**BUDGET**

**Resolution No 2013-14: 32**

**By Member of the Board**

Whereas, in an era of fiscal austerity and ever increasing demands, it is critical that school districts better align financial resources to implement instructional strategies that improve student outcomes; and

Whereas, the Bill and Melinda Gates Foundation (the “Foundation”) offers funding on a

competitive basis under the Managing Money Smartly Grant Program with the intent of awarding funds to selected school districts to function as a testing ground (“Demonstration Site”) for resource alignment work that focuses on processes, practices and tools that help school districts make resource decisions based on student achievement impact of alternatives relative to cost, enact those decisions through an approved annual operating budget and articulate them in a multi-year budget document (the “Initiative”); and

Whereas, pursuant to the terms of the Managing Money Smartly Grant, each selected school district is required to choose a Technical Assistance Partner (“TAP”) from the Foundation’s list of qualified technical assistance providers to facilitate and assist with implementation of the Initiative; and

Whereas, on April 26, 2013, the District submitted to the Foundation a proposal for the District to serve as a Demonstration Site and implement the Initiative with the assistance of a TAP; and

Whereas, the Foundation has reviewed the District’s proposal and selected the District to participate as a Demonstration Site, with the total cost of the Initiative (\$1,200,000) to be co-funded with 70% (\$840,000) underwritten by the Managing Money Smartly Grant and paid by the Foundation directly to the TAP, and 30% (\$360,000) underwritten and paid by the District, provided that no later than August 30, 2013, the District confirms to the Foundation its commitment to participate in the Initiative; and

Whereas, the District is one (1) of only four (4) school districts nationwide and the only City school district selected to participate in the Initiative; and

Whereas, various constituencies have expressed support for the District’s participation in this strategic collaborative effort, including the Board of Education, the Rochester Teachers Association, District Administration and the City of Rochester Administration, as well as other community partners; and

Whereas, the Board is grateful for the Foundation’s commitment to improve the outcomes of District students and the Board endorses the District’s participation in the Initiative, including underwriting 30% of the total cost; and

Whereas, the District has selected and wishes to enter into an Agreement with McKinsey & Company, Inc. to serve as TAP and provide the services required by the terms of the Managing Money Smartly Grant; therefore be it

Resolved, that the Superintendent, or his designee, be, and hereby is, authorized to enter into an Agreement with **McKinsey & Company, Inc.**, 55 East 52<sup>nd</sup> Street, New York, NY, to serve as the District’s Technical Assistance Partner, deliver tools, training, benchmarking and guidance, provide the framework for analysis, leadership, change management as well as execution and monitoring of Operating Budgets for 2014-2015 and future years, with the goal to improve efficiency and effectiveness of budgeting processes and the alignment of resources to implement the District’s instructional priorities based on a consideration of value versus cost, for the period August 1, 2013, or as soon thereafter as the Agreement is fully executed, through October 31, 2014, for a sum not to exceed Three Hundred Sixty Thousand Dollars

(\$360,000.00), funded by the Office of the Superintendent and/or the School District Management Efficiency Grant, through the Office of the Superintendent, contingent upon grant funding and budget appropriations and contingent upon the form and terms of the Agreement having been approved by Counsel to the District.

**By Member of the Board Commissioner Cruz**

Whereas, the District has a commitment to improve student achievement and growth and ensure that each student is academically prepared to succeed in college, life and the global economy; and

Whereas, the District seeks to dramatically accelerate student achievement by increasing instructional time by instituting high-quality, research-based Expanded Learning opportunities (the "Initiative") for all students at various elementary and secondary schools through a combination of District provided services and Community Providers which will include rigorous academics, differentiated academic supports for intervention or acceleration taught primarily by certified teachers, and engaging enrichment opportunities beyond traditional District offerings; and

Whereas, the State Education Department, through the approved terms of the Elementary and Secondary Education Act (ESEA) Flexibility Request defines the standard for Expanded Learning in Priority Schools to be as follows: offered to all students in schools implementing a Transformation or Turnaround model, and at a minimum to all students eligible for Academic Intervention Services in schools implementing whole school reform model not funded by School Improvement Grant funds; serve at least fifty percent of eligible students; ensure integration of academics, enrichment, and skill development through hands-on experiences that make learning relevant and engaging; offer a range of activities that capture student interest and strengthen student engagement in learning; actively address the unique learning needs and interests of all types of students, especially those who may benefit from

approaches and experiences not offered in the traditional classroom setting; and

Whereas, the Rochester community has a variety of Community Providers with expertise in offering youth development, socio-emotional and wrap around support, and enrichment programs that can enhance learning opportunities beyond the traditional District offerings; and

Whereas, the District seeks to maximize opportunities for collaboration and integration of such services to dramatically improve student achievement through well-matched, strategic, intentional partnerships for collective impact; and

Whereas, on May 9, 2013, the District issued a Request for Proposal (RFP) entitled Community Providers to Support Expanded Learning, which specified among other things the District's expectations, desired outcomes, scope of services, proposal response format and the criteria whereby respondents would be evaluated; and

Whereas, the District has, consistent with the RFP process, identified the Community Providers as set forth below, to support the Initiative, with the understanding that such identification is not a guaranty that the District will enter into an Agreement with the Community Provider, and that any Agreement the District may enter into is contingent upon, among other things, grant funding and budget appropriations, each school's plan, and alignment of the Community Provider's service offerings with student's needs; and

Whereas, the Board acknowledges the strategic significance and urgency of the Initiative and endorses moving forward with implementation; therefore be it

Resolved, that the Superintendent, or his designee, will submit concomitant with each proposed Agreement an evaluation plan to include attendance, student/family satisfaction, demographic data, and student achievement results aligned with NYS accountability measures; and be it further

Resolved, that the Superintendent, or his designee, will develop and disseminate to all schools and programs eligible for the Initiative, a clear set of guidelines and expectations, along with a compendium of potential expanded learning configurations including delineation of the role of Community Providers; and be it further

Resolved, that the Superintendent, and his designees, will devote specific and focused attention to the disproportionate educational crisis affecting African American and Latino students in the development of expanded learning offerings, according to each Community Provider's evidence-based offerings and strengths associated with success in educating students of color; and be it further

Resolved, that the Superintendent, and his designees, will proceed with implementation of the Expanded Learning Initiative and provide to the Board at the August monthly business meeting a Resolution for authorization to enter into an Agreement with one or more of the following **Community Providers** to support **Expanded Learning** through delivery of onsite services, based upon specific requests by each expanded learning school, that align to the school's instructional priorities and accountability data and is provided within the expanded learning time, with the goal to improve student achievement as demonstrated by accelerated

student learning rates in literacy and mathematics, improve resilience and increase protective factors and improve student engagement, for the 2013-2014 school year, with the actual cost of Community Provider's services determined based upon actual attendance of enrolled students and paid at a "not to exceed" rate per hour, wherein the anticipated sources of funding include one or more of the following: General Fund, Title I Grant, 21<sup>st</sup> Century Learning Community Grant, School Innovation Fund Grant, School Improvement Grant and Private Foundation Grants.
