

RCSD Summer Learning Programs 2017

Why Should Students Enroll in Summer Learning?

- (A) Research proves it helps them do better during the school year.
- (B) Rochester has been nationally recognized for strong summer programs.
- (C) School is a comfortable, safe place for children to enjoy time together.
- (D) All of the above. *—And many more good reasons!*

The Rochester City School District has changed the definition of “summer school”

Attending class in July and August no longer means being stuck in a hot room because you failed or fell behind during the school year.

We do offer instruction for students who need to catch up in English and math, but today’s summer learning is more than that. Students can discover their cultural heritage, pursue interests in art, music, or science and exercise their bodies along with their minds. Our programs aren’t just for students who fall behind, but those who want to get a head start on the next school year.

Summer learning loss is a real problem. More than a century of education research has shown

that, during the summer break, students lose some of the academic gains they made during the school year. The loss is especially severe for children whose families can’t afford books, summer camps and other activities. Low-income children lose about two months of grade-level achievement in math during the summer, and lose more than two months of reading ability. Summer learning programs can end learning loss.

The District will do its best to place every student who wants summer learning in a program that meets his or her needs.

What Parents Should Know

- **Summer learning is at no cost for families.**
- **Transportation is provided**, just like the regular school year: yellow-bus service for K-8 students, RTS passes for grades 9-12. Transportation schedules will be mailed to homes in mid June.
- **Welcome letters will be sent to confirm enrollment.**
- **Free breakfast and lunch is served** at most locations.
- **Most sites are air-conditioned.**
- **Classes are taught by certified District teachers** and in some programs students will be with teachers from their own school.
- **Most summer programming starts the week of July 5th, and many programs last for 5 weeks.**

Current Grades K-5

The application form is available to eligible students from the home school. Families will receive two letters. The first will be from the Summer Learning Principal of the program your child is enrolled in regarding program details, such as location, start and end times, meals, learning and enrichment activities, etc. The second will be from the Department of Transportation with the pick-up and drop-off times for your child. Transportation is yellow bus.

Current Grades 6-8

Students are selected for enrichment programs for middle grades. School Principals and counselors will recommend the appropriate Summer Learning Program based on academics as well as enrichment purposes for students. Applications are available on the District website and at the student's current school. Transportation is yellow bus.

Current Grades 9-12

Commencement program registration will take place the last week of June and will occur at your child's home school. Students must be a city resident to attend. Detailed information will be provided upon registration. RTS bus passes will be provided to all students (RCSD, private, parochial, and charter).

Current Community Partners

RCSD is excited to partner with community-based organizations to deliver a diverse assortment of summer learning experiences. Student recruitment is coordinated by the partnering organization. If your child will be attending a Community Partner Program, please follow the partner's registration process.
