Rochester City School District 2020-2021 Budget Executive Summary

The 2020 – 2021 Rochester City School District Budget encompasses the District's spending plan which includes funding for more than 24,000 students, a workforce of over 5,700 employees, and the operations of a District that includes over 60 schools and programs.

While the District continues to make progress toward its academic goals, it's important to understand that Rochester is one of the highest needs school districts in New York State

- More than 20 percent of its student population includes Students with Disabilities
- Rochester is one of the poorest cities in the state and in fact the entire nation.
- According to ACT Rochester, an initiative of the Rochester Area Community Foundation, more than 50 percent of children living in the City of Rochester live in poverty, and according to the U.S. Census Bureau, more than 32 percent of the city's entire population lives in poverty.

Throughout this budget document, you will see that budget priorities are allocated to ensure the District funds the services needed for all students, especially those with high needs. This is not an easy task given the District's fiscal crisis which was first brought to the attention of Superintendent Terry Dade in September of 2019, just two months after his arrival in Rochester.

Despite facing enormous hurdles as a result of the District's fiscal crisis, the District is doing all it can to ensure that students are crossing the finish line to graduation. In fact, the District has achieved its highest graduation rate in more than a decade. The New York State Education Department has data which shows Rochester's four-year graduation rate was 63% in August 2019, a 3.7 percentage point increase from the previous year.

This continues a trend of a steady increase in graduation rates, which also includes gains across the following demographic areas:

- 15.9% increase for English Language Learners, from 26.7% to 42.6%
- 5.3% increase for Students with Disabilities (SWD), from 41.7% to 47.0%
- 7.6% increase for Hispanic students, from 55.0% to 62.6%

The ability to improve the District's graduation rate with limited resources is a testament to the work done in schools to make sure children succeed.

RCSD Blueprint for Fiscal Stability

One of the six goals of Superintendent Terry Dade is to achieve and maintain fiscal stability by implementing a plan that will put the District on secure financial footing. This is much more attainable now that Superintendent Dade is able to draft a budget of his own, and the District has and will engage in long range conversations with the Board of Education, students, families, staff, and the entire community.

When crafting the 2020 – 21 budget it is important to keep in mind the District's three focus areas, or its three "rocks" which are guiding principles for students, parents, teachers, staff, and the entire community. Those three focus areas are; changing the narrative for the RCSD, a laser-like focus on Teaching and Learning, and unsurpassed collaboration. With those three rocks in mind, the District can help achieve its

Introduction and Overview six main goals.

One of the District's goals is to achieve an increase in its graduation rate by accelerating progress all across the board. The RCSD must also focus on accelerating progress in reading and mathematics in all classrooms. The District must also act to close achievement gaps and reduce disproportionality among our students of color. Additionally, children who attend school every day read four times better by third grade than their peers with lower attendance, therefore it is essential to reduce chronic absenteeism. The District will also continue to work with all its families and the greater community to better define parent/ family engagement.

All of these goals require a certain level of funding that will be a priority in the 2020 – 21 budget. By focusing on these goals, the District will ensure that its students will receive the high-quality level of education they so richly deserve.

RCSD's Fiscal Crisis and Efforts to reduce the Structural Deficit

The District has been confronted with a \$125M budget deficit which had to be addressed in one year. In the 2019 – 20 school year, immediate steps were taken to address a combined budget deficit of \$64.8-million-dollars in the fall of 2019, just 2 months after Superintendent Dade's arrival in Rochester. \$30-million-dollars in mid-year reductions were implemented in January, 2020. The severity of the District's fiscal crisis warranted these extreme measures.

In the 2020-21 school year, the District is facing an additional \$60M deficit. These are clear examples of why the District must reduce its structural deficit. Superintendent Dade has said repeatedly that he will not allow the 2020 – 21 school year to start and then have to find additional cuts in the middle of a school year. Part of the District's plan to eliminate its structural deficit was unveiled in January of 2020 with recommendations that were approved by the Board of Education in February of 2020.

Those recommendations were founded on three guiding principles; giving 2,300 middle and high school students a better opportunity to succeed, giving more children the best possible start, and rebuilding the RCSD and its blueprint for fiscal stability.

Giving 2,300 middle and high school students a better opportunity to succeed

This gives the District the opportunity to bring back the iconic Franklin High School, and will include combining students from the two schools currently on the Norton Street campus. Students from Integrated Arts and Technology High School and Vanguard Collegiate High School will combine into "Franklin Upper", which will serve 9th – 12th grade students, and "Franklin Lower", which will serve 7th – 8th grade students. The reason behind the strategy at the Franklin campus is accountability driven, to ensure students in these two grade-level bands have the targeted services and supports they need. A similar plan will also go into place during the 2020 – 21 school year at Monroe High School on Alexander Street. "Upper Monroe" will serve students in 9th – 12th grade, and "Lower Monroe" will serve students in 7th – 8th grade.

Giving More Children the Best Possible Start

In order to give more children the best possible start, the District is celebrating its nationally recognized Pre-K Program and is also addressing its long-standing enrollment challenge. The District is reconfiguring two of its schools and opening those buildings as early childhood education centers so it will have a Pre-K educational center in each of its three zones. Currently, the Rochester Early Childhood Education Center is

Introduction and Overview

located in the northeast section of the city. The first building that would be repurposed is the Early Childhood School of Rochester No. 57 on Costar Street. A similar repurposing will be done at Lincoln Park School No. 44 on Chili Avenue. The repurposing of Schools 57 and 44 would result in a savings of \$4.1-million-dollars.

Budget

In total, the 2020 – 21 budget is \$948,993,855 dollars, an increase of \$14,796,196 over the 2019 – 20 adopted budget of \$934,197,659, which represents an increase of \$14.8 million or 1.6%. The budget is organized to meet the needs of all District students including the 24,706 in K -12 and the 3,193 in Pre-K, as well as 6,707 students in charter schools. Of the District's 49 schools, 15 are in good standing, 21 are identified as Comprehensive Support and Improvement (CSI) Schools, 13 are identified as Targeted Support and Improvement (TSI) Schools, and of the 21 identified as Comprehensive Support and Improvement Schools, 14 of them are in receivership.

The District's current student demographic makeup is as follows:

- Black and African-American 54.6%
- Hispanic and Latino 31.6%
- White 9.6%
- Asian and Others 4.2%

Again, more than 20 percent (20%) of the District's student population includes students who are classified as Students with Disabilities (SWD) and fifteen percent (15%) are English Language Learners (ELLs).

