

My expectation is that you come to class prepared and ready to work. That means you are in the room when the bell rings, you bring all your supplies to class, and that your homework is complete.

Pencils are a must in math class

M

Homework:

Homework is a very important part of learning. When it is assigned I will always give the date it is due. Late homework will only be accepted for the following reasons:

- 1) Student is absent the day homework was assigned.*
- 2) Student is absent the day homework is due.*

A

Binder Check:

Each of you will have a 3-ring binder that will serve as a folder. I will be checking the binders once each marking period to make sure that you have all the necessary materials for each unit. I will hand out a list of what should be in your notebooks and I will tell you in advance when the check will take place. This will count as a quiz grade.

T

Grading:

I will have your current grade available each Monday. If at any time you would like to see your grade please see me after class or during a free period. Your grades are broken down as follows:

- 1) Homework average – 10%*
- 2) Class work and Class participation –20%*
- 3) Quiz average –30%*
- 4) Test average – 40%*

H

Finally:

Just doing well on unit tests will not give you a good grade. You must do your homework as well. It shows me that you are putting effort into this class. You will be expected to keep a grade sheet for each quarter. This will help you keep track of your current grade as well.
