Introduction and Overview
This document was created collaboratively by the secondary teachers at WOIS during the summer 2011. It is our hope to refine and expand this document as we grow and learn.

Model Citizen Pledge

We the crew of World of Inquiry
make this pledge for all model citizens.

We should all give service and
have compassion for others.

We will celebrate our discoveries
and wonderful ideas.

Through reflection, we will learn
from our successes and failures.

While collaborating we will show caring
for diverse people and our natural world.

We are all responsible for our own learning.

Our education is our future.

EL Principles: What We Value and Believe

1. **The Primacy of Self-Discovery:** Learning happens best with emotion, challenge, and the requisite support. People discover their abilities, values, passions, and responsibilities in situations that offer adventure and the unexpected. In Expeditionary Learning schools, students undertake tasks that require perseverance, fitness, craftsmanship, imagination, self-discipline, and significant achievement. A teacher's primary task is to help students overcome their fears and discover they can do more than they think they can.

2. **The Having of Wonderful Ideas:** Teaching in Expeditionary Learning schools fosters curiosity about the world by creating learning situations that provide something important to think about, time to experiment, and time to make sense of what is observed.

3. **The Responsibility for Learning:** Learning is both a personal process of discovery and a social activity. Everyone learns both individually and as part of a group. Every aspect of an Expeditionary Learning school encourages both children and adults to become increasingly responsible for directing their own personal and collective learning.

4. **Empathy and Caring:** Learning is fostered best in communities where students' and teachers' ideas are respected and where there is mutual trust. Learning groups are small in Expeditionary Learning schools, with a caring adult looking after the progress and acting as an advocate for each child. Older students mentor younger ones, and students feel physically and emotionally safe.

5. **Success and Failure:** All students need to be successful if they are to build the confidence and capacity to take risks and meet increasingly difficult challenges. But it is also important for students to learn from their failures, to persevere when things are hard, and to learn to turn disabilities into opportunities.

6. **Collaboration and Competition:** Individual development and group development are integrated so that the value of friendship, trust, and group action is clear. Students are encouraged to compete not against each other, but with their own personal best and with rigorous standards of excellence.

7. **Diversity and Inclusion:** Both diversity and inclusion increase the richness of ideas, creative power, problem-solving ability, and respect for others. In Expeditionary Learning schools, students investigate and value their different histories and talents as well as those of other communities and cultures. Schools and learning groups are heterogeneous.

8. **The Natural World:** A direct and respectful relationship with the natural world refreshes the human spirit and teaches the important ideas of recurring cycles and cause and effect. Students learn to become stewards of the Earth and of future generations.

9. **Solitude and Reflection:** Students and teachers need time alone to explore their own thoughts, make their own connections, and create their own ideas. They also need time to exchange their reflections with other students and with adults.

10. **Service and Compassion:** We are a collective crew, not individual passengers. Students and teachers are strengthened by acts of consequential service to others, and one of an Expeditionary Learning school's primary functions is to prepare students with the attitudes and skills to learn from and be of service.

- Ensures a safe environment that permits all students to engage in active learning.
- Is Achieved when students, parents/guardians, teachers, principals, administrative and other support personnel accept responsibility for their own behaviors and respect the rights of others.

**In-School Suspension 7:45am-11:00am & 12:00pm-2:30pm**

The Rochester City School District (RCSD) is committed to ensuring that our schools are safe, secure, and orderly environments in which teaching and learning take place each day. Safe, supportive school environments depend on students, staff, and parents demonstrating mutual respect. All members of the school community: students, staff, and parents must know and understand the standards of behavior which all students are expected to live up to and the consequences if these standards are not met. The RCSD Code of Conduct provides a comprehensive description of unacceptable behavior.

The RCSD Regulations of Intervention and Discipline provides a range of permissible disciplinary and intervention measures which may be used when students engage in such behaviors, as well as a range of guidance interventions schools may use to address student behavior. The RCSD Board of Education’s Code of Conduct and the RCSD Regulations of Intervention and Discipline apply to all students, including those with disabilities.

**In-School Suspension (ISS)** is one disciplinary action that may be assigned to a student after other interventions have been exhausted or the offense is repetitive or serious in nature (ex: unsafe).

The purpose of the in-school suspension (ISS) assignment is to hold students accountable for their behavior and their school assignments while they remain in school after having committed a violation of the Rochester City School District Board of Education Policies on the student code of conduct.