The District's budget is supported primarily by state (77.1%), city (12.9%), federal (8.1%), and other (1.9%) revenue. The expenditure component of the Superintendent's proposed budget includes staffing, contracted services, materials, supplies, replacement equipment, utilities, vehicle fuel, and other operational expenses. Staffing costs are based on average salaries and projected benefits.

Revenue and Expenditure Highlights

The 2020-21 Rochester City School District Budget increased to \$949 million from the 2019-20 Amended Budget of \$934.2 million; this represents an increase of \$14.8 million or 1.6%. Refer to Section 3 of the budget book for a complete review of Districtwide revenues and expenditures.

Budget Overview

Several factors went into crafting the District's 2020 – 21 budget including;

- Board Budget Priorities
- Reduction in Senior Leadership Team
- Central Office Reorganization
- Right-Sizing School Staffing
- Program/School Transitions

Declining Enrollment/Increased Staffing

In crafting the 2020 – 21 budget, it is important to remember the District has long had a history of declining student enrollment, while increasing staffing. In fact, in the last 4 years, the District has seen an increase of 1,064 staff members, yet the District has had a gradual decline in enrollment. In the 2002-03 school year,

the RCSD's student population was 34,330 students as compared to now when student population is 24,706 students.

Central Office Reorganization

There is a narrative in the community that the District must address overhead in Central Office staff. Contrary to what is voiced in the community, what is funded at Central Office supports District schools:

- Finance: Budget, Payroll, Grants Management
- Office of Accountability: Testing, Student Records
- Human Resources: Hiring, Benefits
- Central Services: Food Service, Transportation, Operation of buildings/utility costs/rent, Distribution Center
- Information Management and Technology: Technology in the classroom, technology for students, online learning, and data systems.

Despite all of the vital services delivered from the District's Central Office, some very difficult decisions were made in this area of the organization. Proposed in the 2020 – 21 budget is a \$2.9M reduction in Central Office staff which includes a total of five Superintendent Executive Group (SEG) reductions from the start of the 2019 – 20 school year.

Staffing Reductions

It is important to also remember the unfortunate staffing reductions the District was forced to make in the middle of the 2019 – 20 school year. In order to help close a \$125-million-dollar deficit in one year's time, the District implemented 151 mid-year staff reductions in December of 2019 for a savings of \$9.4M dollars. Furthermore as part of the 2020 – 21 proposed budget, the District will eliminate another 236 positions totaling nearly 4% of its workforce.

Program/School Transitions

In order to help close the District's projected budget deficit of \$60,000,000 dollars for 2020 – 21 school year, several decisions have been made regarding school/program transitions. They include:

- Closing of the Bilingual Language and Literacy Academy
- A program change at Rochester International Academy where that building will become a 6-12th grade program, with the goal of creating the RIA International High School
- The District is proposing to close its Young Mothers Program and students from its Interim Health Academy would be attending All City High.
- Other school/program transitions will be made to better utilize District facilities

In total, these Program School transitions will amount to a \$7.4M savings.

Special Education Enrollment

RCSD remains committed to providing our special education students with the supports they need, The District's Special Education student population has increased by 1.9 percent from 5,571 students in 2014 – 15 to 5,891 students in 2019 – 20, yet the District's Special Education budget has increased by \$37.8 million dollars in five years. This amounts to a 27 percent increase in five years. Also the District's Special Education staffing has increased by 374 FTE's in five years, which amounts to a 31 percent increase.

Introduction and Overview

We will continue to provide our special education students a high quality education while incorporating operational efficiencies and program redesign.

Conclusion

In conclusion, while this budget has substantial cuts across the board, it is balanced and it still addresses the needs of students in one of the highest needs Districts in the State of New York. Increasing the academic outcomes of students is complex yet imperative, and it includes achieving and maintaining fiscal stability.

READING THE RCSD BUDGET BOOK

The Rochester City School District's Budget Book contains a wealth of financial and academic information. This book may be used as a resource book throughout the year to understand the District's policies, plans, schools, programs, and overall operations. Our main focus continues to be the effective management of funding provided to the students and the schools and programs that support their development and success.

The financial information of the District is based on our fiscal year, which runs from July 1st through June 30th. Budget presentations include two fiscal years in some cases and three fiscal years in others. For the overall budget summaries, the actual totals from FY 2018-19 are listed along with the current year FY 2019-20 budget for comparative purposes. The presentation of FY 2019 may include the original budget as adopted in May 2019 as well as the budget as amended in February 2020. The proposed budget column is the projection for the fiscal year ending June 30, 2021. The numbers used for the budget are based on the most current information known by the District at the time of this presentation.

Organization of the Book

The budget book is divided into sections in order to facilitate the reader's use. A Table of Contents provides a roadmap for the information.

SECTIONS 1 and 2: Introduction and Overview and **Policies, Priorities and Plans**, contain basic information concerning District operations as a whole, and include the Executive Summary, and enrollment and collective bargaining overviews.

SECTION 3: The District-Wide Summary Budget provides information concerning all revenue sources as well as the breakdown of expenditures by major categories. It also includes a summary of positions by major categories.

SECTION 4: The **School Budget** section includes each school's financial information and staffing. The Budget page will include staffing breakdowns and proposed expenditures.

This section also includes information on alternative school programs and the early childhood (Pre-Kindergarten) program, as well as divisions that directly support the schools. The divisions are Chiefs of Schools, and School Support. School Support includes Food Service, Health Services, Transportation, and Tuition for Charter School and Special Education students. The two divisions will provide information concerning staffing, expenditures by major category, full departments, sub-departments, and locations.

SECTION 5: The **Program Profiles and Budgets** section presents goals, objectives and measures of achievement for programs within the District's Strategic Plan. The information presented in this section shows the cost of the program and is also included in the school and department budgets. Each program will include the number of students served, locations, program description, objectives, revenue sources, expenditures, related positions and costs per student.

SECTION 6: Administration Profiles and Budgets section contains budget information for administrative departments. The expenses in this section are not related to particular programs or schools, but must be budgeted for the operations of the District. Information provided will include a description of each department, staffing, and expenditures by major category. Within each major department there are sub-departments that will give further clarification of expenditures.

Introduction and Overview

SECTION 7: East High School EPO section contains budget information for the administration and operations of East High School. The 2015-16 school year began a five-year agreement under which East High School will be managed by the University of Rochester as an Educational Partnership Organization (EPO); 2019-20 will be the fifth year under this partnership. Although still a District school, funded as part of the District budget, East has a separate administrative structure established by the University that reports directly to the Board of Education and manages all aspects of school operations, including staffing. For this reason its budget must be separate from the support profiles and budgets of schools managed by the District Superintendent and Administration.

