Communication
The Monthly Report is included in the Member’s packets. Each project was reviewed.
- Tom Roger reported that the School 58 schedule is making progress. The major problems are behind us. A lot of the existing problems have been corrected. We are tracking for a November completion.
- Tom Roger reported that School 12 was originally going to begin this summer and be a 1 year project. There is too much work to complete in 1 year. The District would also like to use the building for summer school this year. Work will start this winter and be completed in summer 2016.

Tom Roger will provide a contingency update for each project at the next meeting and will also report monthly to the Finance Committee.

Everton Sewell requested to have quarterly incident report and quarterly cost recovery report (back charges) from Gilbane.

Compliance Report(s) – Baker Tilly is working on an electronic database collection system. There was a presentation on this new system. A question came from a person in the general audience regarding payments to sub-contractors. Brian Sanvidge (ICO) reported that this is not currently being tracked. Tom Renauto stated that the Compliance Reports for January are not ready to present to the Board. Tom Renauto has requested that both Baker Tilly and Landon & Rian have their final reports revised/corrected within the next 2 weeks. This is a result of the overlap/transition coordination.

Tom Renauto will verify that the ICO Audit has been posted to the web.

Brian Sanvidge reported that he and Tom Renauto are going to be working with the Building Trades Leadership to come up with a training program for subs.

Bob Brown stated that one of the biggest problems for M/WBE firms is financing.

The Budget report is included in the Member’s packets. This was reviewed and the Board discussed contract commitments, and Bond proceeds spending.

Jose Coronas asked How/when do you stop changes on a project? This led to a discussion of added requests, and the vetting process for changes.
Tom Roger led a discussion regarding MCAs for the various projects.

Tom Richards stated that the project should try to relieve the overhead burden on subs where possible. Insurance bonds are an example.

The MWBE and Services Procurement Committee Report for February 27, 2014 is included in the Members packets.

The Finance Committee Report for February 27, 2014 is included in the Members packets.
