Agreement required: **Yes**

### WHAT EVERY FAMILY MUST KNOW

World of Inquiry is a close-knit community that teaches students of all ages to be questioners, critical thinkers and problem-solvers. Learning at World of Inquiry occurs through grade-level expeditions, which are in-depth studies of a single topic or theme that promote active learning, adventure and service to others. We are a K-12 school, and many of our current 9th- through 12th-graders have attended school together since Kindergarten, forming close relationships that foster a sense a family. Because the majority of our 8th-graders choose to stay with us for high school, we generally do not have many open seats.

### SCHOOL FEATURES

- A K-12 Expeditionary Learning School nationally recognized as a Mentor School for Expeditionary Learning.
- Students are engaged in learning expeditions and case studies, which can include project-based learning, working with community experts, and participating in field studies to places near and far.
- Juniors and seniors are required to take capstone classes, which allow them to create their own mini-expedition and/or case study.
- Rigorous academics are balanced with intentional development of character. All students will be enrolled in advisory crew, contribute to school-wide morning meetings, conduct student-led conferences, learn the art of presentation, and participate in service learning opportunities. Students will also have the opportunity to partake in multiple outdoor activities.
- The school is built on a culture of collaboration between home and school, with high levels of parent engagement and participation.
- Graduation rate is 91.8%, and all students who applied to college were accepted (100% college acceptance rate).
