

Line Segment Constructions

Date _____ Period _____

Construct a line segment congruent to each given line segment.

1)

**Construct a line segment whose length is equal to the sum of the lengths of the given line segments.**

2)

**Construct a line segment whose length is equal to the difference of the lengths of the given line segments.**

3)

**Construct a line segment the given number of times longer than the given segment.**

4)

2 times as long

**Construct a line segment half as long as the given line segment.**

5)

Divide each line segment into the the number of equal parts specified.

6)

3 equal parts

Construct the perpendicular bisector of each.

7)

Locate the midpoint of each.

8)

Construct a line segment perpendicular to the segment given through the point given.

9)

10)

11)

Construct a line segment through the given point parallel to the given line segment.

12)
