WXXI
Young Adults Manufacturing

CTE programs in the RCSD provide high school students with academic and technical skills, knowledge, and the training necessary to succeed in future careers. As part of the CTE program, it is a goal for students to obtain 54 hours of workplace learning, which includes job shadowing, co-ops, and internships. Students who graduate from CTE programs have multiple options for their future, including continuing their education at colleges and universities, entering the workforce, or participating in technical training.
