

*****Be sure to access CORAdvantage through Chrome!**

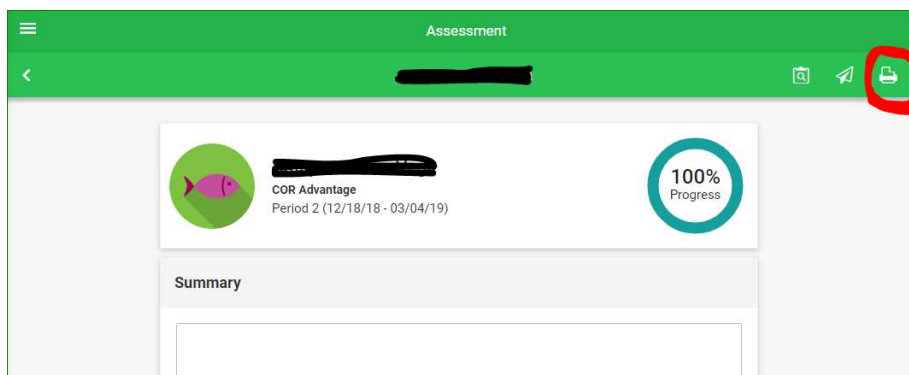

In assessments, make sure you have chosen period 3, then click on the icon above child's name.

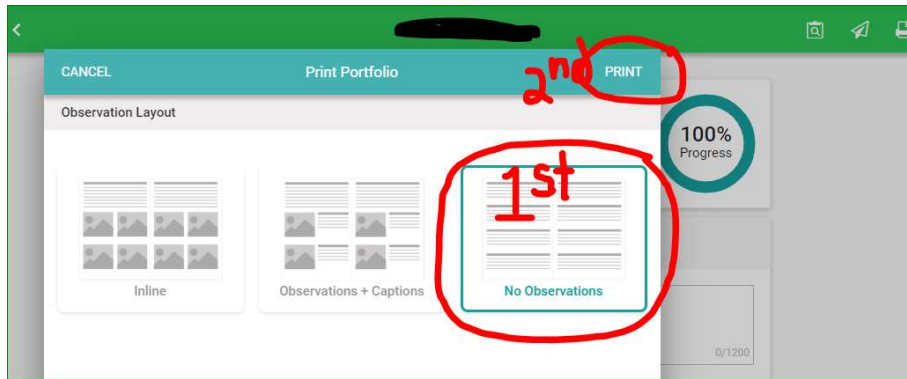

The cover page of the summary report will appear. Under the student's name you will see the summary box. This is where to enter the Description of a Learner

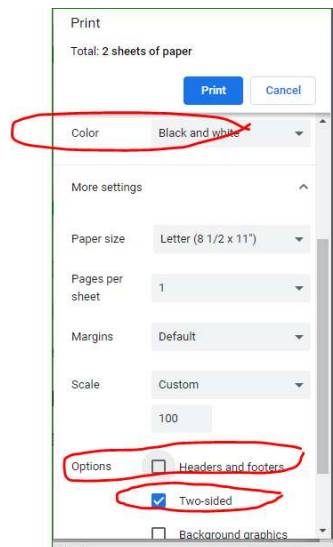

Once you have completed the Description of Individuality, select the printer icon.

When options appear, first select “No Observations” and then select “Print”

Print the report according to your printer settings. A couple of things to consider are whether to print in color or black and white, eliminating headers/footers, and choosing two-sided print.

Here is the preview of the report
