John Walton Spencer School No. 16
School-Wide Positive Behavior Supports (PBIS)

The goal of this initiative is to improve social competence, develop environments that support academic success and contribute to an increase in our school’s capacity to address the behavioral support needs of all student and staff effectively and efficiently. Students are expected to be respectful, responsible, safe and ready to learn. Regular, predictable, positive learning and teaching environments have been established; adults and peers have been trained to serve as positive role models, teaching and modeling behavioral expectations; and a system has been developed for providing regular positive feedback and recognition.