SECTION 8: District-wide Profiles and Budgets section contains budget information for District-wide departments. The expenses in this section are not related to particular programs or schools, but must be budgeted for the operations of the District. Included are Debt Service, District-wide Non-Program Expenses, and Employee Benefits.

SECTION 9: The Capital Improvement Plan which is comprised of the Capital Improvement Program and the Cash Capital Plan is a five-year financing strategy for the construction and reconstruction of facilities, the acquisition and replacement of vehicles and equipment, and the completion of other long-term capital projects.

SECTION 10: Appendices include additional information that will help you in understanding the Rochester City School District. Presentations and explanations of programs and departments are brief and meant to provide a concise overview of the area. Additional information may be found on our website or by contacting the District's Communications Department.

The budget is comprised of many sub-accounts that are not visible when viewing the summary categories. BUDGET POLICY (6110)

As the Rochester City School District receives a great deal of its revenue from New York State, the timely completion of its budget process is integral to the orderly operation of the District's budget process.

The Board of Education believes one of its greatest responsibilities is to exercise financial oversight to ensure fiscal responsibility of the school district.

The Board of Education will annually approve a specific budget calendar developed by the Chief Financial Officer and recommended by the Superintendent in accordance with the attached Exhibit A.

The Superintendent and the administrative staff shall solicit the views of persons concerned with the budget to assist in its development. The superintendent shall ensure the participation of the Board of Education, staff, students and the community prior to compiling data, organizing the budget and presenting the budget to the Board.

Policies, Priorities, and Plans

The budget shall be designed to reflect the Board-approved goals and objectives and the District's strategic plan for the education of our students. The recommended budget will be presented to the Board on or about the first week in April. Efforts to solicit input from parents, the Rochester community and staff shall be disclosed at the Superintendent's initial budget presentation to the Board.

To assist in budget and long-range planning, ongoing evaluations of the District's educational programs will include estimates of the fiscal implications of each program, and the effectiveness of these programs over time. The Superintendent's proposed budget must include the most recent program evaluation results, which should determine continued funding for existing programs.

The Superintendent, in conjunction with the Chief Financial Officer, will develop a multiyear long-range plan, including plans for budget presentation in both a program-based and school unit format. It will be reviewed annually with the Board of Education as part of the budget process beginning with the 2006-2007 budget process.

The budget for the ensuing school year shall be thoroughly reviewed by the Board of Education in no less than two (2) Finance Committee Meetings of the Whole. Following this review, the Board will adopt a budget for the coming fiscal year in accordance with Policy 6130 for subsequent submission to the City of Rochester for inclusion in their budget submission to City Council.

Adopted 12/19/2002; Amended 3/17/2005 pursuant to Resolution No. 2004-2005: 656; Amended October 28, 2010 pursuant to Resolution No. 2010-11: 335. Ref.: Section 1709 (2) of Education Law

COLLECTIVE BARGAINING

Pursuant to New York's Taylor Law (Public Employees' Fair Employment Act, Civil Service Law, Article 14), all school district employees have certain organizational and representational rights. The law provides employees with the right to organize, to bargain collectively through representatives of their choosing with respect to wages, hours and other terms and conditions of employment, and to engage in lawful concerted activities that flow out of the right to organize. The Rochester City School District's Office of Labor Relations represents the District's Board of Education and Superintendent in collective bargaining with its employees.

Employees of the Rochester City School District are organized into five bargaining units. Managerial and confidential employees are not represented by the District's bargaining units. These employees include those in the Superintendent's Employee Group (SEG), the Board Employee Group (BEG), and the Exempt Employees Group (Exempt). The terms of employment for SEG and BEG employees are governed by the Rules and Regulations of the Superintendent and Board Employee Group (SEG/BEG). The terms of employment for Exempt employees are governed by the Rules and Regulations of the Superintendent and Board Employee Group (SEG/BEG). The terms of employment for Exempt employees are governed by the Rules and Regulations of the Board of Education Relating to Exempt Employee Group. Also, there are a number of employees (predominantly part-time employees who work less than 20 hours) that are not collectively represented and who do not receive contractual benefits.

Financial Impact

The District's FY 2020-21 Budget provides for salary increases and step increases guided by collective bargaining agreements. All of the existing agreements that expired on June 30, 2019 or prior are currently being negotiated with the various bargaining units.

The negotiated salary increase under the RTA contract is benchmarked to other school districts. The District and RTA continue to monitor the resolution of contracts in other Monroe County school districts to determine the appropriate increase. The following table presents a historic salary schedule overview.

Explanation of Changes to the Budget

The 2020-21 Rochester City School District Budget increased to \$949 million from the 2019-20 Amended Budget of \$934.2 million; this represents an increase of \$14.8 million or 1.6%.

Revenue

The District revenue is comprised of:

- \$666.9 million (70.3%) in State Aid.
- \$125.2 million (13.2%) in Grants and Special Aid Fund revenue.
- \$119.1 million (12.6%) in local revenue appropriated by the City of Rochester
- \$24.5 million (2.6%) in Food Service revenue.
- \$11.0 million (1.2%) in other local revenue sources.
- \$2.1 million (0.2%) in Medicaid reimbursements.

The net increase in revenue is \$14.8 million. Year-to-year increases in revenue include \$24.2 million:

- \$14.0 million in formula-based State Aid, which includes \$4.5 million that is anticipated to be appropriated by the NYS Legislature in addition to the amount projected in the Governor's proposed budget.
- \$9.5 million in anticipated Building Aid based on construction project schedules.
- \$0.7 million increase in other local revenue, not including qualified school construction bond subsidies and capitalized interest.

Year-to-year decreases in revenue include \$9.4 million:

- \$5.8 million in qualified school construction bond subsidies and capitalized interest will be recorded in the Debt Service Fund in 2020-21, not the General Fund. This represents a change in accounting practice, not a decrease in revenue.
- \$2.3 million decrease in grant revenues due to competitive and one-time grants ending.
- \$1.3 million decrease in other State revenues for specific populations and "bullet aid" legislative appropriations.

