WHAT EVERY FAMILY MUST KNOW

Students who want to get a head start on a two-year or four-year college degree should consider Rochester Early College International High School. We have a close partnership with Monroe Community College and provide a small school environment. Students who seek the personal attention of a smaller setting with college course offerings will find success at Rochester Early College International.

In addition to completing a compact agreement, Rochester Early College International High School expects prospective 9th graders to visit for an in-person interview before selecting the school in the lottery.

SCHOOL FEATURES

- Scholars are expected to complete at least 24 college credits while still in high school. In addition to the advanced college work, international curriculum and projects are infused in all content areas to promote globally competent scholars.
- Dual credit courses and college credits begin at grade 9. Areas of dual credit include: Art, Health, Microsoft Office, Personal Money Management, and Psychology.
- Each scholar is expected to take a full course load all four years either at the high school or college. Behavior disruptions will not be tolerated in our school environment. Only serious scholars who are willing to complete extensive homework and are committed to exemplify model behavior should apply.
- Summer credit attainment opportunities for both high school and college are expected. All scholars are expected to take a foreign language for three years, and to complete community service.
- Diversity in all facets is celebrated and respected. Our scholars are serious about tackling rigorous academic challenges and embrace all individuals' differences on a daily basis. College graduation is an expectation for all.
