Course Descriptions

Social Studies:
Social Studies education is required for all students every year of their school careers from Kindergarten through grade twelve. In the early grades, students explore their own families, communities, and the communities of others as they build their historical thinking skills. As the years progress, students conduct more in-depth investigations of peoples in the United States and the rest of the world in order to develop a better understanding of the core areas of social studies: government, economics, geography, and history. Ultimately, it is the goal of the social studies program to help students develop the critical skills needed to be active citizens in our community, our country, and our world.

English

English I – English IV
Four units of English and the English Regents are required for high school students to graduate in New York State. Our program is designed to foster the reading, writing, listening, speaking, language, and critical thinking skills necessary to be college and career ready. Students will be required to read, analyze and synthesize across literary and informational texts, write for multiple audiences, tasks, and purposes, listen and speak in collaborative discussions with their peers, and demonstrate a solid command of the English language. English classes are selected with students according to reading and writing skill level, as determined by state assessments, student performance and student interest. Students who demonstrate a need for additional assistance with English skills will receive these services through supplemental instruction. All students are required by New York State to take the Common Core English Regents Examination; a student must pass this exam in order to earn a diploma in New York State. Eligible students may take the exam in other grade levels.

Science

Science offerings for the secondary level include the following: Living Environment, Physical Setting/Earth Science, Physical Setting/Chemistry, Physical Setting/Physics, General Chemistry, Environmental science and Anatomy & Physiology.

Mathematics

There are a variety of mathematics offerings to meet the needs of scholars. The following courses are offered at the secondary level. Algebra I Regents, Algebra I Math lab (taking currently with Algebra I R), Geometry, Algebra II Geometry Blend, Geometry Regents, Advanced Algebra with Financial Applications, Algebra 2, Algebra II Regents, Algebra II Regents Honors, Pre-Calculus, AP Statistics and AP Calculus.

CTE

CTE offers work-based learning, Career Pathways to Public Safety programs as well as the following pathways: Automotive, Manufacturing and Engineering, Construction and Design, Digital Media Arts and Communication

World Languages

RCSD World language courses offers scholars American Sign Language, French, Latin, Spanish, Mandarin Chinese and AP offerings.