Expenditures

The District expenditures are comprised of:

- \$543.6 million (57.3%) in compensation and benefits, including salaries, extra pay, overtime, substitute teachers, health and dental insurance, and retirement system contributions.
- \$196.0 million (20.7%) in fixed obligations, including tuition for charter school students and special education private placements, student transportation contracts, insurance, and reimbursable health services for other districts.
- \$82.2 million (8.7%) in principal and interest payments on construction bonds.
- \$72.8 million (7.7%) in variable expenses such as BOCES services for special education students and nursing, professional service contracts, temporary staff, and professional development.
- \$41.7 million (4.4%) in facility and supply expenses, including utilities, leased space, service contracts, printing, and instructional supplies.
- \$8.9 million (0.9%) in cash capital outlays for durable goods such as equipment, computer hardware, and textbooks.
- \$3.2 million (0.3%) in software.
- \$0.5 million reserved for contingency expenses.

In total, the District expenditure budget will increase by \$14.8 million, from \$934.2 million to \$949.0 million.

Spending categories with material budget increases include:

- Increase of \$12.2 million (13.7%) in charter school tuition based on the projection of 6,707 charter school students (an increase of 462 due to recently opened schools adding grade levels), and a projected basic tuition rate of \$14,365 (an increase of \$370 per student). The tuition rate determined by New York State, and the actual number of students will be known in the fall.
- Increase of \$8.4 million (1.6%) in compensation and benefits. Contractual wage increases and growth in health insurance costs are offset by the reduction of 236 positions.
- Restoration of \$5.0 million for a transfer to the cash capital fund to be used for investments in fixed assets. The 2019-20 amended budget includes no cash capital transfer as a result of a one-time waiver of the requirement enacted by the City Council.
- Net increase of \$0.7 million in all other expenditures.

Spending areas with material budget decreases include:

- Reduction of \$7.9 million (-22.6%) in professional technical services, due to the expansion of in-district Pre-Kindergarten seats and the termination of non-essential contractual services.
- Reduction of \$3.6 million (-10.3%) in BOCES services due to the projected increase in in-district placement of special education students.

Student Enrollment

Cost Per Student

Mission Statement: It is our mission to develop students who have a positive attitude toward learning and are committed to acquiring the skills necessary to become independent and responsible adults. Our students are provided with the necessary academic and social scaffolds so that they can learn, access information and apply knowledge in decision making and problem solving endeavors, both individually and cooperatively with others. We develop students who exhibit a strong sense of self and personal heritage, while acknowledging and appreciating cultural diversity and responsive citizenship.

Food Service Management Financial Discussion and Analysis

Division/Department Overview: Food Service supports student achievement by providing healthy nutritious food which will help prepare our students for learning. The department administers the National School Lunch Program throughout the District. Approximately 17,000 breakfasts and 20,000 lunches are served daily. This program includes operational and support personnel, comprised of full and part-time employees. The elementary school food service program is operated through a centralized food production kitchen while the secondary food services personnel prepare meals on-site. All students qualify for free and reduced price meals under the Community Eligibility Option, which was implemented in 2012-13.

PROGRAM-BASED BUDGETING (PBB)

Program-Based Budgeting (PBB) is a program-based format that supplements the traditional narrative and financial information in the Budget Book. PBB links programs to the Board of Education's and Superintendent's goals and objectives and provides measures of achievement to evaluate the program in meeting the District's Strategic Plan. The PBB format used to present each program or group is organized into the following sections: Program Description, Program's Alignment with Rochester City School District Strategic Goals, Program Objectives, Program Measures, Financial Information, and FTE Summary.

Program Description provides a brief description of the program or group of related programs. Program's Alignment with Rochester City School District Strategic Goals identifies one of the goals established in the District's Strategic Plan to ensure strong alignment between program objectives and the mission of the organization.

Program Objectives and Measures summarize the objectives and corresponding program measures. The objectives should be aligned with the Board of Education and Superintendent Goals, as well as student achievement and/or customer service outcomes whenever possible. The Program Measures section provides quantifiable measures to facilitate a multiple year assessment of the program's value toward achieving its stated objectives. This section provides statistics that measure student achievement and/or customer service outcomes against stated program objectives. Due to limited space on the PBB form and a need for a uniform measure, only program results year-to-year or total grade/school results year-to-year are reported on the form. More detailed measures/metrics are provided through systematic year-end evaluation forms. Evaluation of programs is strengthened by relative comparisons to total District results and other comparable programs.

Financial Information goes beyond the traditional cost and FTE information provided in the current budget book format. It also lists program funding sources such as grants, local funds or user fees, as well as providing costs on a per-student or service basis. This additional financial information shows a program's net cost on a per-unit basis to provide a standard measure for comparison to other programs throughout the organization.

The programs included for presentation in the PBB format include:

- Home Hospital Tutoring Program
- LyncX Academy
- NorthSTAR
- Office of Adult & Career Education Services (OACES)- Adult and Career
- OACES- Equivalent Attendance
- Special Ed. Extended School Year (ESY)
- Youth and Justice- Agency Youth
- Youth and Justice- Incarcerated Youth

Program Profiles & Budgets

Program Name:	Home Hospital Tutoring Program
Program Director:	TBD
Chief:	TBD
Program Category:	Off Campus Alternative Eduation
Number of students served 2018-19:	230
Location:	Home, hospital, public locales
Grade level(s) of student served:	All Grades
Funding:	General Fund

Program Description:

Per NYS Commissioner's Regulations, Home/Hospital Tutoring provides continuity of academic instruction in core subjects to students who are homebound; unable to attend school, usually for reasons of illness, disability or discipline. Assignment to the program vary from ten days to one full year, depending on the severity of the medical condition or suspension. Home/Hospital teachers travel to various locations to meet the academic needs of District students and sometimes those of private and/or parochial school students (those with an IEP). Although a Home/Hospital teacher provides continuity of instruction for individual students, the student continues to remain directly connected to his/ her home school. A review of all requests for Home/Hospital Tutoring must be made by the Program Administrator or a registered nurse to determine medical necessity.

Program's Alignment with Rochester City School District Strategic Goals:

Ensure each student is academically prepared to succeed in college, life and the global economy.

Program Objectives:

1) Provide at least 5 hours of instruction to homebound elementary students per week.

2) Provide at least 10 hours of instruction to homebound secondary students per week.