Education cannot proceed effectively without good, consistent discipline. Discipline is the training of the mind and character in order to improve the quality of life. Discipline provides the orderly conduct needed to operate the school. Students are expected to behave in a mannerly and cooperative way to promote their educational, social and emotional development. Students who do not comply with the accepted conduct standards will be disciplined in accordance with the Rochester City School District Board of Education Policies involving Code of Conduct.

- Students will enter through Exit 1 (University Avenue Entrance) and surrender all electronic equipment (i.e. cell phones, I-pods, CD players, etc.) to the School Safety Officer upon entering the building. Items will be safely locked away during the school day and returned to student at the end of the ISS school day. Students will go through the scanning process.
- Students will be expected to remain in an assigned area prior to being ushered directly to ISS instead of Crew by the ISS Teacher. Students are not to leave the assigned area.
- Students must wear their school uniform while in ISS. If the student does not come in uniform, the ISS Teacher will contact the family so that they can bring the student’s uniform. Additional follow-up will be coordinated by the administrator of student management.
• Students will be assigned a specific seat and must stay in their seats unless given permission to move from the ISS Teacher.
• Students will follow all RCSD school board policies and school rules while in ISS.
• No gum, food or drinks will be allowed in ISS. **At 11:00am, the morning ISS group will be dismissed from school and escorted out of the building.**
• All daily assignments must be completed on the day it is assigned.
• ISS Students will not be allowed to attend any extra-curricular activities during their time in ISS (SWMM, athletic events, practices/rehearsals, exhibition nights, pep rallies, guest speakers, etc.)

**School Wide Meeting**

One Wednesday per month is designated for School Wide Meeting (SWM), a 30 minute student run show featuring our radio show (WGYB), student presentations, awards, and activities. SWM is a fun, relaxed, and (at times) serious place. While SWM generally include comedic elements and light hearted competitions, SWM is also where the school celebrates successes and has open and honest discussions about community challenges. The meetings will alternate between Middle and High School.

Each week a different crew (or pair of crews) is responsible for presenting the reading and greeting; while another crew is responsible for leading the Griffin Challenge (weekly activity).

Students are expected to actively participate each week. Active participation means working with your crew to present elements, collaborating with your crew during the Griffin Challenge, celebrating other crew member’s successes and being respectful of all crew members at all times.

**Academic Expectations**

**Homework Policy:** At teacher/grade level’s discretion

**Make-Up Work:** Students are expected to make up any work missed due to an excused absence. Students must connect with each teacher to receive missed work. Any incomplete work will receive a grade of 0 if not completed within the time period specified by the teacher. Students with excused absences in excess of 3 days must meet with their crew advisor to develop a plan of action.

**Cheating:** Cheating during a quiz, test or copying another’s assignment or allowing someone else to copy your assignment. If a student is caught cheating during an assignment, he or she will receive a “No Credit” for the assignment. Penalty may also include a written apology to the teacher or other offended party. Parent and administration will be notified.

**Plagiarism:** Plagiarism is to use, intentionally or unintentionally, the ideas or writing of another as one’s own. This can include paraphrasing or manipulating text written by another without awarding the author credit. It is a form of stealing. When a teacher determines that a student has plagiarized, the teacher will first determine if the student’s actions were knowing or ignorant; did the plagiarism occur before or after a related research skill has been taught?

In cases where the plagiarism is deemed inadvertent (e.g.: improperly cited sources), the student will be educated and required to resubmit the assignment independently. In cases where the plagiarism is deemed flagrant (e.g.: an essay copied from the Internet or a repeated offense), the case will be referred to the administration for disciplinary consequences.
**Food & Drink Policy**

It is important to maintain a building that is safe and clean to create pride in the space, and to minimize pests, litter, and safety hazards.

- Students may not consume food outside of the cafeteria - this includes hallways and classrooms.  
  *If food is provided for a classroom celebration by the teacher, students must consume food in that classroom with that teacher.*
- According to New York State law absolutely no food or drinks are allowed in science labs. These same expectations must be upheld in the library, music rooms, and gym.
- Water is the only drink allowed in classrooms.
- While using Chromebooks students must not have food or drink.
- No sunflower seeds in the building.
- No glass bottles/containers/etc.

