearning).