The Special Education Extended School Year (ESY) Program is mandated by NYS Regulations of the Commissioner of Education (Part 200). The Committee on Special Education (CSE) determines a student's eligibility and services. ESY programs and services are provided to support the maintenance of skills for students who have severe disabilities and are likely to regress during the summer months. Skill information is received from home schools and IEP goals are evaluated again at the end of the summer program. Progress is reported to schools and families. The in-District ESY program supports elementary and secondary students in a 30-day full day program. Participation in the program is not mandatory. Student attendance and collaboration between school and families are important factors. A recent review of the program and the eligibility requirements has led to improved procedures, documentation, and instructional practices.

The focus of the Monroe County Incarcerated Youth Programs is to maintain continuity of core course instruction with students in regular high school programs, and to provide instruction and administer the TASC Examination to students who have dropped out of Monroe County schools. The program provides students with literacy initiatives, as well as transition counseling,. The Program partners with the County of Monroe to support jail programming and transitioning youth back into the community. Homelessness, health related concerns, drug use and abuse, gang violence, and individual concerns that students cite as barriers to success in the community are addressed individually, in groups, and in classrooms as appropriate. TASC Diploma earned refers to the percentage of eligible student candidates.

Program's Alignment with Rochester City School District Strategic Goals:

Ensure each student is academically prepared to succeed in college, life and global economy.

Program Objectives:

1) Increase the percent of youth receiving a New York State Certified TASC Diploma (NYS Average is 55%)

Information Technology Management Financial Discussion and Analysis

Division/Department Overview: Information Management & Technology (IM&T) provides the management and support for the District's network infrastructure, data and voice networks, as well as core enterprise application systems in the areas of student and business operations. In addition, technical guidance is provided for the planning and acquisition of all technology equipment in our schools/facilities. Software development, Helpdesk support, problem determination and resolution, training, customer service and preventive maintenance of systems software are core competencies of this Division. IM&T integrates closely with all key areas of the organization to ensure that District systems and processes can successfully support APPR, Common Core, State Requirements, as well as student and staff needs in the delivery of education to our students. In 2012-13, IM&T began the shift to digital learning; an area which is projected for continued growth in future years as we work to ensure that our students have access to high quality educational material delivered in a technologically-advanced environment.

Student Support Services Management Financial Discussion and Analysis

Division/Department Overview: Student Support Services provides those legally required services that enable students to benefit from the instructional program, such as nursing, guidance, psychology, social work, and special education. Student Support Services consist of school counselors, school social workers, school psychologists, and other qualified professional personnel involved in providing assessment, diagnosis, counseling, educational, therapeutic, and other necessary services (including related services as that term is defined in section 602 of the Individuals with Disabilities Education Act) as part of a comprehensive program to meet student needs. Those staff are designated to protect the health and safety of all students in the District, including general education students, students with disabilities, pupils at risk, and students who are gifted. They are trained to evaluate factors that contribute to student difficulties with behavior and academic achievement.

East Upper and Lower School Educational Partnership Organization (EPO)

The East Upper and Lower School Educational Partnership Organization (EPO) is an Agreement by and between the Board of Education of the Rochester City School District, the New York State Education Department, and the University of Rochester (U of R), through its Warner School of Education to provide services at the District's East Upper and Lower Schools. The role of the EPO at East is to provide services in the role of superintendent consistent with Education Law §211-e, and with the objective to create and institute a comprehensive school intervention plan that will lead to marked increases in student achievement. The U of R has the capability to act

as EPO for East with the objectives of raising student achievement through the institution of best practices following the New York State Education Department's Diagnostic Tool for School and District Effectiveness. The U of R has educational programs focused on tools and methods to improve the educational performance of students enrolled in low-performing schools. The New York State Education Department approved the plan for East High School to operate under the supervision of the U of R as an Educational Partnership Organization beginning with the 2015-2016 academic year; this began a five-year agreement. Under the terms of the new agreement established for the 2020-21 school year, the EPO may continue to support East Upper and Lower schools through the 2024-25 school year. Furthermore, through its Technical Assistance Center, East staff will be positioned to share effective practices with other Rochester City School District schools. Although still a District school funded as part of the District budget, East will have a separate administrative structure established by the University that reports directly to the Board of Education and manages all aspects of school operations, including staffing. For this reason, its budget must be separate from the support profiles and budgets of schools managed by the Superintendent and District Administration. The East HS EPO section contains budget information for the Administration and Operations of East High School.

Educational Partnership Organization (EPO)

Key Elements of the Plan for East High School

East is transitioning into a comprehensive school with a robust set of services to support its diverse students. Entrance to East is by student choice, giving priority to students living in proximity to East and the neighborhoods surrounding the school. The percentage of students attending East from the neighborhood catchment area has increased from less than 5% to nearly 35% in 5 years. East offers a strong academic program and a full complement of athletic and extra-curricular activities that support and engage students. East is organized into two separate schools. The Lower School includes grades 6-8, and the Upper School houses Grades 9-12. Part of the Upper School, a separate Freshman Academy, serves first-time 9th graders. The addition of 6th grade provides students a jumpstart on developing the foundational skills and attitudes necessary for success in high school and positions students to earn more high school credits before entering ninth grade.

Scholars experience extended learning time every day through a longer 7.5-hour school day. Those in Grades 6-9 have increased instructional time devoted to math and literacy, supported by high- quality and culturally relevant curriculum within a robust catalog of tiered interventions. Interventions are targeted toward the specific needs of scholars, differentiated in intensity, and flexible (students may transition out of interventions throughout the year) in order to successfully accelerate the learning and achievement of scholars in the most effective, efficient, and least-restrictive way. Students in grades 10-12 have additional opportunities to focus on college and career preparation, as well as on course recovery and small group remediation where needed.

The people working at East are "all in... all the time," meaning that they direct their full professional efforts to helping to create a positive and successful educational experience for East's students. East's teachers and school leaders engage in teaching and learning as a collaborative experience. Every day, they work together in pursuit of a guaranteed and viable curriculum, planning lessons, assessing student progress, and sharing their practice. They are proactive in their advocacy for and service to students. The schedules and compensation of people working at East have been adjusted to facilitate this increased engagement with students and professional learning.

Social emotional learning takes place in Family Group. Family Groups meet daily and consist of mentors (faculty, staff, and/or administrator) and a group of scholars from all grade levels with a focus on student voice, healthy habits and a sense of belonging. Curriculum for this includes the 7 Habits of Successful Teens, leadership skills, study skills, community service, career readiness and other issues designed to support students' emotional and social development and support academic achievement.

