Joseph C. Wilson High School | 2021-22 Profile

Location and Description
The Rochester City School District (RCSD) is one of the largest urban districts in New York State and is located in Rochester, New York. Rochester City School District serves a diverse population of students in grades PreK-12 at 55 Pre-K sites, 46 elementary and secondary schools, and 10 alternative programs. There are 26,078 students enrolled in the district. The demographics are as followed: Black or African American - 53.1%, Hispanic - 32.7%, White - 9.6%, Asian - 2.9%, and Other - 1.7%.

Mission: To foster students’ individual talents and abilities in a nurturing environment of equity.

Vision: The Rochester City School District’s vision is to ensure all students have equitable access to high-quality education and graduate each student as a productive member of society.

School Mission
Our mission is to use the International Baccalaureate (IB) philosophy to guide individual student success. This means: Individualized high standards for all Multiple pathways toward graduation including career development, Regents, dual-credit, Advanced Placement (AP), and IB Diploma Program (DP) courses Infusing the IB philosophy into all of our courses Backward mapping DP courses to ensure future success An international mindset that will be at the forefront of our environment and pedagogy Utilizing the IB approaches to learning and learner profile in all courses to develop the whole child.

School Summary
Wilson Magnet High School is one of several high schools in the city school district located in Rochester, NY. We are a Title I school serving nearly 800 students in grades 9-12. At Wilson, we celebrate the fact that we are a city school, and offer an array of academic and extracurricular activities to engage our dynamic student body. We are a racially and culturally diverse school, and take pride in our diversity. Our area’s economy has undergone many transformations during its history. Rochester became the “Flour City” in the early 19th century due to the inception of water-powered mills. The Erie Canal made the city an early American boomtown, and the development of the photographic industry and Kodak propelled Rochester into a position of worldwide economic significance. Today we are transforming to a more diverse economy focused on high-tech industry, optics, education, health care, and a growing small and mid-sized business sector. While Rochester has been slow to recover from the recession a decade ago, the area is showing gains in several key economic areas. Rochester is the third largest city in the state, and currently ranked as the third in the nation for rates of childhood poverty. It is because of this that we are passionate about providing equity and access to higher level courses for our students. In the past two years, we have expanded the number of students entering the IB Diploma Programme, from 1/20th of the cohort to 1/3rd. Wilson has one of the longest standing International Baccalaureate Programmes, having been authorized in January 2000. Studies have shown that low-income students have much better results in terms of access to college admissions and retention in university after participating in an IB programme. All of our 9th and 10th grade students are enrolled in the IB Middle Years Programme coursework. In 11th grade, students can choose to enter the IB Diploma Programme. Students study three courses at higher level and three at standard level, over two years. Students must choose one subject from each of groups 1 to 5, thus ensuring breadth of experience in languages, social studies, the experimental sciences and mathematics. The sixth subject may be an arts subject chosen from group 6.

International Baccalaureate Programme
Joseph C. Wilson Magnet High School is both an IB World School authorized to offer the prestigious Diploma Program and Candidate School working in partnership with Wilson Foundation to offer the MYP of IB. This 21st century learning provides students with strong academic preparation for post-secondary studies through the extensive offerings of college level IB and AP courses. Wilson’s Traditional of Excellence earns the school a national ranking annually. Our Mission is Excellence for all students, in all aspects of their development.

Life in the 21st century, in an interconnected, globalized world, requires critical-thinking skills and a sense of international-mindedness, something that International Baccalaureate (IB) Diploma Programme students learn to know and understand. The IB Diploma Programme is designed as an academically challenging and balanced program of education with final examinations that prepares students, normally aged 16 through 19, for success at university and life beyond academe. The program is usually taught over two years and has gained recognition and respect from the worlds’ leading universities. The International Baccalaureate (IB) Diploma Programme is a two-year liberal arts curriculum designed to meet the needs of the highly motivated and academically talented student and, while promoting international understanding. Due to its rigorous nature, preparation for the IB program is offered through the IB Middle Years curriculum in the 9th and 10th grades and/or through other accelerated curricula. The IB diploma is recognized internationally and leads to advanced status in universities throughout the United States. All students applying to these programs must meet the following eligibility criteria: 3.0 Academic GPA, Algebra I and Spanish or French for high school credit.

Life in the 21st century places multiple demands on students making transitions through adolescence. They are at a crucial period of personal, social, physical and intellectual development, which is often marked by uncertainty and questioning. The International Baccalaureate (IB) Middle Years Programme is designed to help students find a sense of belonging in the ever-changing and increasingly interrelated world around, which fosters a positive attitude to learning. The IB Middle Years Programme, for students aged 11 through 16, provides a framework of academic challenge that encourages students to embrace and understand the connections between traditional subjects and the real world, which creates critical and reflective thinkers.

IB Classes Offered
IB Biology HL
IB Biology SL IB English HL
IB Environmental SL
IB History of the Americas HL
IB ITGS HL
IB ITGS SL
IB Design Technology
IB Math Studies SL
IB Mathematics SL

Course Descriptions

Social Studies:
Social Studies education is required for all students every year of their school careers from Kindergarten through grade twelve. In the early grades, students explore their own families, communities, and the communities of others as they build their historical thinking skills. As the years progress, students conduct more in-depth investigations of peoples in the United States and the rest of the world in order to develop a better understanding of the core areas of social studies: government, economics, geography, and history. Ultimately, it is the goal of the social studies program to help students develop the critical skills needed to be active citizens in our community, our country, and our world.

Science
Science offerings for the secondary level include the following: Living Environment, Physical Setting/Earth Science, Physical Setting/Chemistry, Physical Setting/Physics, General Chemistry, Environmental science and Anatomy & Physiology.

Mathematics
There are a variety of mathematics offerings to meet the needs of scholars. The following courses are offered at the secondary level. Algebra 1 Regents, Algebra I Math lab (taking currently with Algebra I R), Geometry, Algebra- Geometry Blend, Geometry Regents, Advanced Algebra with Financial Applications, Algebra 2, Algebra II Regents, Algebra II Regents Honors, Pre-Calculus, AP Statistics and AP Calculus.

CTE
CTE offers work-based learning, Career Pathways to Public Safety programs as well as the following pathways: Automotive, Manufacturing and Engineering, Construction and Design, Digital Media Arts and Communication
