Description / Justification: The School-Based Planning Team, in collaboration with our Pencil Partners, will design a handbook for staff members to help navigate through the APPR (Annual Professional Performance Reviews) process by connecting the essential elements and descriptors for highly effective teaching in all four domains and mapping it to our unique school goals and program. The handbook will be a living document that will both describe and reinforce the important instructional, environmental, and cultural elements of our school. Teachers will be able to self-assess and track their progress toward becoming a highly effective teacher using specific examples from our school based on the official documents from the district and state.

Approve and Submit Resolution to the New York State School Boards Association (NYSSBA)

By Member of the Board Commissioner Powell

WHEREAS, the Policy Development and Review Committee of the Board of Education has recommended to the Board of Education approval and submission of the following resolution to the New York State School Boards Association (NYSSBA) for consideration to include in its legislative agenda:

**RESOLUTION FOR SUBMISSION
TO THE NEW YORK STATE SCHOOL BOARDS ASSOCIATION (NYSSBA)**

Be it resolved that the New York State School Boards Association support the provision of State Aid for transportation of students in child safety zones for all school districts and when hazards of any type have been demonstrated to jeopardize student safety in walking to school.

Rationale

NYS Education Law Article 73, Part 3, §3635-b allows school districts to determine whether a “hazardous zone” exists that would jeopardize child safety in walking to and from school. If a hazardous zone is shown to exist, then the district may create a “child safety zone” to provide transportation within the statutory distance limits created for regular transportation (i.e. two miles for K-8 students and three miles for students in grades 9-12). These additional transportation expenses are eligible for NYS Aid.

However, the law applies to “common, central, central high school, union free school district, or city school district of a city with less than one hundred twenty-five thousand inhabitants...” (NYS Education Law Article 73, Part 3, §3635-b, Section 1) and specifically *excludes* districts in cities with more than one hundred twenty-five thousand inhabitants (i.e. large city school districts). Therefore, there is no legal mechanism for large city school districts to obtain reimbursement for transportation expenses incurred to protect students against hazards encountered in walking to school. This is an issue of equal protection under the law for all students, regardless of the type of district in which they reside.

Moreover, the law only recognizes specific types of hazards based on “physical safety conditions”, such as:

- existence of sidewalks
- type of road surface
- width of road and of sidewalk
- volume and average speed of traffic
- density of population
- the commercial, industrial, or residential character of the area, and
- presence of traffic safety features (i.e. traffic lights, street lights, and traffic patrols)

Therefore, be it RESOLVED, That the Board of Education hereby agrees to submit this resolution to the New York State School Boards Association (NYSSBA) to consider including large city school districts and other types of hazards to child safety in this law.