The East EPO supports a safe and healthy school environment for teachers, students, and their families, using a restorative practices approach, with the systematic support of counselors, social workers, and comprehensive health services. East uses an intentional model of engagement and relationship-building that focuses on the strengths of students and families, creating meaningful opportunities for shared decision-making with youth, families, and other partners in the Rochester community. East offers a continuum of programs for English Language Learners, including integrated supports throughout the school program, as well as an enhanced language program for students whose home language is Spanish.

The transformation of East involves a significant commitment to distributed leadership among administrative school leaders and content-specific teacher leaders as well as among teachers, parents, students, and other stakeholders as relevant. It requires ongoing, embedded, and intensive professional learning for all school staff, which includes extensive summer work that continues throughout the academic year, and it entails a commitment to job-embedded professional development through regular coaching and collaborative planning time to support effective curriculum design, assessment and data

analysis to inform instruction, planning, and professional learning.

The curriculum at East has been selected based upon research, with extensive input from East's teachers and University of Rochester faculty, building on successes in Rochester and across the country. At the Upper School, East offers scholars access to all state-approved graduation pathways, striving to eliminate barriers to educational equity and to support scholars in reaching for and meeting the high expectations reflected in our mission and in the more rigorous diploma requirements. Our comprehensive program offers a full range of classes leading to the Regents diploma, including career and technical pathways, as well as a range of AP and early-college courses.

At East we believe that every child needs to be both Career and College ready. East High School has a rich tradition of offering scholars access to career exploration. For more than 16 years scholars have been able to explore careers in Teaching, Culinary, and Information Technology. Six years ago, with the support of local optics companies, we added Vision Care and Optical Fabrication to our pathways. The EPO was committed to adding a Health Sciences pathway, so three years ago, they added the Biomedical Laboratory & Health Sciences pathway. Currently the Culinary, Information Technology, Teaching and Learning Institute and Vision Care pathways are state-certified allowing scholars to work toward a CDOS Credential and seal on their diplomas. The remaining pathways are in the process of applying to the state for certification as well. All of the CTE pathways were chosen specifically to fit the needs of our Greater Rochester community for qualified workers. These pathways offer scholars the opportunity to obtain college credit, develop a strong core of hands-on technical skills from which to move into a variety of career areas, opportunities to visit worksites, participate in internships, and gain an inside look at the world of work. Our data reflects positively on this endeavor to support scholar access to and achievement with challenging coursework and successful high school graduation from East.

Debt Service

Management Financial Discussion and Analysis

The City of Rochester ("the City"), on behalf of the District, contracts indebtedness in accordance with terms outlined in the City's Charter. The limitation of 9% for indebtedness, as set forth in Chapter 4 of Article VIII of the Constitution of the State of New York, is allocated by the City's Charter on the basis of 5.5% for municipal indebtedness as determined by City Council and 3.5% for indebtedness for educational purposes as determined by the Board of Education.

The District utilizes the Debt Service Fund to account for the accumulation of resources and the payment of general long-term debt principal, interest, and related costs.

American Recovery and Reinvestment Act (ARRA) Tax Exempt Municipal Bond (Bonds) matures in February 2024.

Bond Anticipation Notes (BANs) are short-term (under one year) debt instruments issued for approved capital projects, renewable at maturity or converted into bonds. As of March 2020 the District has one BAN outstanding totaling \$37.9 million which may be renewed in August 2020.

General Obligation Bonds (Bonds) are long-term debt instruments used to fund capital projects associated with the District's Capital Improvement Program and the Facilities Modernization Plan, with maturity dates that vary through May 2035.

Revenue Anticipation Notes (RANs) are short-term (under one year) debt instruments issued for cash flow purposes when the receipt of some particular form of revenue lags expenditure requirements during the fiscal year. The issuance of a RAN allows for continuity of operations and educational services. As of March 2020, the District has one RAN outstanding of \$50 million that matures May 29, 2020. The District anticipates the need to issue a RAN in fiscal 2020-21.

Taxable Qualified School Construction Bond (Bonds) is a federally subsidized bond issued by the County of Monroe Industrial Development Agency (COMIDA) to finance the renovation of certain school facilities in accordance with the Facilities Modernization Program.

Districtwide Non-Program Expense

The District-Wide Non-Program Expense cost center includes major expense budgets related to the organization, but not directly tied to a specific program or department. Examples include: indirect cost support for grants, funds to support the District's long-term capital plan, and grant disallowances.

Salary Compensation

The Non-Program Expenses salary budget includes staffing turnover and vacancy savings that occur throughout the year.

Other Major Activities

- Insurance Non-Employees—This budget covers Property and Liability Insurance, as well as School Board Liability Insurance.
- Cash Capital Expenditures—These expenditures are funded with cash rather than Debt Service. Under Governmental Accounting Rules, the District must include Cash Capital as single cost item in the General Fund budget. In effect, it is treated as an inter-fund expense.
- Agency Temporary–This budget represents temporary labor costs. Paraprofessional, clerical, and other civil service substitutes are funded from this central budget.
- Judgments and Claims—These funds defray the costs of legal claims against the District that are not covered by insurance. The District is self-insured for General Liability Claims up to \$500,000.
- Grant Disallowances This budget includes costs of programs accounted for in the Special Aid Fund that are not reimbursed by the funding organization. This includes program costs, such as Pre-School Special Education services, whose reimbursement rates are not sufficient to fully fund the program.
- Indirect Costs—The District is allowed to charge overhead cost allocations to grants for reimbursement purposes. These costs are not specifically identified. They are, instead, a percentage of grant dollars to be used as an offset to District administrativecosts. They are included in the Non-Program Expense group as they do not represent offsets to specific expenditures.

Employee Benefits

The District provides employee benefits based on collective bargaining agreements and New York State (NYS) Labor Laws. The expenditures in this area cover health insurance, retirement plans, Social Security, illness leave, and other insurance and contractual benefits.