Students may have water as long as it is stored in a clear plastic water bottle. Other drinks—flavored water, juices, milk etc.—may be consumed in the lunch room during lunch.

**Students will be asked to throw away unapproved drinks and food.**

**Privilege Policy for 11th & 12th Graders**

Juniors (11th) and Seniors (12th), as determined by RCSD policy, will be allowed to go off campus for their lunch period, providing they have returned the signed permission form. Additionally, this PRIVILEGE may be revoked at any time by administration if the student is on academic probation, is under disciplinary action, or abuses the privilege while off campus.

The following parameters apply to this privilege:

- The student is NOT to bring outside food back into the building. All food items must be consumed elsewhere. Food brought back to the building will be taken and returned at dismissal.
- If the student returns to the building prior to the lunch dismissal bell, the student is to return to the cafeteria. This is non-negotiable.
- Students are to leave the building within 5 minutes after the bell. If they do not do so, it is assumed they are reporting to the cafeteria (or an assigned teacher) and may not be allowed to leave.
- The student MUST have their EXIT CARD (issued once this form is signed & returned) in order to exit the building. Exit cards are left at the front desk and picked-up on return to the school. Lost exit cards can be replaced for $1.00 and the student will not be allowed to leave while this pass is “on order (turnaround time is usually 1-2 days). If a student returns after the bell, the exit card will be given to their administrator (Johnson) for return.
- Cell phones will NOT be distributed to students while out of the building. Students should be prepared to pay with alternative methods that do not require use of their phone.
- Replacement EXIT CARDS may be purchased from the Secondary Administrative Offices for $1.00.
Clubs

Teachers may choose to offer clubs outside of the school day in order to provide students with enriching experiences by sharing interests with students or in response to student requests.

Guidelines for establishing and maintaining clubs

● Students present a written proposal to an advisor (adult) who is willing to oversee and be responsible for the club
● Proposal is given to Administration for feedback and approval
● Advisor provides a schedule to the students and their families of the club meeting dates, times and location. The same information is submitted to the main and house offices.
● Communication is maintained by the advisor with office staff (main and grade level) by emailing a list of students in attendance for each meeting day so that students can be located as needed.
● Advisor maintains communication with students and parents for cancellations and changes.
● Advisor ensures custodial staff is aware of time and location of club
● Advisor contacts Nancy Resto with any transportation requests/fees etc
● Advisor must ensure that all students participating in the club are escorted out of the building at the conclusion of the meeting.

Participant Expectations: All members of any club must adhere to RCSD code of conduct, building specific rules, and guidelines

Electronic Device Policy

As per RCSD policy, the use of cell phones, ipods, CD players, MP3 players, pagers, beepers, headphones, headsets, ear buds, tablets, eReaders, and any other personal computing or electronic device may result in disciplinary actions.

The purpose of this policy is to allow the World of Inquiry School community to be able to focus on education and maintain an inviting and safe educational environment for all. A constituency body of teachers, parents, administrators and members of SBPT adapted this policy to suit the needs of WOIS in response to calls to clarify expectations.

Phones for grades 7-12 will be collected upon entry and placed into bins labeled for their 8th period class. Each phone will also be placed in a plastic bag labeled with the student’s name. The bins will be delivered by the administration/SSO team during 8th period and phones will be returned to students by their 8th period teacher.

Reasons for prohibiting cellular phones and other electronic devices include, but are not limited to:

❖ **Focus on Instruction** – the primary reason for being in school is to focus on student education with the goal set on graduation; this remains the primary focus

❖ **Student Safety** – while a valuable communication tool, cellular phones may be used to endanger others; each individual student’s right to privacy should be maintained

❖ **Building Safety** – the use of cellular phones during emergencies and drills is prohibited

❖ **Theft Prevention** – cellular phone theft is now the primary type of theft in schools; the cellular phones collected will be stored in a secure and monitored location to prevent such incidents from occurring on campus
Cyberbullying Prevention – limiting the availability of cellular phones during the school day will prevent this type of incident from occurring during the school day.

The students alone will bear the cost of the loss of any prohibited item, and WOIS staff are not responsible for investigating the loss or theft of any prohibited items; so please leave these valuable items at home.

Violations of the Discipline Code – students who violate the cell phone policy will be subject to the appropriate disciplinary action.
