Edison Students Featured on RTS Buses for Positive Leadership and Community Impact

Who:

Edison students

Dr. Eric Jay Rosser, Superintendent of Schools

Miguel Velazquez, RTS CEO

Anthony Rodriguez, Edison Career and Technology High School Principal

What:

Edison Career and Technology High School students are being celebrated as their faces appear on RTS buses traveling throughout the City of Rochester, honoring their positive behavior and leadership.

When:

Friday, October 17, 2025, 10 a.m.

Where:

Edison Career and Technology High School
655 Colfax Street
Rochester, NY 14606

Details:

Edison Career and Technology High School students are being recognized for making positive choices on RTS buses through a special partnership between the Rochester City School District and RTS.

The Positive Behavior Choices Award encourages good behavior among students while riding RTS buses, and bus drivers can also engage positively with students.

To honor these achievements, RTS is featuring selected students on buses traveling throughout Rochester. One side of the bus displays a group of Edison students, while the other side features Nicholas Jumpp, a 2025 Edison graduate and winner of the RTS Positive Behavior Essay Contest.

As part of the program, students have already spent half a day at RTS, learning from representatives in public information, communications, IT, and maintenance departments about a day in the life of a transit system. This experience provided students with hands-on exposure to careers in public transportation.