- Health and Dental Group Insurance Plans The District provides health insurance coverage to active employees and retirees; active employees and some retirees are eligible to enroll in group dental plans. The District is self-insured, and utilizes a Third Party Administrator to manage the claims for District employees.
- Retirement Plans –This budget provides contributions to the NYS Teachers' Retirement System and the NYS Employees' Retirement System for active employees. The Teachers Retirement System Board of Directors and the New York State Comptroller determine the employer rate of contribution required each year to maintain the fiscal integrity of each plan. The rates are based upon actuarial cost projections, anticipated retirement fund investment earnings, and projected employer and employee contributions.
- Social Security The Federal Insurance Contribution Act (FICA) requires employers and employees to contribute 6.2% of salary towards retirement, and an additional 1.45% towards Medicare.
- Unemployment Insurance The District is self-insured for unemployment and provides a quarterly payment to the NYS Unemployment Office based on actual claims paid.
- Workers' Compensation The District is self-insured, and utilizes a Third Party Administrator to manage the workers' compensation claims for District employees.
- Employee Assistance Program (EAP) The District provides free and confidential counseling services through a formal EAP plan, accessible to all employees and their families.
- Life and Disability Insurance These group plans provide insurance coverage available to employees in accordance with collective bargaining agreements.
- Paid Illness Leave –The District's employees are provided with contractual long term illness benefits (catastrophic illness leave) for unexpected health-related absences. Civil Service employees are also eligible for a short-term disability leave (Extended Sick Leave at half-pay). Teachers are eligible to apply for paid absence bank (PAB) days through the RTA but funded by the District.
- Flexible Spending Accounts (Section 125 Plans) –FSAs are tax-advantaged financial accounts that allow employees to set aside a portion of their pre-tax earnings to cover dependent or medical expenses, with administrative expenses borne by the District. Medical Reimbursement Accounts (Section 105 Plans) are available to ASAR members who qualify for the Attendance Incentive, upon retirement.
- Other Contractual Benefits –additional benefits include early retirement and attendance incentives, tuition reimbursement, moving costs, and vacation pay in lieu of vacation time.

Each subset of this spending needs to be formally approved but it is envisioned that funding will be available in four main categories: school connectivity; classroom technology; high tech security; or renovations for replacement of transportable classrooms.

(2) This is an estimate of principal debt reduction that could later be re-borrowed to fund RCSD's future annual CIP programs.(3) The projected amount shown is the bond amounts to be issued to fund the RJSCB for the beginning of Phase 3 of the FMP program.

GLOSSARY

Accrual Basis of Accounting

The accounting policies of the Rochester City School District conform to generally accepted accounting principles. The basis of accounting is the modified accrual method, wherein revenues are recognized in the period in which they become available and measurable and expenditures are recognized at the time a liability is incurred, except for principal and interest on long-term debt, which are recorded when due.

Actuals

The amount the District has spent in a given period as opposed to original budget estimates.

Adopted Budget

The annual financial plan, listing estimated revenues and expenditures for a fiscal year, and is formally adopted by the Board of Education. Before the budget is adopted, it is known as the Proposed Budget.

Advanced Placement (AP)

A program developed by College Board that offers college level courses and end-of-course college credit eligible exams to high school students.

Amended Budget

A budget with adjustments to the original budget that has been adopted by the Board of Education.

Annual Professional Performance Review (APPR)

School Administrator and Teacher performance reviews based on student achievement as measured by a combination of student growth on state assessments and locally selected student performance indicators.

Appropriation

An authorization to expend funds for stated purposes.

Assessment

Each year the District assesses student performance for identifying areas to target for improvement. The assessment is the cornerstone for the District's planning process and the development and implementation of initiatives.

Attrition

The difference between actual expenditure requirements for personnel resources and expenditure requirements that would be required if all positions were filled at all times. The attrition factor accounts for position vacancies, which result from routine employee turnover.

Average Daily Attendance (ADA)

The total days of attendance for a period divided by the number of days in which school is in session.

Balanced Budget

A budget in which income/revenues equal expenses.

Basic Educational Data System (BEDS)

System for collecting district/school student enrollment and staff counts. The date is then submitted to the State Education Department.

Bilingual Education

Programs designed to help students who have limited English proficiency (primarily geared towards Spanish and/or Latin American dialects).

Bond Anticipation Note

A note which may be redeemed using the proceeds from the future sale of a serial bond. A note is a short-term borrowing instrument, usually requiring repayment within one year of issuance.

Capital Improvement Plan

The Rochester City School District's Capital Improvement Plan and Cash Capital Plan is a five- year financing strategy for the construction and reconstruction of facilities, the acquisition and replacement of vehicles and equipment, and the completion of other long-term capital projects.

Career Technical Education (CTE)

A program of study involving a multiyear sequence of courses that integrates core academic knowledge with technical and occupational knowledge (I.e. trade skills) to provide students with a pathway to postsecondary education and careers.

Cash Capital

The cash capital expenditures are for the purchase of equipment, textbooks, library books, and building renovations. Cash capital appropriations exclude those renovation projects that require the use of borrowing. The cash capital expenditures are distributed in each program and departmental budget.

Categorical Grants/Funds

Funds the District receives from another entity earmarked for use exclusively for specific programs, such as Special Education, or activities such as transportation. Categorical funds are also referred to as restricted funds because they cannot be used for purposes other than to cover the expenses of a specific program/activity set by the funding agency.

Certificated Employee

A District employee whose position requires certification by the State of New York. Teachers and most administrators must meet New York requirements for certification issued by the State Commission on Teacher Credentialing. Teachers operating under an emergency permit are included in this category. Examples of staff that are credentialed for a specific function include teachers, counselors, psychologists, social workers, librarians, principals and assistant principals, certificated central office managers, resource teachers, content administrators and peer coach/staff developers.

Common Core Learning Standards

The New York State P-12 Common Core Learning Standards (CCLS) are internationally- benchmarked and evidence-based standards. These standards serve as a consistent set of expectations for what students should learn and be able to do, to ensure that every student across New York State is on track for college and career readiness.

Comprehensive Support and Improvement (CSI)

Schools for which the All Students group is in the bottom 5% of all schools in New York State are identified as CSI schools. For high school identification, the All Students group's four, five and six year graduation rate is below 67%. CSI identifications are based upon the performance of the All Students group and are made every three years.

Data Driven Instruction (DDI)

Data Driven Instruction and Inquiry (DDI) is a precise and systematic approach to improving student learning throughout the year. The inquiry cycle of data-driven instruction includes assessment, analysis, and action and is a key framework for school-wide support of all student success.

Debt Service

The District's debt service is maintained in the Debt Service Fund which resources for the payment of general long-term debt principal, interest and related costs. Debt service includes taxable bond principal and interest, Revenue Anticipation Note interest, Bond Anticipation Note principal and interest, and capital leases.

Deficit

The amount by which expenses exceed revenues in a fiscal year.

Departmental Credits

A charge from one department to another for services rendered (e.g. printing, rental costs and automotive repairs).

Employee Benefits

The direct expenditures, other than salaries, associated with employee compensation. In the budget, employee benefits are not distributed by programs or departments. Benefits include retirement system contributions, social security contributions, medical and dental insurance, workers' compensation, unemployment payments and life insurance.

Enrollment

The total number of students enrolled, whether resident or non-resident, at a site or home-bound or in a qualifying alternative program. Enrollment is not the same as Average Daily Attendance (ADA). Enrollment will exceed ADA, since not every student achieves perfect attendance.

Every Student Succeeds Act (ESSA)

The Every Student Succeeds Act (ESSA) is a US law passed in December 2015 that governs the United States K–12 public education policy.[1] The law replaced its predecessor, the No Child Left Behind Act (NCLB), and modified but did not eliminate provisions relating to the periodic standardized tests given to students.[2][3] Like the No Child Left Behind Act, ESSA is a reauthorization of the 1965 Elementary and Secondary Education Act, which established the federal government's expanded role in public education.

Fiscal Year

RCSD operates on a fiscal year beginning on July 1st and ending on June 30th.

Full-Time Equivalent (FTE)

Classified employees who work an average of 35-40 hours per week are categorized as 1.0 FTE. For example, an employee who works 20 hours per week is counted as 0.5 FTE.

Generally Accepted Accounting Principles (GAAP)

Accounting standards such as conventions, broad guidelines, rules, procedures, and detailed practices that pertain to universally accepted financial accounting and reporting practices.

Government Accounting Standards Board (GASB)

A federal organization that promulgates standards of financial accounting and reporting with respect to state and local government entities.

Government Finance Officers Association (GFOA)

A national association whose purpose is to enhance and promote the professional management of governments for the public benefit by identifying and developing financial policies and practices and promoting them through education, training and leadership. The GFAO rates outstanding budget documents according to highly specific criteria, honoring organizations who meet these criteria with the annual GFOA Distinguished Budget Presentation Award.

Individualized Education Program (IEP)

Individual Education Program designed for students with special needs.

Mentor Teachers

Specially selected teachers who receive a stipend to work with inexperienced teachers on improving curriculum and instructional practices.

Performance Indicators

Measures of performance because of a specific activity, program initiative, or service rendered.

Program Based Budgeting (PBB)

Program Based Budgeting is a program-based format that supplements the traditional Budget Book report format. PBB is a format that links programs to the Board of Education/Superintendent goals and objectives and provides measures of achievement to evaluate the program. This information supplements the traditional program narrative and financial information.

Program Initiatives

Based on an assessment, program initiatives are developed to target resources for addressing specific problems related to student performance, attainment, attendance, and behavior.

Receivership Schools

If a school identified for Comprehensive Support and Improvement does not meet the exit criteria, and that school is re-identified as a CSI school on the new list of schools that is promulgated every three years, New York State will place the re-identified Comprehensive Support and Improvement school into the New York State Receivership Program pursuant to Section 211-f of State Education law (the New York State School Receivership law) and Commissioner's Regulations 100.19. In addition, if a school previously identified as a Priority School does not meet the exit criteria and is identified as a CSI school on the initial ESSA Accountability Designation list, that school will also enter the Receivership program.

A school receiver, who can be the district superintendent or an independent receiver, has the authority to take dramatic actions, such as removing staff, expanding the school day, instituting wraparound services, or exploring conversion to charter status. Receivership can start under a district superintendent but move to an independent receiver if results do not improve. Schools are placed in receivership if they are among the lowest-performing schools in the State and have not improved after three years.

Recognition Schools

Schools that are high-performing or rapidly improving as determined by the Commissioner.

Revenue Anticipation Note (RAN)

A RAN is a short-term borrowing instrument issued in anticipation of a known and quantifiable future revenue source (i.e., a RAN may be issued in anticipation of the collection of revenue sources later in the fiscal year).

Schools in Good Standing

A School that is not identified as a TSI or CSI school is automatically in Good Standing.

Special Education (SPED)

Special Education is a category of programs that deliver educational services to students with diverse special needs. These programs provide instruction and services specially designed to meet each special education student's unique needs. Programs include classroom instruction, home instruction, instruction in hospitals and institutions, or other settings.

The Federal Law that supports special education and related services is the Individuals with Disabilities Education Act (IDEA). The department currently provides services to approximately 5,200 students with disabilities. Types of disabilities include learning disabilities, emotional disturbance, speech and language impairments, orthopedic impairments, hearing and vision impairments, cognitive impairments, autism and medical fragility.

State Aid

The primary type of State Aid is provided through Foundation Aid, which can be used for any purpose or program.

Targeted Support and Improvement (TSI)

TSI identifications are based upon the performance of the accountability subgroups, not the All Students group. These subgroups are: American Indian or Alaska Native, Black or African American, Hispanic or Latino, Asian or Native Hawaiian/Other Pacific islander, White, Multiracial, English Language Learner, Students with Disabilities, and Economically Disadvantaged. TSI schools are schools for which any accountability subgroup meets the criteria for identification for two consecutive years.

Title I

This federal program provides funds for educationally disadvantaged (low-income) students. Title I monies are intended to supplement state and District funds, with schools involving parents in deciding and monitoring how funds are spent. Title I is the largest federal program included in the No Child Left Behind (NCLB) Act. Funds are generated based on poverty. The use of the funds is determined by need.

The District was reviewed by the New York State Education Department (NYSED). Changes implemented by this visit included establishing an objective and consistent method for allocating funds to schools in keeping with the intent of Title I and to provide equitable distribution of the funds. The allocation to schools will hold schools to a higher level of accountability for results, give parents greater choices and opportunity for input, and promote teaching methods that work.

ROCHESTER CITY SCHOOL DISTRICT - NEW YORK STATE REPORT CARD [2018 - 19]

The New York State Report Card is an important part of the Board of Regents' effort to create educational equity and raise learning standards for all students. Knowledge gained from the report card on a school's or district's strengths and weaknesses can be used to improve instruction and services to students. The report card provides information to the public on school/district staff, students, and measures of school and district performance as required by the Every Student Succeeds Act (ESSA). Fundamentally, ESSA is about creating a set of interlocking strategies to promote educational equity by providing support to districts and schools as they work to ensure that every student succeeds. New York State is committed to ensuring that all students succeed and thrive in school no matter who they are, where they live, where they go to school, or where they come from.

A High School Cohort consists of all students who first enter grade 9 anywhere or, in the case of ungraded students with disabilities, reach their seventeenth birthday in a particular school year (July 1 - June 30). The "year" used to identify the cohort is the year in which the July 1 - December 31 dates fall. Results are reported four years after these students first enter grade 9.
